Central's Albany Bridge Out of Action by Fire

Firemen From 2 Cities Respond

Albany, May 19 (AP)—The New York Central railroad's main line passenger train bridge across the Hudson river was knocked out of action today by a spectaculer fire that engulfed the center of the span in flames and billowing clouds of smoke.

The fire broke out about 9:15 a. m., apparently in a wooden cribbing under the bridge's swinging span.

Fire-fighting crews from Albany, Rensselaer across the river and the railroad brought the flames under control about an hour and a half later.

THE CAUSE of the fire was not determined. However, it was reported that railroad crews had been working on the span with acteylene torches.

During the fire, three passenger trains were re-routed across the railroad's freight bridge about a half mile north of the passenger span. These included the east-bound Lake Shore Limited and west-bound advance Empire State Express.

The dispatcher's office said it did not know how long the passenger bridge would be out of action.

THE FLAMES swept upward from the wooden cribbing to ignite the wooden track ties on the bridge. The cribbing, about 200 feet long, surrounds two concrete piers under the section of the steel span that swings out for river traffic.

The thick black columns of smoke could be seen from a considerable distance. Crowds flocked to the scene. Police kept them from the approaches to the bridge.

THE ALBANY department sent six pieces of apparatus to the scene. The railroad sent a special fire-fighting train. A coast guard boat and a tug owned by a private company joined in the battle.

A switch engine had moved out on the bridge when the engineer discovered the fire. He backed off the locomotive.

THE BRIDGE is a few hundred yards from the heart of Albany's business district.

Firemen said some of the steel track on the bridge was warped by intense heat from the flames. Also damaged was the mechanism that operates the opening of the span. The span was closed when the fire broke out.

Highwoods Couple Buys Kiersted Home

Saugerties, May 19 — The Kiersted home, located on Main street across from Saugerties High School, and considered one of the oldest homes in this village, has been sold to Mr. and Mrs. Charles W. Steele, Jr., of Highwoods.

Although no sales price was disclosed, it was learned that the transaction was more than $20,000.

The Kiersted home was built in 1728 by Hiskia DuBois and was later sold to Dr. Christopher Kiersted. Ownership eventually was changed to the late Mrs. Sadie Ehrgott.

Daniel M. Lamb, local attorney, negotiated the sale.

Two Are Killed South of Pawling

Pawling, N. Y., May 19 (AP)—Two men were killed last night when their car which failed to make a turn on Route 22 south of here knocked down several guard rail posts and struck a telephone pole.

Anthony Di Rubba, 24, of (South street) Patterson, N. Y., owner of the car, was thrown out. He died a few hours later in St. Francis Hospital, Poughkeepsie, of a fractured skull and internal injuries.

Ellis M. Fairhurst, 60, of (Route 22) Patterson, was dead when taken out of the wrecked car. His neck and skull were fractured.

State police said the car apparently turned over several times before it struck the telephone pole.

Postal Raise of 8.6 Is Vetoed by Eisenhower

Washington, May 19 (AP) — President Eisenhower today vetoed a bill to boost the pay of 500,000 postal workers by an average 8.6 per cent.

The President told the Senate in a veto message he regretted his action and earnestly hoped and recommended that "the Congress will quickly consider and enact postal pay legislation that will be in the public interest and fair to all the half million employes who man the postal service."

He said the vetoed measure would impose " a heavier burden upon the taxpayer than is necessary."

Eisenhower listed these three reasons for his veto:

"First, the bill creates new discriminations or inequalities which would affect many thousands of postal employes.

"Second, the bill creates administrative problems such as the establishment of thousands of individual pay rates. It forces awkward and unfair administrative practices in a government department whose operations affect every person, every enterprise, every community in the country.

"Third, the bill imposes a heavier burden upon the taxpayer than is necessary to establish salary rates throughout the department which will compare favorably with rates for similar work elsewhere in government and in private industry."

The President has indicated an average 7.6 raise is about as far as he is willing to go.

Social Workers See Need

Mental Health Service Favored for Local Area

Eighty-seven per cent of professional workers surveyed in a recent mental health study in Ulster county said that a county mental health service would be of help to them in their work, it was disclosed Wednesday night.

A preliminary report on the study was given by the Rev. Edward I. Farrelly, chairman of the questionnaire committee, at a meeting of the Mental Health Committee of the Ulster County Tuberculosis and Health Association.

A TOTAL of 233 questionnaires was returned by clergymen, doctors, school officials and other professional people whose work brings them into contact with large numbers of the population. The clergymen alone represented more than 60,000 residents—or two-thirds the entire population of Ulster county—in their dealings.

In answer to the question as to whether a county mental health service consisting of a team of psychiatrist, psychologist and psychiatric social worker would be of use to them, 87 per cent said yes and 9 per cent said no. The balance had no opinion or said they didn't know.

ASKED WHETHER they felt present facilities for counselling, diagnosis and treatment are adequate in Ulster county, 79 per cent said no, 7 per cent said yes and the remainder had no opinion or didn't know.

Father Farrelly's report was given as a part of the report of the mental health study committee, of which City Judge Raymond Mino is chairman.

Two Collisions Noted Between Autos, Bicycles

There were two collisions between cars and bicycles in the city yesterday, one of which resulted in minor injuries to Andrew J. Cook 3rd, six-year-old son of Attorney and Mrs. Andrew J. Cook Jr., of 28 Presidents Place.

The Cook child was treated for cuts and bruises of the knees and elbow by Dr. Curtis P. Bight, 69 Spring street, whose office was near the scene of the accident.

Mrs. Cook told The Freeman this morning that the child was all right, although the accident had come "as a great sock to all of us." She said the shock was probably "greatest to the man" —meaning the driver of the car, Alton Lester Stewart Jr., 28, of 333 Third avenue.

ACCORDING to Stewart's report to city police he was driving his 1941 sedan south on Hone street and making a left turn into Spring street when the child rode out of Presidents Place into the right front fender of the vehicle.

He said the boy fell to the pavement after the collision. Stewart took him to the office of Dr. Bight for treatment. The accident occurred shortly before 9 p. m.

The other accident involving Francis Jablonski, 10, son of Mr. and Mrs. Frank J. Jablonski of 56 Hanratty street, occurred about 6:20 p. m. on Delaware avenue near the upper railroad crossing, according to a report on the city police blotter.

REPORT OF the accident came from Frederick A. Bleakley of Maple street, Peekskill, who said he was driving his 1953 sedan west on Delaware avenue when his car was in collision with a bicycle on which young Jablonski was riding. He said the child claimed no injuries. Mrs. Jablonski was notified.

Mrs. Jablonski said this morning the boy "seems all right." He received a bruise on the elbow, she said, and seemed a "little feverish," perhaps due to the "excitement" of the collision.

Lighting Program Extended

Area Requests To Be Considered

Further improvements to Kingston's street lighting system were authorized at a meeting of the Board of Public Works at the mayor's office Wednesday afternoon.

New lights, similar to those recently installed on Wurts and McEntee streets, will be installed on Clinton avenue from Main to North Front street, and on Foxhall avenue, under action taken by the board.

The work will be accomplished within the original $3,000 appropriation that was included in the 1955 budget, it was pointed out by Mayor Frederick H. Stang, president ex-officio of the BPW.

MAYOR STANG also noted that there will be sufficient remaining funds for scattered improvements to the city's street lighting in areas from which requests are received.

The matter of street lighting predominated during discussions at the meeting, during which mostly routine business was transacted.

Among the communications read at the meeting was a resolution adopted at the May 3 Common Council meeting, stating that "areas of all wards are either poorly lit or completely without illumination."

THE RESOLUTION, offered by Alderman Edwin Radell (Ward 3) and seconded by Alderman Benjamin A. Storms (Ward 2) called upon the city clerk to "impress upon the Board of Public Works that resolutions from all of the wards have been directed to them through the Council for the purpose of remedying this condition." It commended the board's replacement program, and asked "immediate consideration and action simultaneously with the replacement." The resolution also suggested using fixtures owned by the city and now being replaced.

Mayor Stang pointed out that the fixtures that were taken down on Wurts street were not city property. He also reported that action is being taken to provide illumination in the various spots from which complaints are being received.

SEVERAL requests acted upon Wednesday provided improved street lighting on a part of Linderman avenue and in the vicinity of Pulaski street and Fourth avenue.

Commissioner Raymond Whitbeck, chairman of the lighting committee, was authorized to study the conditions in the Greenkill avenue section in company with the alderman of that ward, and to "order the erection of such lights as necessary."

THE BOARD also:

Accepted "with regret" the resignation of Frank McMahon as senior engineering aide with the department of engineering.

Recreation Spot for 10,000

State's New $2 Million Center Opens June 18

Bear Mountain, N. Y., May 19 (AP)—The Anthony Wayne Recreation site will be opened June 18.

The date for opening the new 2-million-dollar, 35-acre center near here was announced yesterday by Robert Moses, chairman of the State Council of Parks.

More than 200 state park officials who attended a meeting of the council at Bear Mountain Inn inspected the new area yesterday.

The area includes two swimming pools, a bath house with 1,500 lockers, bleachers for spectator, a parking field for 2,500 cars, terrace sun decks with lounging chairs, a promenade, and picnic grounds with 425 tables and 200 fireplaces.

The area will accommodate 10,000 persons and may be expanded to handle 20,000.

JURORS HOLD BANQUET—Attending the annual spring banquet of the Ulster County Grand Juror's Association Wednesday night at the Flamingo were seated (l-r) Mrs. Raymond Schuler, secretary of the board of directors; Lloyd Wilklow, assistant superintendent of Napanoch Institution for Male Defective Delinquents; County Judge John M. Cashin, President Thomas J. Murphy and Mrs. Anne M. Ashdown, secretary. Standing (l-r) Attorney William A. Kelly, District Attorney Howard C. St. John, master of ceremonies; Edmund Zeidler, treasurer; Attorney Vincent G. Connelly, guest speaker; Chester Elliott, vice-president and Fred Baumgarten, chairman of the board of directors. Display of Flag Asked Saturday

Display of flags Saturday, Armed Forces Day, has been urged by Capt. Andrew S. Hickey, USN (Ret.), ranking naval officer of the city of Kingston.

Hickey said he felt it was highly appropriate for residents and merchants to celebrate such a patriotic occasion with the fullest display of the American flag.

The day will also be celebrated by the 156th Field Artillery Armored Battalion, New York National Guard, at an open house from 10 a. m. to 3 p. m. Sunday. Armory facilities will be open for inspection by the public and there will be demonstrations by units of the battalion.

Attack Is Reported By Woman

An attack on a 32-year-old housewife about 10:30 last night at Brown avenue and Elmendorf street was frustrated when she screamed and dropped to the sidewalk, according to city police.

The unidentified man, who had allegedly seized her from behind, took to his heels, running south on Brown avenue and turning left into Downs street, the woman reported to Officers William F. Snyder and Gilbert Gray.

FIRST REPORT of the incident was received at 10:43 p. m. at police headquarters when Mrs. Lester A. Van Alstyne of 182 Elmendorf street telephoned to say that a woman, who had just been grabbed from behind by a man in the neighborhood, was in her home.

The woman told investigating officers that the man was from five feet nine inches to six feet tall, of husky build and dark hair and was wearing a plaid shirt or jacket, believed to be blue or black checked, and working trousers and was without a hat.

She said the man grabbed her from behind about the back and shoulders, splitting her dress down the front.

Open Minds

Moscow, May 19 (AP) — Communist party chief Nikita Khrushchev says he and other Soviet leaders will stick to a principle of equal rights and mutual non-interference in their forthcoming talks with Yugoslav President Tito. Asserting that the Soviet delegation would go to Belgrade "with open souls and pure hearts," Khruschev told a Kremlin conference yesterday: "All the necessary conditions exist to ensure full normalization of relations between the USSR and Yugoslavia."

Engineers Name Officers

At a meeting of Ulster Chapter, New York Society of Professional Engineers, held at the Stuyvesant Hotel Wednesday night, Augustus S. Brinnier was elected president, succeeding Edward I. McCaffery who was elected director. Other officers elected were L. R. Talbot, vice-president and Gaspard St. Leger, secretary. The chapter scheduled its next meeting for June 22 at the Twaalfskill Club.

CHARGED WITH BANK ROBBERY—Richard S. Hyslip, 28, left, of Mauldin, Mass., and Frank A. Savastano, 24, are shown after arraignment in Milwaukee, May 18, on charge of robbing Melrose, Mass., bank last month. Bond for two, arrested by FBI agents at an apartment earlier in the day, was set at $50,000 each. (AP Wirephoto).

Legion Told Reds Way Ahead

Soviet Air Force Has Modern Planes, Power

Detroit, May 19 (AP)—A high-ranking air force intelligence officer says the Russians have fighters and bombers equal in performance to the best planes the United States now has and the Russians have more of these planes.

Brig. Gen. Woodbury M. Burgess, deputy chief of staff for intelligence of the Continental Air Defense Command, said in a speech last night, "the Russian air force is currently at least as good as ours, possibly better."

PRESIDENT Eisenhower, at his news conference in Washington yesterday, rejected any idea that the United States may have lost control of the air to Russia. Eisenhower conceded that the United States may not have as many B52 intercontinental jet bombers "as we should like at this moment," he added, "I don't know the exact number but to say that we have lost in a twinkling all of this great technical development and technical excellence as well as the numbers in our total aircraft is just not true."

Speaking to an American Legion post at Selfridge Field, Burgess said he also feared "the Russians are ahead of us in the effort to perfect the guided missile.

"ONE OF OUR troubles," he said, "is that we have been underestimating the Russians."

Burgess said the Russians have two new bombers equal in size and performance to the air force's new eight-jet B52, but that Russian aircraft only have four engines.

A medium bomber comparable to our six-jet B47 and yet having only two engines is being flown by the Russians, he said.

Burgess said the Russians also have more supersonic fighters, similar to our F100, than we have.

Burgess departed from a prepared speech in giving this information. He said the Defense Department had authorized its release only yesterday.

Community Chest Elects Six New Board Directors

The Kingston Area Community Chest, at its regular monthly board of directors meeting at the Governor Clinton Hotel, Wednesday night, unanimously elected six additional directors. Those newly elected to the board are Dr. George F. Bushnell, Mrs. Howard Irvis, Donald B. Otis, Dr. Herbert F. Schwartz, Mrs. Donald M. Swan and George E. Yerry Jr.

These new members will be joining an active group of local citizens in the task of enlarging and developing the activities of the local Community Chest, which is responsible for the fund raising of seven prominent local youth and community organizations.

THE BOARD of directors also called for the semi-annual budget reports of the member organizations to be submitted by July 30 to its budget committee under the leadership of Edward K. Lefren, for study. At this time the budget committee also called for the proposed budget for the 1956 campaign. These budgets are to be submitted before July 5 by the seven agencies.

Ralph D. Harper, a newly-appointed agency representative from Rip Van Winkle Boy Scouts, was on hand and was welcomed by President George Matthews. Donald White has also been appointed by the Boy Scouts to represent them as a director on the Community Chest board.

All members of the board are requested to attend the June 15 meeting at which time new members will be welcomed and plans for the annual fall campaign discussed.

Arrested as AWOL

Richard W. Banks, 22, of Hickory Bush, was arrested Wednesday afternoon by County Investigator Arthur H. Brown on a charge that he was absent without leave from the U. S. Army. He was turned over to Sgt. Charles J. Wilson, military policeman, from Albany.

New Cases Up to 206 In Nation

Ulster Program Being Continued

A sharp jump in new cases of polio during the week ending May 14 has resulted in a U. S. Public Health Service decision not to release further vaccine for several days, according to an Associated Press report from Washington, D. C.— but this action will not affect the inoculation program in Ulster county.

Dr. Dudley W. Hargrave, Ulster county health commissioner, said today sufficient vaccine is on hand for the first inoculation with a second "batch" expected within a couple of weeks.

NO REPORT was immediately available on the number of children in Ulster county schools who have received the vaccine.

The AP story said new cases of polio totaled 206—up 30 per cent over the previous week. The number compares with 151 in the second week of May last year, and an average of 116 for the last five years.

Ulster county's three cases of polio reported this year were all contracted prior to the beginning of the local anti-polio vaccination clinics. The last case, that of a 30-year-old woman, a resident of Kingston, was reported to the health department Monday afternoon. The first inoculations with the Salk vaccine were held Tuesday morning. Of Ulster county's three cases this year, the woman is the first adult and the first resident of Kingston.

However, for the first time since the antipolio vaccination program ran into difficulty, the Associated Press said, the nummer of polio cases among inoculated persons remained unchanged at 77 confirmed cases.

IN ANOTHER development, the Health Service announced that 23 cases of polio have now been reported among individuals, not inoculated themselves, who came in close contact with children given vaccine made by Cutter Laboratories of California. In these instances, the inoculated children themselves have not contracted the disease.

These reports were all in the hands of the Health Service last night when it suddenly announced that for several days at least there would be no further clearance of antipolio vaccine.

The result was to add uncertainty to the whole vaccination program.

THE ONLY explanation was a statement by a public relations spokesman for the Health Service that the delay was ordered for "another look-see at this whole very confusing picture."

Surgeon General Leonard A. Scheele said, however: "This (delay) should not be inferred as reflecting in any way on the vaccine of the companies whose manufacturing and testing processes are under study."

BECAUSE the shortage of vaccine is greater than expected, the national conference of state epidemiologists, meeting at Atlanta, asked an opinion from the Health Service on possible use of smaller doses. There was no immediate reaction here.

Although the Health Service said there was no change in its figure of 77 for the number of

Phoenicia Driver Injured as Auto Runs Into Tree

George Richard Kirk, 23, of High street, Phoenicia, received a severe laceration of the head when his automobile ran off the Onteora Trail and struck a tree near Phoenicia about 12:05 a. m. today, state police reported.

Kirk was treated by Dr. Charles A. Quinn and released, according to the report.

The automobile, a 1953 model, was virtually demolished, its right side and top being torn off, Trooper H. S. Rhodes, who investigated, reported. The vehicle overturned after striking the tree.

The accident happened on a curve in the highway a mile and a half south of Phoenicia. Persons who viewed the accident scene this morning said the large tree, an estimated 14 inches in diameter, was knocked down by the force of the impact.

Juror Speaker Urges New Interest in Government

Calling for a renewed interest in "our own form of government," Vincent G. Connelly told members of the Grand Juror's Association Wednesday night that "eternal vigilance is still the price of good government."

Attorney Connelly, confidential law clerk to Justice Roscoe V. Elsworth told this to 100 persons attending the annual juror's banquet at the Flamingo Restaurant, Route 9W.

The main talk followed a presentation of a gift of initialed cuff links to President Thomas J. Murphy who was recently elected to his 10th successive term as the association head.

Fred Baumgarten, chairman of the board of directors, in presenting the gift to Mr. Murphy, recalled the latter's contributions to the association and wished him continued good luck.

President Murphy accepted the gift "with a sense of humility and pleasure." He referred again to his jurors and officers as "the cream of the crop" and paid outstanding tribute to the contributions of Louis G. Bruhn, former Ulster county district attorney; present District Attorney Howard C. St. John, Assistant District Attorney John Schick and Vincent G. Connelly. The president also paid tribute to County Judge John M. Cashin and reminded his listeners that "these men are the backbone of this organization."

Recreation Spot for 10,000

State's New $2 Million Center Opens June 18

Bear Mountain, N. Y., May 19 (AP)—The Anthony Wayne Recreation site will be opened June 18.

The date for opening the new 2-million-dollar, 35-acre center near here was announced yesterday by Robert Moses, chairman of the State Council of Parks.

More than 200 state park officials who attended a meeting of the council at Bear Mountain Inn inspected the new area yesterday.

The area includes two swimming pools, a bath house with 1,500 lockers, bleachers for spectator, a parking field for 2,500 cars, terrace sun decks with lounging chairs, a promenade, and picnic grounds with 425 tables and 200 fireplaces.

The area will accommodate 10,000 persons and may be expanded to handle 20,000.

Display of Flag Asked Saturday

Display of flags Saturday, Armed Forces Day, has been urged by Capt. Andrew S. Hickey, USN (Ret.), ranking naval officer of the city of Kingston.

Hickey said he felt it was highly appropriate for residents and merchants to celebrate such a patriotic occasion with the fullest display of the American flag.

The day will also be celebrated by the 156th Field Artillery Armored Battalion, New York National Guard, at an open house from 10 a. m. to 3 p. m. Sunday. Armory facilities will be open for inspection by the public and there will be demonstrations by units of the battalion.

Attack Is Reported By Woman

An attack on a 32-year-old housewife about 10:30 last night at Brown avenue and Elmendorf street was frustrated when she screamed and dropped to the sidewalk, according to city police.

The unidentified man, who had allegedly seized her from behind, took to his heels, running south on Brown avenue and turning left into Downs street, the woman reported to Officers William F. Snyder and Gilbert Gray.

FIRST REPORT of the incident was received at 10:43 p. m. at police headquarters when Mrs. Lester A. Van Alstyne of 182 Elmendorf street telephoned to say that a woman, who had just been grabbed from behind by a man in the neighborhood, was in her home.

The woman told investigating officers that the man was from five feet nine inches to six feet tall, of husky build and dark hair and was wearing a plaid shirt or jacket, believed to be blue or black checked, and working trousers and was without a hat.

She said the man grabbed her from behind about the back and shoulders, splitting her dress down the front.

Open Minds

Moscow, May 19 (AP) — Communist party chief Nikita Khrushchev says he and other Soviet leaders will stick to a principle of equal rights and mutual non-interference in their forthcoming talks with Yugoslav President Tito. Asserting that the Soviet delegation would go to Belgrade "with open souls and pure hearts," Khruschev told a Kremlin conference yesterday: "All the necessary conditions exist to ensure full normalization of relations between the USSR and Yugoslavia."

Engineers Name Officers

At a meeting of Ulster Chapter, New York Society of Professional Engineers, held at the Stuyvesant Hotel Wednesday night, Augustus S. Brinnier was elected president, succeeding Edward I. McCaffery who was elected director. Other officers elected were L. R. Talbot, vice-president and Gaspard St. Leger, secretary. The chapter scheduled its next meeting for June 22 at the Twaalfskill Club.

CHARGED WITH BANK ROBBERY—Richard S. Hyslip, 28, left, of Mauldin, Mass., and Frank A. Savastano, 24, are shown after arraignment in Milwaukee, May 18, on charge of robbing Melrose, Mass., bank last month. Bond for two, arrested by FBI agents at an apartment earlier in the day, was set at $50,000 each. (AP Wirephoto).

Legion Told Reds Way Ahead

Soviet Air Force Has Modern Planes, Power

Detroit, May 19 (AP)—A high-ranking air force intelligence officer says the Russians have fighters and bombers equal in performance to the best planes the United States now has and the Russians have more of these planes.

Brig. Gen. Woodbury M. Burgess, deputy chief of staff for intelligence of the Continental Air Defense Command, said in a speech last night, "the Russian air force is currently at least as good as ours, possibly better."

PRESIDENT Eisenhower, at his news conference in Washington yesterday, rejected any idea that the United States may have lost control of the air to Russia. Eisenhower conceded that the United States may not have as many B52 intercontinental jet bombers "as we should like at this moment," he added, "I don't know the exact number but to say that we have lost in a twinkling all of this great technical development and technical excellence as well as the numbers in our total aircraft is just not true."

Speaking to an American Legion post at Selfridge Field, Burgess said he also feared "the Russians are ahead of us in the effort to perfect the guided missile.

"ONE OF OUR troubles," he said, "is that we have been underestimating the Russians."

Burgess said the Russians have two new bombers equal in size and performance to the air force's new eight-jet B52, but that Russian aircraft only have four engines.

A medium bomber comparable to our six-jet B47 and yet having only two engines is being flown by the Russians, he said.

Burgess said the Russians also have more supersonic fighters, similar to our F100, than we have.

Burgess departed from a prepared speech in giving this information. He said the Defense Department had authorized its release only yesterday.

Community Chest Elects Six New Board Directors

The Kingston Area Community Chest, at its regular monthly board of directors meeting at the Governor Clinton Hotel, Wednesday night, unanimously elected six additional directors. Those newly elected to the board are Dr. George F. Bushnell, Mrs. Howard Irvis, Donald B. Otis, Dr. Herbert F. Schwartz, Mrs. Donald M. Swan and George E. Yerry Jr.

These new members will be joining an active group of local citizens in the task of enlarging and developing the activities of the local Community Chest, which is responsible for the fund raising of seven prominent local youth and community organizations.

THE BOARD of directors also called for the semi-annual budget reports of the member organizations to be submitted by July 30 to its budget committee under the leadership of Edward K. Lefren, for study. At this time the budget committee also called for the proposed budget for the 1956 campaign. These budgets are to be submitted before July 5 by the seven agencies.

Ralph D. Harper, a newly-appointed agency representative from Rip Van Winkle Boy Scouts, was on hand and was welcomed by President George Matthews. Donald White has also been appointed by the Boy Scouts to represent them as a director on the Community Chest board.

All members of the board are requested to attend the June 15 meeting at which time new members will be welcomed and plans for the annual fall campaign discussed.

Arrested as AWOL

Richard W. Banks, 22, of Hickory Bush, was arrested Wednesday afternoon by County Investigator Arthur H. Brown on a charge that he was absent without leave from the U. S. Army. He was turned over to Sgt. Charles J. Wilson, military policeman, from Albany.

New Cases Up to 206 In Nation

Ulster Program Being Continued

A sharp jump in new cases of polio during the week ending May 14 has resulted in a U. S. Public Health Service decision not to release further vaccine for several days, according to an Associated Press report from Washington, D. C.— but this action will not affect the inoculation program in Ulster county.

Dr. Dudley W. Hargrave, Ulster county health commissioner, said today sufficient vaccine is on hand for the first inoculation with a second "batch" expected within a couple of weeks.

NO REPORT was immediately available on the number of children in Ulster county schools who have received the vaccine.

The AP story said new cases of polio totaled 206—up 30 per cent over the previous week. The number compares with 151 in the second week of May last year, and an average of 116 for the last five years.

Ulster county's three cases of polio reported this year were all contracted prior to the beginning of the local anti-polio vaccination clinics. The last case, that of a 30-year-old woman, a resident of Kingston, was reported to the health department Monday afternoon. The first inoculations with the Salk vaccine were held Tuesday morning. Of Ulster county's three cases this year, the woman is the first adult and the first resident of Kingston.

However, for the first time since the antipolio vaccination program ran into difficulty, the Associated Press said, the nummer of polio cases among inoculated persons remained unchanged at 77 confirmed cases.

IN ANOTHER development, the Health Service announced that 23 cases of polio have now been reported among individuals, not inoculated themselves, who came in close contact with children given vaccine made by Cutter Laboratories of California. In these instances, the inoculated children themselves have not contracted the disease.

These reports were all in the hands of the Health Service last night when it suddenly announced that for several days at least there would be no further clearance of antipolio vaccine.

The result was to add uncertainty to the whole vaccination program.

THE ONLY explanation was a statement by a public relations spokesman for the Health Service that the delay was ordered for "another look-see at this whole very confusing picture."

Surgeon General Leonard A. Scheele said, however: "This (delay) should not be inferred as reflecting in any way on the vaccine of the companies whose manufacturing and testing processes are under study."

BECAUSE the shortage of vaccine is greater than expected, the national conference of state epidemiologists, meeting at Atlanta, asked an opinion from the Health Service on possible use of smaller doses. There was no immediate reaction here.

Although the Health Service said there was no change in its figure of 77 for the number of

Phoenicia Driver Injured as Auto Runs Into Tree

George Richard Kirk, 23, of High street, Phoenicia, received a severe laceration of the head when his automobile ran off the Onteora Trail and struck a tree near Phoenicia about 12:05 a. m. today, state police reported.

Kirk was treated by Dr. Charles A. Quinn and released, according to the report.

The automobile, a 1953 model, was virtually demolished, its right side and top being torn off, Trooper H. S. Rhodes, who investigated, reported. The vehicle overturned after striking the tree.

The accident happened on a curve in the highway a mile and a half south of Phoenicia. Persons who viewed the accident scene this morning said the large tree, an estimated 14 inches in diameter, was knocked down by the force of the impact.

Juror Speaker Urges New Interest in Government

Calling for a renewed interest in "our own form of government," Vincent G. Connelly told members of the Grand Juror's Association Wednesday night that "eternal vigilance is still the price of good government."

Attorney Connelly, confidential law clerk to Justice Roscoe V. Elsworth told this to 100 persons attending the annual juror's banquet at the Flamingo Restaurant, Route 9W.

The main talk followed a presentation of a gift of initialed cuff links to President Thomas J. Murphy who was recently elected to his 10th successive term as the association head.

Fred Baumgarten, chairman of the board of directors, in presenting the gift to Mr. Murphy, recalled the latter's contributions to the association and wished him continued good luck.

President Murphy accepted the gift "with a sense of humility and pleasure." He referred again to his jurors and officers as "the cream of the crop" and paid outstanding tribute to the contributions of Louis G. Bruhn, former Ulster county district attorney; present District Attorney Howard C. St. John, Assistant District Attorney John Schick and Vincent G. Connelly. The president also paid tribute to County Judge John M. Cashin and reminded his listeners that "these men are the backbone of this organization."

Mr. Connelly, speaking on his

Rally Is Planned In Area Sunday

Herbert H. Hewitt, assistant director of the Lutheran Laymen's Movement for Stewardship, will be the speaker at the spring rally of the Hudson Valley District Luther League in Saugerties Sunday, May 21. The annual event, which is being held in Atonement Lutheran Church, will bring together the youth groups from some 15 member congregations of the United Lutheran Church in America located in the area.

Mr. Hewitt, who is a native of Brooklyn, received his degree in business administration from Wagner Lutheran College and his MA from New York University. He joined the Lutheran Laymen's Movement staff in 1950 and during a period of active service with the armed forces in Korea worked with army chaplains distributing thousands of the Jesus of Nazareth cards, considering himself the Movement's area chairman for Korea. In addition, through special arrangements, he made possible the showing of stewardship films to military personnel in all parts of North and South Korea.

THE YOUTH GATHERING in the Saugerties church will open at 4 p. m. with a brief business session presided over by Miss Kay Simmons of the local church. A program of fellowship will follow under the guidance of the youth of St. John's Lutheran Church of Poughkeepsie. Following the evening meal, the group will be led in devotions by the leaguers of Redeemer Church, Kingston. Mr. Hewitt will then be introduced by the Rev. Paul M. Young, Jr., of Hudson, pastoral advisor of the district who will also install the new officers at the close of the evening session.

Legion Ladies Hold Subscription Drive

High Falls, May 18—The Ulster County American Legion Auxiliary is sponsoring a subscriptions campaign to raise funds to purchase portable hospital equipment for the use of residents of the county. Such equipment is distributed among the several towns of the county so as to be more accessible to the residents.

Only representatives having officially signed letters of introduction are conducting this campaign. All people are asked to read these credentials. They will be signed by county officers and when working in the Town of Marbletown area they will also be signed by Mrs. Mary Christiana, president of the Town of Marbletown Unit. Donations will not be solicited or accepted.

This is an annual program of the Legion Auxiliary and the support of the public is solicited. The Town of Marbletown is to be canvassed in the near future.

SHULTIS, RETHIER BURY HATCHET—Tom Shultis of Bearsville, still reigning as champion Ulster county weather prophet, and Mrs. Shultis were dinner guests of Henri Rethier, owner and chef, at Les Pommiers, Lake Katrine, signifying the latter's capitulation to Shultis in the matter of weather predicting.

A good-natured war of words broke out between Shultis and Rethier last fall after Shultis predicted a mild winter. Rethier took issue and said people should lay in a good stock of canned onion soup (one of his products) for a hard winter. This spring, Shultis reminded the public in an interview with a Freeman reporter that the winter was indeed mild. Rethier immediately took an advertisement in this newspaper, admitting he was a failure as a weather prophet. As an expert chef, Rethier said in effect, he would stick to his own business and leave the weather predicting to Shultis. (Lipgar photo)

Stewart Air Base To Hold Open House

Stewart Air Force Base, Newburgh, will throw open its gates Sunday, May 22, to welcome all interested and patriotic citizens of the area to the Armed Forces Day Open House.

The open house will begin with a navy blimp fly-over at 12 noon and will continue until 5 p. m. Major Earl I. Bonham, chairman of the committee, announced today that the program will feature an air show and over 50 displays as well as movies depicting many phases of army, navy, air force and marine activity.

COLONEL EMIL L. SLUGA, base commander of Stewart Air Force Base, extends a general invitation to all of this area to come to Stewart AFB to see for themselves the might of the armed forces of the nation in action.

Rally Is Planned In Area Sunday

Herbert H. Hewitt, assistant director of the Lutheran Laymen's Movement for Stewardship, will be the speaker at the spring rally of the Hudson Valley District Luther League in Saugerties Sunday, May 21. The annual event, which is being held in Atonement Lutheran Church, will bring together the youth groups from some 15 member congregations of the United Lutheran Church in America located in the area.

Mr. Hewitt, who is a native of Brooklyn, received his degree in business administration from Wagner Lutheran College and his MA from New York University. He joined the Lutheran Laymen's Movement staff in 1950 and during a period of active service with the armed forces in Korea worked with army chaplains distributing thousands of the Jesus of Nazareth cards, considering himself the Movement's area chairman for Korea. In addition, through special arrangements, he made possible the showing of stewardship films to military personnel in all parts of North and South Korea.

THE YOUTH GATHERING in the Saugerties church will open at 4 p. m. with a brief business session presided over by Miss Kay Simmons of the local church. A program of fellowship will follow under the guidance of the youth of St. John's Lutheran Church of Poughkeepsie. Following the evening meal, the group will be led in devotions by the leaguers of Redeemer Church, Kingston. Mr. Hewitt will then be introduced by the Rev. Paul M. Young, Jr., of Hudson, pastoral advisor of the district who will also install the new officers at the close of the evening session.

Legion Ladies Hold Subscription Drive

High Falls, May 18—The Ulster County American Legion Auxiliary is sponsoring a subscriptions campaign to raise funds to purchase portable hospital equipment for the use of residents of the county. Such equipment is distributed among the several towns of the county so as to be more accessible to the residents.

Only representatives having officially signed letters of introduction are conducting this campaign. All people are asked to read these credentials. They will be signed by county officers and when working in the Town of Marbletown area they will also be signed by Mrs. Mary Christiana, president of the Town of Marbletown Unit. Donations will not be solicited or accepted.

This is an annual program of the Legion Auxiliary and the support of the public is solicited. The Town of Marbletown is to be canvassed in the near future.

SHULTIS, RETHIER BURY HATCHET—Tom Shultis of Bearsville, still reigning as champion Ulster county weather prophet, and Mrs. Shultis were dinner guests of Henri Rethier, owner and chef, at Les Pommiers, Lake Katrine, signifying the latter's capitulation to Shultis in the matter of weather predicting.

A good-natured war of words broke out between Shultis and Rethier last fall after Shultis predicted a mild winter. Rethier took issue and said people should lay in a good stock of canned onion soup (one of his products) for a hard winter. This spring, Shultis reminded the public in an interview with a Freeman reporter that the winter was indeed mild. Rethier immediately took an advertisement in this newspaper, admitting he was a failure as a weather prophet. As an expert chef, Rethier said in effect, he would stick to his own business and leave the weather predicting to Shultis. (Lipgar photo)

Stewart Air Base To Hold Open House

Stewart Air Force Base, Newburgh, will throw open its gates Sunday, May 22, to welcome all interested and patriotic citizens of the area to the Armed Forces Day Open House.

The open house will begin with a navy blimp fly-over at 12 noon and will continue until 5 p. m. Major Earl I. Bonham, chairman of the committee, announced today that the program will feature an air show and over 50 displays as well as movies depicting many phases of army, navy, air force and marine activity.

COLONEL EMIL L. SLUGA, base commander of Stewart Air Force Base, extends a general invitation to all of this area to come to Stewart AFB to see for themselves the might of the armed forces of the nation in action.

The United States has 30 per cent of the world's railroad mileage.

THE LURE OF FREEDOM

Free peoples everywhere can rejoice with Austria that at long last it has a peace treaty which will restore it to the fraternity of free nations.

Austria has been absent from this company too long. On March 11, 1938, Hitler's Nazi legions marched into Austrian territory, reducing the little country to a mere eastern province of Germany. Not once in the 17 years that followed was the nation free of foreign soldiers.

When the Allies crushed Hitler, their armies moved in and replaced Nazi control. There they have remained, in their respective zones, as West and East dickered fruitlessly through the years over peace terms.

Only a sudden change of heart by Russia, evidently dictated by new strategy for coping with increased Western strength in Europe, finally made possible a successful settlement.

Under the treaty terms, all Russian and Allied occupation troops are slated to leave Austrian soil before 1955 is out.

Russia also agrees to restore to Austria oil and shipping properties they had taken over as war reparations. The Kremlin first made this striking concession in a preliminary agreement signed with Austria in Moscow weeks ago. It balked at including it in the treaty, until the West made clear it would not sign otherwise.

That the Reds finally yielded on this point was the measure of their eagerness to conclude this treaty. Naturally enough, they did not give so much without believing they had made important offsetting gains.

As a price they demanded and got assurances of Austria's neutrality. The treaty cannot speak on this matter, but it is expected a separate pact will be prepared for this purpose.

But surely this is not what the Kremlin conceives to be its real victory at Vienna.

Moscow's prime goal in Europe is Germany. Though the Reds loudly said they would never discuss German unity if West Germany was taken into NATO, they already have offered new unity proposals. Germany's neutrality is a key aim. Austria is the model, the lure, the proof of good faith.

Russia failed to block West German entry into NATO, with all it can mean for Western strength. Now the West is on test to show whether it can work for German unity without giving up what it worked so hard to gain. A neutral Germany would be a Germany ever in peril of Russian domination.

Whatever developments flow from the Kremlin's new strategy, we can accept with deep satisfaction its notable by-product—the long-hoped-for treaty of freedom for Austria. A fabled land has found its own breath again, and that is no triumph for communism.

PROPHET WITHOUT HONOR

A way has been found to prove to all doubters one's ability to predict events. William Feather, editor of a chain of house organs, suggests that anyone with this desire write down his prophecy in a registered letter addressed to himself, his lawyer or banker, and get a receipt. Then let him put the registered letter in his safety deposit box. When the time comes, the evidence is available to show how wise he is.

The prophet does, however, run two risks. First, he might be wrong. Second, he may become exceedingly unpopular. The most disliked words a man can utter are probably: "I told you so."

In selecting qualities you would strive to possess, pick courage first. With it all others can be obtained. Without it, no other virtue means anything.

If you live only for today you won't have to worry about tomorrow—it will never come.

One of life's best rules: Do today's work today. Why let it dangle unfinished, a mortgage on tomorrow before it appears?

'These Days'

THE ITHACA READING ROOM

On the banks of Lake Cayuga stands Cornell University which is a beautiful campus in a delightful little city and no one would ever believe that in such an atmosphere there would be violent controversy except on whether one kind of corn seed is better than another. In fact, Cornell is famous for its Agriculture College which is one of the best in the country.

However the blight of our age has come there as elsewhere. So a local lawyer, Robert V. Morse, started the "Ithaca Reading Room Against Communism" which is attracting attention not only for its title but for the work that it is doing. Many have visited that Reading Room to study its methods so that the same kind of institution can be started elsewhere. Mr. Morse did not worry about a formal organization. He merely hired a store, put up a sign, called for volunteers, and went ahead. Money came in but in very small amounts, which did not discourage him at all. The local bank lent him a little and many people sent books, pamphlets, etc.

The interesting thing about it is that having conceived the idea, just plain citizen Morse went ahead and the reason he went ahead was that he knew that mony of the boys and girls who came to Ithaca were delicately and not too obviously being given one side of the story on the virtues of Marxism, Socialism, Communism, etc.

It cannot be said that Cornell is any different from any other college—not better and not worse—but in these days of conformity, it is what some call to the Left of Center—a meaningless phrase but highly descriptive—that is fashionable. All that Morse runs is a reading room, and it is a one-sided reading room. The literature is all against Communism and its various supports. If one wants to read pro-Communist literature, it is to be found elsewhere. By being frankly what he is and carefully avoiding any suggestion of impartiality, Morse is able to stand on his own feet without hypocrisy. It is an interesting experiment.

Quite apart from its bias against Communism, the experiment of setting up a one-sided reading room is a good one because it gets into circulation books, magazines and pamphlets which are otherwise buried in the avalanche of material that comes off the printing presses these days.

For instance, the Congressional committees publish their hearings and reports which are enormous in volume and usually make very dull reading. Press digests of these hearings and reports are generally unsatisfactory because they are too condensed. Students should read the entire document, as boresome as it may be.

Also, many books that are published today are journalistic rather than scholarly. They represent an instant appraisal of an immediate situation. Some of them are out-of-print shortly after they are published, so small is the print-order. Some are purchasable in second-hand book stores within a year of publication.

How either the publisher or the author makes any money out of them has always been a puzzle to me, but maybe for the author it is a labor of love or pride and for the publisher it is something to keep the overhead covered.

Nevertheless, many of these efforts contain important data, otherwise not readily available. The student would not even know about them unless they were called to his attention or he found them while browsing through the printed word on an off afternoon. It is often a joy to discover a document, which one knew existed somewhere but had forgotten where, in the appendix of such a volume.

For some reason, printed material bound in hard covers is more respected than the pamphlet or the magazine. But often invaluable studies appear in pamphlets which the author might even publish at his own expense and mail out to those who he thinks might be sufficiently interested to read it and perhaps even write a comment.

Much of this kind of literature finds its way into boxes and cartons to be reclassified or bound some day. And the day seems never to come. It would be so much more sensible to send it to a library or a reading room such as Mr. Morse has established, so that those who want to know can find what they search for.

That Body of Yours

By JAMES W. BARTON, M.D.

CLIMATE AND DISEASE

One question asked frequently of a physician by a patient is whether he would do better in some climate other than where he is. For example, it is known that, in general, patients with heart disease do not get along well at high altitudes, but some of them also do badly at sea level, and must seek an altitude somewhere between.

Patients with bronchitis, arthritis, heart disease or other chronic illnesses may obtain a certain advantage from a change in climate but they should not expect to get a cure because they carry their disease with them. The same is true of many victims of such annoying conditions as sinus and susceptibility to colds. About the only diseases in which change of climate may bring about a cure are hay fever, some types of asthma due to sensitivity to pollen and certain dusts, and other allergic conditions where moving to a climate in which these offending substances do not exist.

Most rheumatic persons feel better on hot, dry days or on cold dry days and worse on hot humid days or cold damp days. Rheumatic pain is often increased in connection with atmospheric changes, especially with a fall in the barometic pressure such as occurs before a thunderstorm. Storms seem to be associated with increased pains more than 90 per cent of the time but patients do not always respond to such changes in the same way every time.

We now read some interesting facts about the relationship between sudden changes in the weather and the onset of acute myocardial infarction—an obstruction in the circulation leading to the heart muscle which deprives this heart muscle of sufficient blood to operate properly. In the period between 1946 and 1951, there were 1,015 men and 371 women admitted to three hospitals in Dallas, Texas. The climate of Dallas is characterized by quite hot summers, rather mild winters, and frequent sudden changes in temperature and humidity.

How did this weather affect these heart patients? The average daily admission rate of patients with acute myocardial infarction was 0.49 during periods when the weather was stable and unchanging. This rate increased to 0.65 during sudden onset of warm weather, and went up as high as 1.0; during sudden onset of cold weather. This means that the rate of cases was twice as high during periods of sudden cold weather than when the weather was unchanging. It would certainly appear from these observations that sudden inflows of tropical or polar air masses have a bad effect on patients with coronary heart artery disease.

We should keep in mind, however, if considering making a major change in our environment by moving to another climate, involving selling of home or giving up of employment, that it is wise to make a trial by visiting for a short time in the proposed locality. The results may be disappointing and not worth the change.

Edson's Washington News Notebook

By PETER EDSON
NEA Washington Correspondent

Washington—(NEA)—Signing of an Austrian peace treaty after nine years of nerve-wracking negotiation with the Communists marks the first time that Russian troops have withdrawn towards Moscow since they agreed to get out of northern Iran in 1946.

According to the text of the Romanian and Hungarian peace treaties of 1947, the Russians agreed to withdraw their troops from those two countries after the Austrian treaty is signed.

This would mark a further Soviet withdrawal if lived up to.

But the Hungarian and Romanian treaties have been violated in many other ways. The provision is regarded as a dead letter.

Russian troops are expected to stay opposite the Austrian border—even in Hungarian and Romanian uniforms for a disguise, if necessary.

Simple facts of life like these have made many Americans skeptical of any good in the Austrian peace treaty. If the Russians do move out of their zone of occupation in Austria, pessimists expect them to move back in whenever it suits them—after the Americans, British and French move out.

DR. KARL GRUBER, Austria's Ambassador to Washington and her former Foreign Minister, has been having his difficulties in beating down speculative conclusions of this sort.

To him and to all Austrians, apparently, the new treaty is wonderful. It awards Austria her freedom for the first time since the Nazis took over in World War 2.

Austria offers no easy road for a possible Russian attack on either Germany or Italy, says Gruber. The Russians don't like to fight in the mountains. The Austrians make good soldiers and they have fought the Russians for centuries. They would do it again if necessary.

Limitations on the size of the Austrian army and its air force have been dropped out of the treaty draft.

Two limitations on Austria are not in the treaty but in a separate agreement between Austrian Chancellor Julius Raab and Russian Foreign Commisar V. M. Molotov. They would ban any foreign military bases on Austrian soil and prevent Austria from joining any military alliances. The Austrian Parliament is expected to make policy declarations to this effect. They present a major hazard.

THESE COMMITMENTS would keep Austria out of NATO — the North American Treaty Organization. If the Austrians think, however, that they can be assured of any western guarantees of independence, for free, they may be mistaken.

Austria's northeastern frontier is a deep thumb stuck into Czechoslovakia and Hungary. It would take a long supply line to support Austria if attacked. It would add greatly to NATO's problems if Austria had to be included in defense plans. The easy solution would be to let Austria go and try to save Germany.

The Austrians insist they will not become passive neutrals. They are definitely anti-Communist in their record, their government and their natural interests.

AUSTRIA'S MAIN TRADE TIES are with the west. Over 40 per cent of Austria's trade was with eastern Europe before the war. It is now only nine per cent. Eastern Europe no longer hus surplus grain to trade.

As to why the Russians have chosen this particular time to make peace, the Austrians profess to be as baffled as everyone else.

If it is bait for a reunited and disarmed Germany, the Austrians, who know the Germans, think Germany won't be fooled.

One speculative answer is that the Russians realize they are over-extended. Wanting quiet on their western front while the situation in the Orient is so tense, the Soviet may be anxious to make deals wherever it can in Europe.

Impression Is Gained in Bonn That West's Future Security Is Precarious

By DAVID LAWRENCE

Bonn, May 19—After several days of talks with Cabinet members, legislators of various political parties, and veteran newsmen who know Germany intimately, this correspondent cannot but feel that it is a thin reed on which the security of the West rests nowadays.

For, although with the best intentions in the world the government spokesmen here sincerely say that Germany's future lies with the West—a feeling privately expressed even by opposition leaders—an undercurrent of anxiety is nevertheless evident.

Deep-seated convictions concerning the great value of democracy and an awareness of the dangers of a resurgent militarism crop up in all conversations. The big unknown quantity is in the question: "What do a people do with the vote when they are in the midst of an economic depression?" The answer is that they turn to almost anybody and any policy that seems to hold out hope for an improved economic status.

One leader in the lower house of Germany's national parliament philosophized a bit to me on what Chancellor Bruning might well have done in 1932 when he faced six million unemployed and six million Communists. His comment was that, "even if it was contrary to previous orthodox policy, he should have done something for the people, and this might have prevented the rise of Hitler."

So it is the economic situation everywhere which holds the key to the future course of political parties. Such are the ambitions of political leaders that they are not reluctant to use an international issue of the highest sensitivity and twist it to suit their political aims. This presupposes, of course, an unthinking electorate but Germany is not alone in being subjected to the whims of materialism and selfishness in the modern world. For one has only to examine the political speeches of the opposition parties in Britain and America to note that the appeal to the stomach is related to the voting strength of present-day politicians. It was the chairman of an important committee in the Bundestag who remarked to me: "For Heaven's sake, don't let any depression happen in America—we would feel it badly here."

Just the other day an important election took place in a Rhineland state and, although the candidates sought membership in the state legislature which sends representatives to the upper house of the national parliament here, the biggest single issue was the international policy of the Adenauer regime. Prosperity prevails and workers are beginning to be scarce, so that all was serene economically in the area where the elections were held. Hence a discussion of international quetstions on their merits was possible. It must be noted that the people already had read about the signing of the Austrian treaty and the organization of a Soviet "NATO" in the East, and about the Russian propaganda advocating the possible neutralization of a unified Germany. But the cautious and firm policy of the present government, which supports membership in the North Atlantic Treaty Organization, was decisively upheld at the polls.

In almost every discussion the question of what will happen after 79-year-old Chancellor Adenauer retires is bound to come up. But, after talks with several of the leaders—among whom there are at least three who could carry on energetically and effectively—there need be no fears about the continuity of the policies of the majority coalition of today. It is not then of leadership who are lacking but a deeper understanding by more people that they must not listen to demagogic politicians who would mislead them.

The newspapers are doing a good job of keeping the people informed, but the radio is dominated by left-wing commentators. Television has not yet become a political factor. It is the potential harm that can be done by a selfish use of the issue of unification of West and East Germany that is most to be feared.

So far as the East Germans are concerned, there is every indication that they distrust communism and hate their oppressors. But there are some naive men among the West Germans who think the Soviets can be trusted and that the overtures to Tito and the signing of the Austrian treaty were evidences of weakness in the Kremlin's hitherto hostile attitude toward the West. Nobody in the government here, however, is ready to rely on that view in shaping public policy. Instead there is a growing awareness that the future of the "cold war" may prove even more dangerous than the past.

As for a choice between a reunited Germany that must take orders from Moscow and a continuance of an independent West Germany, with the strong support of the Western military and economic mechanism, the latter would be preferred. There would be a feeling of resignation as the people accepted the necessity of a further wait before unification could come. For underneath it all here, as elsewhere, the feeling is growing that there will be no real security in Europe through paper treaties signed by gangsters in Moscow and that all democracies will be safe only when a free government emerges in Soviet Russia.

Shokan

Shokan, May 19 — Mr. and Mrs. Roy Gensler and their cousin, Harold Pearson, all of Ossining, stopped here Sunday in the course of a trip up the Esopus Valley and over the Rip VanWinkle Trail.

Mr. and Mrs. Rudolph Kurkalek, former residents of the village center, have returned to Shokan after making their home in Albany for some time. They are residing in their new house near the Reformed Church which Rudy expects to have completed in a few weeks.

Mr. and Mrs. Edwin Secor have moved from the Secor farm near Tonche Mountain to the James Rutherford bungalow in Ashokan.

Kingston people calling here Saturday included Ascenda Altamari and sister, Frances Reon.

Mr. and Mrs. Charles Vincent, Port Ewen couple whose 50th wedding anniversary celebration, May 7, was noted in The Freeman social columns last Friday, have a number of friends and relatives in the north reservoir country where they resided before the waterworks. Charlie and the former Susie Gollman were young people in the old village of West Shokan.

An old school desk on the corner store museum stoop has been identified as one of those removed from the little red schoolhouse in the Coons neighborhood of Shokan around the turn of the century, following the abandoning of the school. The building stood along the West Butternutkill and the mountain road, a short distance below the William Bogart, or present Vanderbent place. It was here that Kate Walton, Olive Branch girl and, later, an instructor in mathematics at Kingston Academy, taught her first school at the age of 16 years.

Doris Calamar, well known Woodstock businesswoman and former writer, was a caller in the hub of the reservoir country Sunday. Mrs. Calamar, who once boarded in Olive Bridge, reports a deal of real estate activity in the village over the mountains.

Questions -- Answers

Q—What country recently built an underground church?

A—Colombia. The church is located 345 feet below the earth's surface, in an old salt mine at Zipaquira, near Bogota.

* * *

Q—Who controlled the North Sea during the two World Wars?

A—During World War 1, England controlled these waters. During World War 2, both the German and English navies patroled and mined the North Sea in attempts to set up blockades.

New York (AP) — Every adult in the world ought to spend at least an hour a day baby watching.

Can't think of a better way to learn human nature. Seeing a child struggle so deperately to become a grownup, you begin dimly to understand why grownups so often act like desperate children.

THERE IS NO industry, pastime, or hobby—call it what you will — that kindles the spirit more than baby watching. But nothing else gives you quite such a frightening insight into the passage of time.

"Why, it seems only yesterday that—." This is the phrase you find yourself using most often in baby watching. You leave a baby for a day or two, and when you come back it seems to have sprung up with the speed of a flower racing the turning sun.

SO IT HAS BEEN with Tracy Ann, a small stranger who came into our lives as a month-old mite in a bundle nearly two years ago.

Why, it seems only yesterday that I held her to my shoulders to burp her. So soft and frail and helpless she felt then, so utterly dependent, that I was afraid she's bend and break.

What happens to a baby? Where do they vanish so swiftly? Right while you're watching, right before your eyes, the baby fades and disappears. Suddenly you no longer are watching a baby but a small sturdy human being running on its own legs, pushing your helping hands away impatiently, and trying to seize the whole wide world in its two little hands.

WHEN DID IT HAPPEN? You can't quite remember. All you know is that the baby you loved is gone. A child you love has taken its place.

There is a big difference between a baby and a child. Take reading, for example. As a baby, Tracy Ann loved nothing better than to digest newspaper editorials. She did this literally, by tearing out the editorial, stuffing it in her mouth, and gumming it until it had been thoroughly absorbed. Finally had to take the newspapers away from her altogether. Afraid she might ruin her eyes.

Now, as a child, she is on a Mother Goose jag. We read these jingles together practically every morning. But I may have to halt this, too. It seems to make her melancholy. Her favorite picture shows Little Boy Blue, fast asleep under the haystack. He is bare-footed, and this distresses Tracy no end.

"No shoes," she says sadly, shaking her head. Never mind the sheep in the meadow, the cows in the corn. Isn't that sleepy little boy ever going to get a pair of bright new shoes?

MY WIFE, FRANCES, and I believe Tracy must be a genius because, although her second birthday is still a month away, she can count up to five and tell the primary colors.

That is, she can do these things when she isn't in her dotage or trying to tease me. A cild's dotage comes just before its nap or bedtime, when its wits wander like those of some very old people. At such moments Tracy insists four comes after two and three is no such number as three at all.

BUT A CHILD loves nothing better than pulling a grownup's leg. Thus it is that on some days, although she knows the grass is green and the sky is blue, Tracy will stoutly argue both are red. In fact, when she is in her scarlet mood, she even upholds the theory her feet are red.

"Tracy, do you want to grow up to be a real fat girl or a real pretty girl?" I ask her.

"Real fat!" she answers, looking up with a leer that only childhood knows.

She has such a tremendous thirst for knowledge—she seems to be trying to learn everything under the sun each moment—it sometimes appalls me.

Watching Tracy as a baby was tremendous fun. So is it now to watch her spiritlike child's mind unfold. But I have an uneasy feeling now that she is studying me as much as I am studying her.

This is a real crossroads in life for any parent, the time when it is perhaps wise if he went into a closed room, stared at himself in the mirror, and started pondering over what he wants his child to see in him.

THE LURE OF FREEDOM

Free peoples everywhere can rejoice with Austria that at long last it has a peace treaty which will restore it to the fraternity of free nations.

Austria has been absent from this company too long. On March 11, 1938, Hitler's Nazi legions marched into Austrian territory, reducing the little country to a mere eastern province of Germany. Not once in the 17 years that followed was the nation free of foreign soldiers.

When the Allies crushed Hitler, their armies moved in and replaced Nazi control. There they have remained, in their respective zones, as West and East dickered fruitlessly through the years over peace terms.

Only a sudden change of heart by Russia, evidently dictated by new strategy for coping with increased Western strength in Europe, finally made possible a successful settlement.

Under the treaty terms, all Russian and Allied occupation troops are slated to leave Austrian soil before 1955 is out.

Russia also agrees to restore to Austria oil and shipping properties they had taken over as war reparations. The Kremlin first made this striking concession in a preliminary agreement signed with Austria in Moscow weeks ago. It balked at including it in the treaty, until the West made clear it would not sign otherwise.

That the Reds finally yielded on this point was the measure of their eagerness to conclude this treaty. Naturally enough, they did not give so much without believing they had made important offsetting gains.

As a price they demanded and got assurances of Austria's neutrality. The treaty cannot speak on this matter, but it is expected a separate pact will be prepared for this purpose.

But surely this is not what the Kremlin conceives to be its real victory at Vienna.

Moscow's prime goal in Europe is Germany. Though the Reds loudly said they would never discuss German unity if West Germany was taken into NATO, they already have offered new unity proposals. Germany's neutrality is a key aim. Austria is the model, the lure, the proof of good faith.

Russia failed to block West German entry into NATO, with all it can mean for Western strength. Now the West is on test to show whether it can work for German unity without giving up what it worked so hard to gain. A neutral Germany would be a Germany ever in peril of Russian domination.

Whatever developments flow from the Kremlin's new strategy, we can accept with deep satisfaction its notable by-product—the long-hoped-for treaty of freedom for Austria. A fabled land has found its own breath again, and that is no triumph for communism.

PROPHET WITHOUT HONOR

A way has been found to prove to all doubters one's ability to predict events. William Feather, editor of a chain of house organs, suggests that anyone with this desire write down his prophecy in a registered letter addressed to himself, his lawyer or banker, and get a receipt. Then let him put the registered letter in his safety deposit box. When the time comes, the evidence is available to show how wise he is.

The prophet does, however, run two risks. First, he might be wrong. Second, he may become exceedingly unpopular. The most disliked words a man can utter are probably: "I told you so."

In selecting qualities you would strive to possess, pick courage first. With it all others can be obtained. Without it, no other virtue means anything.

If you live only for today you won't have to worry about tomorrow—it will never come.

One of life's best rules: Do today's work today. Why let it dangle unfinished, a mortgage on tomorrow before it appears?

'These Days'

THE ITHACA READING ROOM

On the banks of Lake Cayuga stands Cornell University which is a beautiful campus in a delightful little city and no one would ever believe that in such an atmosphere there would be violent controversy except on whether one kind of corn seed is better than another. In fact, Cornell is famous for its Agriculture College which is one of the best in the country.

However the blight of our age has come there as elsewhere. So a local lawyer, Robert V. Morse, started the "Ithaca Reading Room Against Communism" which is attracting attention not only for its title but for the work that it is doing. Many have visited that Reading Room to study its methods so that the same kind of institution can be started elsewhere. Mr. Morse did not worry about a formal organization. He merely hired a store, put up a sign, called for volunteers, and went ahead. Money came in but in very small amounts, which did not discourage him at all. The local bank lent him a little and many people sent books, pamphlets, etc.

The interesting thing about it is that having conceived the idea, just plain citizen Morse went ahead and the reason he went ahead was that he knew that many of the boys and girls who came to Ithaca were delicately and not too obviously being given one side of the story on the virtues of Marxism, Socialism, Communism, etc.

It cannot be said that Cornell is any different from any other college—not better and not worse—but in these days of conformity, it is what some call to the Left of Center—a meaningless phrase but highly descriptive—that is fashionable. All that Morse runs is a reading room, and it is a one-sided reading room. The literature is all against Communism and its various supports. If one wants to read pro-Communist literature, it is to be found elsewhere. By being frankly what he is and carefully avoiding any suggestion of impartiality, Morse is able to stand on his own feet without hypocrisy. It is an interesting experiment.

Quite apart from its bias against Communism, the experiment of setting up a one-sided reading room is a good one because it gets into circulation books, magazines and pamphlets which are otherwise buried in the avalanche of material that comes off the printing presses these days.

For instance, the Congressional committees publish their hearings and reports which are enormous in volume and usually make very dull reading. Press digests of these hearings and reports are generally unsatisfactory because they are too condensed. Students should read the entire document, as boresome as it may be.

Also, many books that are published today are journalistic rather than scholarly. They represent an instant appraisal of an immediate situation. Some of them are out-of-print shortly after they are published, so small is the print-order. Some are purchasable in second-hand book stores within a year of publication.

How either the publisher or the author makes any money out of them has always been a puzzle to me, but maybe for the author it is a labor of love or pride and for the publisher it is something to keep the overhead covered.

Nevertheless, many of these efforts contain important data, otherwise not readily available. The student would not even know about them unless they were called to his attention or he found them while browsing through the printed word on an off afternoon. It is often a joy to discover a document, which one knew existed somewhere but had forgotten where, in the appendix of such a volume.

For some reason, printed material bound in hard covers is more respected than the pamphlet or the magazine. But often invaluable studies appear in pamphlets which the author might even publish at his own expense and mail out to those who he thinks might be sufficiently interested to read it and perhaps even write a comment.

Much of this kind of literature finds its way into boxes and cartons to be reclassified or bound some day. And the day seems never to come. It would be so much more sensible to send it to a library or a reading room such as Mr. Morse has established, so that those who want to know can find what they search for.

That Body of Yours

By JAMES W. BARTON, M.D.

CLIMATE AND DISEASE

One question asked frequently of a physician by a patient is whether he would do better in some climate other than where he is. For example, it is known that, in general, patients with heart disease do not get along well at high altitudes, but some of them also do badly at sea level, and must seek an altitude somewhere between.

Patients with bronchitis, arthritis, heart disease or other chronic illnesses may obtain a certain advantage from a change in climate but they should not expect to get a cure because they carry their disease with them. The same is true of many victims of such annoying conditions as sinus and susceptibility to colds. About the only diseases in which change of climate may bring about a cure are hay fever, some types of asthma due to sensitivity to pollen and certain dusts, and other allergic conditions where moving to a climate in which these offending substances do not exist.

Most rheumatic persons feel better on hot, dry days or on cold dry days and worse on hot humid days or cold damp days. Rheumatic pain is often increased in connection with atmospheric changes, especially with a fall in the barometic pressure such as occurs before a thunderstorm. Storms seem to be associated with increased pains more than 90 per cent of the time but patients do not always respond to such changes in the same way every time.

We now read some interesting facts about the relationship between sudden changes in the weather and the onset of acute myocardial infarction—an obstruction in the circulation leading to the heart muscle which deprives this heart muscle of sufficient blood to operate properly. In the period between 1946 and 1951, there were 1,015 men and 371 women admitted to three hospitals in Dallas, Texas. The climate of Dallas is characterized by quite hot summers, rather mild winters, and frequent sudden changes in temperature and humidity.

How did this weather affect these heart patients? The average daily admission rate of patients with acute myocardial infarction was 0.49 during periods when the weather was stable and unchanging. This rate increased to 0.65 during sudden onset of warm weather, and went up as high as 1.0; during sudden onset of cold weather. This means that the rate of cases was twice as high during periods of sudden cold weather than when the weather was unchanging. It would certainly appear from these observations that sudden inflows of tropical or polar air masses have a bad effect on patients with coronary heart artery disease.

We should keep in mind, however, if considering making a major change in our environment by moving to another climate, involving selling of home or giving up of employment, that it is wise to make a trial by visiting for a short time in the proposed locality. The results may be disappointing and not worth the change.

Edson's Washington News Notebook

By PETER EDSON
NEA Washington Correspondent

Washington—(NEA)—Signing of an Austrian peace treaty after nine years of nerve-wracking negotiation with the Communists marks the first time that Russian troops have withdrawn towards Moscow since they agreed to get out of northern Iran in 1946.

According to the text of the Romanian and Hungarian peace treaties of 1947, the Russians agreed to withdraw their troops from those two countries after the Austrian treaty is signed.

This would mark a further Soviet withdrawal if lived up to.

But the Hungarian and Romanian treaties have been violated in many other ways. The provision is regarded as a dead letter.

Russian troops are expected to stay opposite the Austrian border—even in Hungarian and Romanian uniforms for a disguise, if necessary.

Simple facts of life like these have made many Americans skeptical of any good in the Austrian peace treaty. If the Russians do move out of their zone of occupation in Austria, pessimists expect them to move back in whenever it suits them—after the Americans, British and French move out.

DR. KARL GRUBER, Austria's Ambassador to Washington and her former Foreign Minister, has been having his difficulties in beating down speculative conclusions of this sort.

To him and to all Austrians, apparently, the new treaty is wonderful. It awards Austria her freedom for the first time since the Nazis took over in World War 2.

Austria offers no easy road for a possible Russian attack on either Germany or Italy, says Gruber. The Russians don't like to fight in the mountains. The Austrians make good soldiers and they have fought the Russians for centuries. They would do it again if necessary.

Limitations on the size of the Austrian army and its air force have been dropped out of the treaty draft.

Two limitations on Austria are not in the treaty but in a separate agreement between Austrian Chancellor Julius Raab and Russian Foreign Commisar V. M. Molotov. They would ban any foreign military bases on Austrian soil and prevent Austria from joining any military alliances. The Austrian Parliament is expected to make policy declarations to this effect. They present a major hazard.

THESE COMMITMENTS would keep Austria out of NATO — the North American Treaty Organization. If the Austrians think, however, that they can be assured of any western guarantees of independence, for free, they may be mistaken.

Austria's northeastern frontier is a deep thumb stuck into Czechoslovakia and Hungary. It would take a long supply line to support Austria if attacked. It would add greatly to NATO's problems if Austria had to be included in defense plans. The easy solution would be to let Austria go and try to save Germany.

The Austrians insist they will not become passive neutrals. They are definitely anti-Communist in their record, their government and their natural interests.

AUSTRIA'S MAIN TRADE TIES are with the west. Over 40 per cent of Austria's trade was with eastern Europe before the war. It is now only nine per cent. Eastern Europe no longer hus surplus grain to trade.

As to why the Russians have chosen this particular time to make peace, the Austrians profess to be as baffled as everyone else.

If it is bait for a reunited and disarmed Germany, the Austrians, who know the Germans, think Germany won't be fooled.

One speculative answer is that the Russians realize they are over-extended. Wanting quiet on their western front while the situation in the Orient is so tense, the Soviet may be anxious to make deals wherever it can in Europe.

The father ruled 75 years and the son 72 years, an astounding example of successive longevity. The son was killed in battle or he would have kept his vow to top his father's record.

Shokan

Shokan, May 19 — Mr. and Mrs. Roy Gensler and their cousin, Harold Pearson, all of Ossining, stopped here Sunday in the course of a trip up the Esopus Valley and over the Rip VanWinkle Trail.

Mr. and Mrs. Rudolph Kurkalek, former residents of the village center, have returned to Shokan after making their home in Albany for some time. They are residing in their new house near the Reformed Church which Rudy expects to have completed in a few weeks.

Mr. and Mrs. Edwin Secor have moved from the Secor farm near Tonche Mountain to the James Rutherford bungalow in Ashokan.

Kingston people calling here Saturday included Ascenda Altamari and sister, Frances Reon.

Mr. and Mrs. Charles Vincent, Port Ewen couple whose 50th wedding anniversary celebration, May 7, was noted in The Freeman social columns last Friday, have a number of friends and relatives in the north reservoir country where they resided before the waterworks. Charlie and the former Susie Gollman were young people in the old village of West Shokan.

An old school desk on the corner store museum stoop has been identified as one of those removed from the little red schoolhouse in the Coons neighborhood of Shokan around the turn of the century, following the abandoning of the school. The building stood along the West Butternutkill and the mountain road, a short distance below the William Bogart, or present Vanderbent place. It was here that Kate Walton, Olive Branch girl and, later, an instructor in mathematics at Kingston Academy, taught her first school at the age of 16 years.

Doris Calamar, well known Woodstock businesswoman and former writer, was a caller in the hub of the reservoir country Sunday. Mrs. Calamar, who once boarded in Olive Bridge, reports a deal of real estate activity in the village over the mountains.

Impression Is Gained in Bonn That West's Future Security Is Precarious

By DAVID LAWRENCE

Bonn, May 19—After several days of talks with Cabinet members, legislators of various political parties, and veteran newsmen who know Germany intimately, this correspondent cannot but feel that it is a thin reed on which the security of the West rests nowadays.

For, although with the best intentions in the world the government spokesmen here sincerely say that Germany's future lies with the West—a feeling privately expressed even by opposition leaders—an undercurrent of anxiety is nevertheless evident.

Deep-seated convictions concerning the great value of democracy and an awareness of the dangers of a resurgent militarism crop up in all conversations. The big unknown quantity is in the question: "What do a people do with the vote when they are in the midst of an economic depression?" The answer is that they turn to almost anybody and any policy that seems to hold out hope for an improved economic status.

One leader in the lower house of Germany's national parliament philosophized a bit to me on what Chancellor Bruning might well have done in 1932 when he faced six million unemployed and six million Communists. His comment was that, "even if it was contrary to previous orthodox policy, he should have done something for the people, and this might have prevented the rise of Hitler."

So it is the economic situation everywhere which holds the key to the future course of political parties. Such are the ambitions of political leaders that they are not reluctant to use an international issue of the highest sensitivity and twist it to suit their political aims. This presupposes, of course, an unthinking electorate but Germany is not alone in being subjected to the whims of materialism and selfishness in the modern world. For one has only to examine the political speeches of the opposition parties in Britain and America to note that the appeal to the stomach is related to the voting strength of present-day politicians. It was the chairman of an important committee in the Bundestag who remarked to me: "For Heaven's sake, don't let any depression happen in America—we would feel it badly here."

Just the other day an important election took place in a Rhineland state and, although the candidates sought membership in the state legislature which sends representatives to the upper house of the national parliament here, the biggest single issue was the international policy of the Adenauer regime. Prosperity prevails and workers are beginning to be scarce, so that all was serene economically in the area where the elections were held. Hence a discussion of international quetstions on their merits was possible. It must be noted that the people already had read about the signing of the Austrian treaty and the organization of a Soviet "NATO" in the East, and about the Russian propaganda advocating the possible neutralization of a unified Germany. But the cautious and firm policy of the present government, which supports membership in the North Atlantic Treaty Organization, was decisively upheld at the polls.

In almost every discussion the question of what will happen after 79-year-old Chancellor Adenauer retires is bound to come up. But, after talks with several of the leaders—among whom there are at least three who could carry on energetically and effectively—there need be no fears about the continuity of the policies of the majority coalition of today. It is not then of leadership who are lacking but a deeper understanding by more people that they must not listen to demagogic politicians who would mislead them.

The newspapers are doing a good job of keeping the people informed, but the radio is dominated by left-wing commentators. Television has not yet become a political factor. It is the potential harm that can be done by a selfish use of the issue of unification of West and East Germany that is most to be feared.

So far as the East Germans are concerned, there is every indication that they distrust communism and hate their oppressors. But there are some naive men among the West Germans who think the Soviets can be trusted and that the overtures to Tito and the signing of the Austrian treaty were evidences of weakness in the Kremlin's hitherto hostile attitude toward the West. Nobody in the government here, however, is ready to rely on that view in shaping public policy. Instead there is a growing awareness that the future of the "cold war" may prove even more dangerous than the past.

As for a choice between a reunited Germany that must take orders from Moscow and a continuance of an independent West Germany, with the strong support of the Western military and economic mechanism, the latter would be preferred. There would be a feeling of resignation as the people accepted the necessity of a further wait before unification could come. For underneath it all here, as elsewhere, the feeling is growing that there will be no real security in Europe through paper treaties signed by gangsters in Moscow and that all democracies will be safe only when a free government emerges in Soviet Russia.

IS HE THE OLDEST MAN IN THE WORLD? Javier Pereira (center) is examined by Dr. Samuel Veiera (left) and Douglas Storer, president of "Believe It Or Not." Storer, who discovered Pereira in Colombia, S. A., says according to available information Pereira is between 150 and 166 years old. "Believe It Or Not" appears in The Freeman.

World's Oldest Living Man

A man so old that he was born when George Washington was still President is due shortly to arrive in New York.

Discovery of Javier Pereira, the world's oldest man, was made by Douglas Storer, president of Believe It Or Not Inc., while on a flying trip through South America in search of unusual facts for "Believe It Or Not," which appears in The Freeman.

Storer met Pereira in Colombia, where he had him undergo exhaustive examination by local medical experts to determine his exact age. He has arranged to have Pereira flown to New York for further physical, scientific and historical testing.

Indications are that Pereira is at least 150 years old and probably as old at 166. An 86 year old woman from his native village of Monteris remembers meeting him, already an old man, when she was still a child. Pereira himself, unable to read or write, relates events in the early 19th century which indicates he was over 21 at that time.

PEREIRA was given thorough physical examination at San Vincente de Paul's Hospital in Medellin, Colombia. Astonished doctors found that while his wrist joints and radial artery revealed extreme advanced age, his blood circulation was that of a youngster. Pereira's blood pressure and heart action also showed unusual vigor but his viscera and skin were that of a man well over 100 years old.

Examining doctors were convinced that they were dealing with a man far past the century mark. The most conservative age estimates was given by Dr. Jose Miguel Restrepo, an authority on human age who has met and treated several persons as old as 112, who states that Pereira is older than 120. Even this modest figure make Pereira the world's oldest living man.

Mr. Storer has made arrangements with Avianca, an affiliate of Pan American World Airways to fly Pereira to the United States. On his arrival, Pereira will be taken to a leading U. S. university where further scientific studies will be made by top American scientists.

Expensive Find

Kalamazoo, Mich. (AP)—James Bailey was looking for a restaurant when his car went out of control and crashed through the plate glass window of a drugstore. It came to rest against the lunch counter causing $3,000 damage. Booked on a reckless driving charge, Bailey, 23, explained. "I was driving fast because I was hungry and in a hurry to find a restaurant."

HONOR EXPLORER — The Federation of Rhodesia and Nyasaland will issue these two stamps this summer to commemorate the discovery 100 years ago of Victoria Falls by Dr. David Livingstone, British missionary and explorer. Top stamp bears portrait of the famed explorer inserted in a view of the falls. Bottom stamp depicts natives carrying the ailing Dr. Livingstone in a litter as an airplane, denoting the progress made since 1855, flies over the falls.

Held for Using Gun After Crash To Make Escape

New York, May 19 (AP)—A 20-year-old Elmont, N. Y. house painter was seized by Bronx police last night after he allegedly threatened another man with a shotgun following a minor traffic accident.

The suspect, Cecil J. Palm, Jr., of 30 Langdon St., Elmont, was booked at the Morrisania station on charges of felonious assault, violation of the Sullivan weapons law and leaving the scene of an accident.

About 6 p. m., police said, Palm, driving on the Major Deegan highway at the Grand Concourse near 139th street, was in a minor accident with a car driven by David Klein, of 3400 Tyron Ave., the Bronx.

POLICE QUOTED Klein as saying Palm became abusive when they started to discuss the accident, and that Klein then went to call police.

As police gave this account: Klein returned to the scene, two women—Mrs. Marian Franklin, of 66 W. Tremont Ave., and Mrs. Hannah Peferberg, of 14 March Place, both the Bronx offered their names to Klein as witnesses. At this point, Palm pulled a 12-gauge shotgun, later determined to be unloaded, from the trunk of his car and ordered Klein to "keep back."

PALM THEN fled in his car. He escaped two patrolmen who tried to stop him when they recognized his car at 163rd street and Washington avenue. He fled the scene at 50 to 60 miles an hour when one of the patrolmen approached his car.

Patrolman Gerrit Stip and Arthur Kaplan finally took Palm into custody after they saw his car a few minutes later, 2½ miles from the scene of the accident, at Eagle avenue and 149th street.

Police said Palm admitted he had been drinking.

Fast Cyclist

Brentwood, England, May 19 (AP)—Paul West, 23, was fined a pound ($2.80) yesterday for "riding furiously" on his bicycle. A witness said West crashed into a parked car with such force that his head and shoulders went through the canvas top.

Hazardous Parking

Canton, Ohio (AP)—Most of the time, a nickel in a parking meter gives parking time. But when Mrs. Joanne Wensel, 21, put a nickel in one recently, it toppled over, whacked her in the ankle for a hospital-grade injury and ripped one of her nylon stockings. By the time she got back from the hospital, she needed another nickel for the meter, fixed by city employes.

IS HE THE OLDEST MAN IN THE WORLD? Javier Pereira (center) is examined by Dr. Samuel Veiera (left) and Douglas Storer, president of "Believe It Or Not." Storer, who discovered Pereira in Colombia, S. A., says according to available information Pereira is between 150 and 166 years old. "Believe It Or Not" appears in The Freeman.

World's Oldest Living Man

A man so old that he was born when George Washington was still President is due shortly to arrive in New York.

Discovery of Javier Pereira, the world's oldest man, was made by Douglas Storer, president of Believe It Or Not Inc., while on a flying trip through South America in search of unusual facts for "Believe It Or Not," which appears in The Freeman.

Storer met Pereira in Colombia, where he had him undergo exhaustive examination by local medical experts to determine his exact age. He has arranged to have Pereira flown to New York for further physical, scientific and historical testing.

Indications are that Pereira is at least 150 years old and probably as old at 166. An 86 year old woman from his native village of Monteris remembers meeting him, already an old man, when she was still a child. Pereira himself, unable to read or write, relates events in the early 19th century which indicates he was over 21 at that time.

PEREIRA was given thorough physical examination at San Vincente de Paul's Hospital in Medellin, Colombia. Astonished doctors found that while his wrist joints and radial artery revealed extreme advanced age, his blood circulation was that of a youngster. Pereira's blood pressure and heart action also showed unusual vigor but his viscera and skin were that of a man well over 100 years old.

Examining doctors were convinced that they were dealing with a man far past the century mark. The most conservative age estimates was given by Dr. Jose Miguel Restrepo, an authority on human age who has met and treated several persons as old as 112, who states that Pereira is older than 120. Even this modest figure make Pereira the world's oldest living man.

Mr. Storer has made arrangements with Avianca, an affiliate of Pan American World Airways to fly Pereira to the United States. On his arrival, Pereira will be taken to a leading U. S. university where further scientific studies will be made by top American scientists.

Lake Will Open Season on Friday

DeWitt Lake will open its 26th year on Friday, May 20, W. L. Burnett, owner and manager, announced today.

Another busy summer season is presaged with the annual visit of the YMCA Day campers, headed by Lou Schafer, scheduled to take over the lake for eight weeks.

Also scheduled is the eighth annual swim meet slated for Sunday, July 24. A 16-piece Kingston band will present a concert that day from 2 to 5 p. m.

Kingston High School students plan a picnic at the lake on Thursday and Friday of this week in conjunction with the May Day event at the school.

Frozen or Canned Fruit Juices Make Good Coolers

WONDERFUL—This refreshing frozen lemonade and apricot nectar cooler is best described as just wonderful.

By GAYNOR MADDOX
NEA Food and Markets Editor

If you keep your freezer and pantry shelves stocked with frozen and canned fruit juices, you'll be ready to serve Memorial Day weekend guests refreshing warm-weather beverages, quickly and delightfully, without kitchen fuss.

Here's a suggestion from southern California. We think you'll welcome it.

Lemonade-Apricot Cooler
(About 2 Quarts)

One (6-ounce) can frozen concentrate for lemonade, ¾ cup apricot nectar, 1 pint lemon sherbet or lemon ice, 1 quart ginger ale.

Combine concentrate for lemonade and apricot nectar. Put about 3 ounces of this mixture in the bottom of each of four tall glasses. Add scoop of lemon sherbet or ice. Fill glass with ginger ale. Serve immediately.

Fruit flavored soft drink powders make refreshing coolers, too. Very inexpensive, they combine well with fruit juices.

Summer Holiday Punch
(Makes about 2½ quarts, or 20 servings)

One package cherry soft drink powder, 1 cup sugar, 2 cups pineapple juice, ¼ cup lemon juice, water and ice cubes to make 2 quarts, red and green maraschino cherries, pineapple chunks.

Combine soft drink powder, sugar, fruit juices, water and ice cubes. Stir until soft drink powder and sugar are dissolved.

Make "shish-kebab" stirrers by alternating red and green cherries with pineapple chunks on skewers or wooden sticks. Place a stirrer in each glass of punch.

Favorite Fruit Punch
(Makes 2½ quarts or 20 servings)

One package orange soft drink powder, 1 cup sugar, ½ cup lemon juice, 1½ cups apricot nectar, water and ice cubes to make 2 quarts, 20 licorice candy sticks.

Combine soft drink powder, sugar, lemon juice, apricot nectar, and water and ice cubes. Stir until soft drink powder and sugar are dissolved. Place a licorice stick in each glass of punch for a stirrer.

TOMORROW'S DINNER: Salmon ring filled with peas, lemon-mustard sauce, steamed rice, enriched bread, butter or margarine, lettuce, tomato and green pepper salad, rhubarb pie, cheese, coffee, tea, milk.

Union Center

Union Center, May 18—Mrs. Charles Johnson has returned to her home after spending three weeks at Benedictine Hospital.

At the recent annual school meeting James Cowhey was elected school trustee for three years.

The Union Center and Ulster Park communities will hold a card party and food sale May 21 at 8 p. m. in the Grange Hall for the benefit of the Cerebral Palsy fund.

Regular church services will be held at the local church Sunday at 7:30 p. m. Sunday school is held at 10 a. m.

Brooklynite Victim Of Bomb in Auto

New York, May 19 (AP) — A Brotoklyn man, the victim of a hidden bomb which exploded when he started his car, remained in serious condition today.

William Shanley, 40, a bus driver, climbed into his auto yesterday to go to work. Turning the ignition key caused a blast which hurled him out of the car. He suffered wounds of both legs and the abdomen.

The bomb—a cast iron pipe packed with black powder—had been put under the car seat and wired to the ignition. The auto was wrecked.

Shanley blamed the blast on an unidentified relative with whom he had been feuding. However, police said the relative had entered Rikers Island Penitentiary Monday to serve a 30-day sentence for assaulting a patrolman.

Member of Barron Family Dies at 80

New York, May 19 (AP)—Harry R. Barron, about 80, member of a family which settled in Flushing, Queens, more than 100 years ago, died yesterday in Miami Beach, Fla., it was learned here today.

Barron and his wife had moved to Miami Beach from Flushing some three years ago.

Barron, whose family had extensive real estate holdings in Queens, was the brother of Ted S. Barron, prominent popular music composer who died about 15 years ago.

Burial is to be in Flushing.

Deaths Reported

(By The Associated Press)

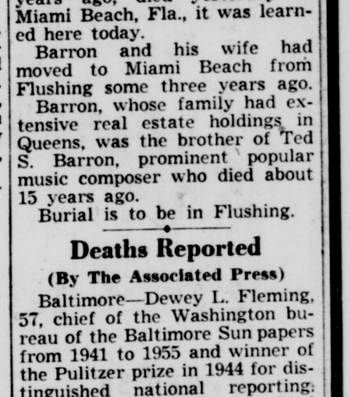
Silent Service

Middleburg, Va. (AP) — There was no howl of protest here when Mrs. Newell J. Ward Jr., sought permission to build and operate a dog kennel just outside town. She raises Basenji, the dogs from Africa which cannot bark.

Why We Say--



This old expression for the United States came into existence during the Revolutionary War. Elbert Anderson and "Uncle" Sam Wilson were contractors who marked their goods with their initials. One day Elbert Anderson marked a shipment to the new United States, "E. A. to U. S." Soldiers, seeing the mark, mistook it to mean Elbert Anderson —to Uncle Sam (Wilson).

Narcotics Cop Is Convicted of Perjury

New York, May 19 (AP)—A narcotics squad detective, who had risked his life several times to trap dope peddlers and had won seven citations, was convicted last night of perjury in a shakedown probe.

The suspended officer, Isaac (Jack) Ezagui, 30, of Brooklyn, faces a possible maximum sentence of 2½ to 5 years in prison and a $5,000 fine.

Judge Hyman Barshay continued Ezagui in $5,000 bail. No date for sentencing was set immediately.

Ezagui's wife, Elaine, mother of two infants, screamed hysterically when the guilty verdict was read in Kings County (Brooklyn) Court.

The detective, a native of French Morocco, was convicted for his testimony March 28 before a special grand jury investigating sales of narcotics in Brooklyn. Ezagui was accused, along with another detective, of falsely denying they told a narcotics peddler he must give them part of his profits.

Ezagui's alleged partner, detective Chester Mann, 32, of Brooklyn, is to go on trial June 13 on the same prejury charge.

The alleged narcotics peddler, Fred Jones, 37, of Brooklyn, is free in $2,500 bail awaiting trial.

Little Steel Production

Although coal and iron ore are available in China, its annual steel production is about two million tons, about a fiftieth of U. S. production.

New York Has 14½ Million Acres of Trees

Albany, May 19 (AP)—Almost one-half of the 31 million acres of land in New York state is covered by forestation, the Conservation Department reported today.

The department said a recently completed survey showed that the total forest area in the state amounted to 14½ million acres with a commercial timber potential of 25 billion board feet.

About 2½ million of the total acreage was classified as noncommercial. These lands are within the Adirondack and Catskill forest preserves and other state parks in which lumbering is prohibited.

Member of Barron Family Dies at 80

New York, May 19 (AP)—Harry R. Barron, about 80, member of a family which settled in Flushing, Queens, more than 100 years ago, died yesterday in Miami Beach, Fla., it was learned here today.

Barron and his wife had moved to Miami Beach from Flushing some three years ago.

Barron, whose family had extensive real estate holdings in Queens, was the brother of Ted S. Barron, prominent popular music composer who died about 15 years ago.

Burial is to be in Flushing.

Deaths Reported

(By The Associated Press)

Baltimore—Dewey L. Fleming, 57, chief of the Washington bureau of the Baltimore Sun papers from 1941 to 1955 and winner of the Pulitzer prize in 1944 for distinguished national reporting. Born in Whitmer, W. Va. Died Wednesday.

Daytona Beach, Fla. — Dr. Mary McLeod Bethune, 79, leading negro educator, president emeritus and co-founder of Bethune-Cookman College in Daytona Beach. Died Wednesday.

Philadelphia — The Rev. Dr. Henry B. Master, 83, former moderator of the General Assembly of the Presbyterian Church in the United States and onetime secretary of the Presbyterian Board of Pensions. Died Wednesday.

New York—Irving H. Vogel, 57, of Philadelphia, partner in the garment firm of Handmacher-Votel, Inc., died Tuesday.

Silent Service

Middleburg, Va. (AP) — There was no howl of protest here when Mrs. Newell J. Ward Jr., sought permission to build and operate a dog kennel just outside town. She raises Basenji, the dogs from Africa which cannot bark.

Why We Say--

This old expression for the United States came into existence during the Revolutionary War. Elbert Anderson and "Uncle" Sam Wilson were contractors who marked their goods with their initials. One day Elbert Anderson marked a shipment to the new United States, "E. A. to U. S." Soldiers, seeing the mark, mistook it to mean Elbert Anderson —to Uncle Sam (Wilson).

Narcotics Cop Is Convicted of Perjury

New York, May 19 (AP)—A narcotics squad detective, who had risked his life several times to trap dope peddlers and had won seven citations, was convicted last night of perjury in a shakedown probe.

The suspended officer, Isaac (Jack) Ezagui, 30, of Brooklyn, faces a possible maximum sentence of 2½ to 5 years in prison and a $5,000 fine.

Judge Hyman Barshay continued Ezagui in $5,000 bail. No date for sentencing was set immediately.

Ezagui's wife, Elaine, mother of two infants, screamed hysterically when the guilty verdict was read in Kings County (Brooklyn) Court.

The detective, a native of French Morocco, was convicted for his testimony March 28 before a special grand jury investigating sales of narcotics in Brooklyn. Ezagui was accused, along with another detective, of falsely denying they told a narcotics peddler he must give them part of his profits.

Ezagui's alleged partner, detective Chester Mann, 32, of Brooklyn, is to go on trial June 13 on the same prejury charge.

The alleged narcotics peddler, Fred Jones, 37, of Brooklyn, is free in $2,500 bail awaiting trial.

Little Steel Production

Although coal and iron ore are available in China, its annual steel production is about two million tons, about a fiftieth of U. S. production.

New York Has 14½ Million Acres of Trees

Albany, May 19 (AP)—Almost one-half of the 31 million acres of land in New York state is covered by forestation, the Conservation Department reported today.

The department said a recently completed survey showed that the total forest area in the state amounted to 14½ million acres with a commercial timber potential of 25 billion board feet.

About 2½ million of the total acreage was classified as noncommercial. These lands are within the Adirondack and Catskill forest preserves and other state parks in which lumbering is prohibited.

Humphrey Warns On Soviet Trap

Washington, May 19 (AP)—Sen. Humphrey (D-Minn.) said today the Russians may be setting a trap in southeast Asia by spectacular moves to ease tensions in Europe.

Humphrey, a member of the Senate Foreign Relations Committee, said in an interview that he fears the Eisenhower Administration may have a "tendency to let down" in Asia because of its present concentration in European affairs.

"I think the Russians may be moving to ease tensions in Europe and at the same time restraining the Chinese Communists from violence in the Formosa area in order to infiltrate the governments in southeast Asia and cut them off from the free world country by country," he said.

Humphrey called for a reexamination of American policies in Asia, and suggested a number of recent developments there may be significant.

He said a reported forthcoming visit of Prime Minister Nehru of India to Moscow could be "very important to the west in its implications."

He said Indonesia, "which didn't have a Communist problem not long ago, now has Communists in its government," and added:

"We face elections next year in Viet Nam which could give the whole of that country to the Communists."

Humphrey said he does not expect the Communists to make any openly aggressive move in the Far East, but to depend on infiltration tactics.

The Saugerties Rotary unit will meet every Tuesday.

Road Bill Passes

Hartford, Conn., May 19 (AP)—A two and a half million dollar road aid bill, which Gov. Abraham A. Ribicoff has strongly opposed, passed the Republican-controlled Connecticut House of Representatives yesterday. The bill, which now goes to the Democratic-controlled Senate, would increase from five million to seven and a half million dollars the amount the state would pay annually to towns and cities for maintenance of improved roads which are not part of the state highway system.

Urges Coast Site

New York, May 19 (AP)—Vincent Auriol, former president of France, urges that a top level meeting of the Big Four be held next month at San Francisco—where the United Nations was born 10 years ago. Speaking last night at a dinner in his honor, Auriol said the birthplace of the UN would be an appropriate site for a meeting of the heads of the United States, Britain, Russia and France. A commemorative session of the 60 members of the UN is scheduled for San Francisco June 20 to 26.

Urges Pledge Acceptance

Newburgh, May 19 (AP)—John W. Johnson, New York state superintendent of public works, says "every single penny" of proposed motor fuel tax boosts would go only for highway construction. Johnson, in a speech last night before the Newburgh Automobile Club, urged opponents of a proposed highway program to accept the "pledged word" of public officials and change their stand.

Called to Chimney Fire

Engine 3 from Wiltwyck Station was dispatched to a chimney fire at 11:12 a. m. today at 75 Franklin street, a two-story frame dwelling owned by Ethel Martin. The fire was in an apartment occupied by Harold Priest. It was extinguished by means of chimney chains which can be used to knock down soot and fire.

Elks Open Parley

Rochester, May 19 (AP)—New York state Elks, 5,000 strong, gathered here today for their 43rd annual convention. The delegates represent 97 lodges in the state. T. Emmett Ryan of Albany, state president, will speak tonight at the opening session. Election of officers and awards of scholarships are booked tomorrow. A parade and the president's ball are scheduled Saturday, concluding day of the convention.

Financial and Commercial

New York, May 19 (AP)—Aircrafts headed a recovery in the stock market today for the second straight session.

In the early afternoon, gains ran between 1 and 3 points in many sections with the greatest concentration of biggest gainers in the aircrafts.

Steels did well along with motors, railroads, coppers, utilities, oils, chemicals, merchandising shares, electronics, radio-televisions, and building materials.

The market started higher with a rush and the tape was late briefly in reporting on the progress of trading from the floor of the New York Stock Exchange. The pace continued good and at a rate above yesterday's 2,010,000 shares.

Yonkers Man Named

Albany, N. Y., May 19 (AP)—Louis R. Petrilli of Yonkers was appointed today by George M. Bragalini, state taxation and finance commissioner, as associate estate tax attorney for Westchester county. The post pays $6,500 a year. Petrilli will work out of the tax department's New York city office. Petrilli, a Democrat, has been practicing law in Yonkers. Previously he was a tax accountant and tax attorney for John W. Stokes & Co., an accountancy firm in New York city.

The name of Hell-to-Pay, Wash., founded in 1889 as a railroad camp, has evolved into Eltopia.

Jump in . . .

polio cases among inoculated children, it said it does have a new suspect case under investigation in Nebraska. That makes seven or more suspect cases under study. The others are in California, Idaho, Kansas, Pennsylvania, Kentucky, and Illinois.

There have been five deaths among vaccinated persons.

A HEALTH Service spokesman estimated that inoculations with the Salk vaccine "are now pushing the six million mark.",

The 77 confirmed cases since use of the vaccine started about April 14 compare with a provisional total of 682 cases of all kinds of polio, including confirmed and unconfirmed cases, reported by state health authorities since April 10. The total covers all age groups.

JUMP IN —4— ....

The upward jump for the week of May 14, with 206 new cases reported, for the first time pushed the total for this "disease year"—which started about April 1—ahead of the number in the comparable span of last year. However, the calendar year total for this year is still behind the 1954 figure.

THERE HAD been 722 cases this "disease year" reported through last Saturday, compared with 718 a year ago for the similar period. For the calendar year the 1955 total is 1,786, compared with 2,271 in the similar period a year ago.

Still approved for use in the mass inoculation program is the relatively small portion still unused from the 7,850,000 cubic centimeters produced by two laboratories: Parke, Davis & Co. of Detroit and Eli Lilly & Co., Indianapolis.

Scheele, stressing he believes the vaccine to be safe and effective, recommended on May 7 that mass inoculations be halted temporarily. The following day he urged continuance of this shutdown pending a reappraisal of the methods of testing procedures of five manufacturers.

THIS REAPPRAISAL was completed and new clearance given for the Parke, Davis product last Friday. Re-clearance was granted the Lilly vaccine on Sunday.

Then the team of federal inspectors moved on to Wyeth, Inc., Matrietta, Pa. They have now gone to Pitman-Moore Co., Zionville, Ind. Next on the list is Sharp & Dohme, Inc., Philadelphia, which has not yet shipped any vaccine.

A Health Service spokesman said the fact that further reclearances are being held up is not to be taken to mean that anything "has been found wrong" with the Wyeth product. He said it was another precautionary measure.

THIS SPOKESMAN said the government scientists have been seeking improved methods for studying and analyzing protocols—the scientific reports from manufacturers on which the government bases its decisions whether to clear batches of vaccine for use.

"They have now developed those and they are going to review them," this official said. "They are going at refined methods."

There was no explanation as to why there has been no clearance on more than 4¼ million CC's whose makers' protocols are known to have been in the hands of the health service since May 4. No new batches have been cleared since then. One CC is enough for one shot.

OFFICIALS declined to comment on whether the further delay would affect President Eisenhower's estimate yesterday that enough Salk vaccine is now on hand or "in sight" to give the first of three scheduled shots to all the nation's first and second grade school children.

The rechecks were ordered when some children who had been inoculated came down with polio. The number of such confirmed cases now stands at 77 out of more than five million inoculated. Five of these have been fatal.

Officials have repeatedly said there have been no findings that the vaccine was responsible.

Testimony Heard In Court Action

Testimony is being continued in Supreme Court in the action for $150,000 brought by Miss Mary Damis against Adirondack Transit Lines and David E. Kunker for injuries which she sustained November 10, 1948 when a bus, on which she was a passenger, turned over. Miss Damis suffered severe injuries and contends her present physical condition is due to the accident. She brings an action on the grounds that the injuries have prevented her from working, and it is alleged the injuries are permanent.

Medical testimony on the part of the plaintiff took up the session before Justice Hamm Wednesday and was continued today.

Goes to Town

Russell Springs, Ky. (AP)—Jeff Baker visited Russell Springs for the first time in 48 years, although he lives only 11 miles away. The last time he saw his county seat was in 1907, when he attended a dance. He got married shortly afterward and really settled down. Jeff, now in his 70s, hitched a ride to town in the mailman's horseless carriage. He observed the newfangled electric lights, the moving picture houses, paved streets and bustling traffic and remarked: "This place certainly has changed quite a bit." Then he returned to his country home. Didn't say when he'd return.

Files Claim for Share

Riverhead, N. Y., May 19 (AP)—A New Jersey woman has filed claim for a share in the 37 million dollar estate of the late railroad magnate William K. Vanderbilt, contending she was his secret wife for years. Mrs. Dora Blowers, of Livingston, N. J., filed the claim yesterday with Suffolk County Surrogate Edgar F. Hazelton. Mrs. Blowers, a former school teacher, now is employed by the Department of Justice.

Must Sign Oaths

New York, May 19 (AP) — Printed loyalty oaths were being distributed today to some 30,000 adult tenants in 28 housing projects here. The tenants must sign and return the certificates by June 1 or face eviction proceedings. The certificates contain a list of more than 200 organizations designated by the U. S. attorney general as subversive.

Hike Bids Rejected

Newark, N. J., May 19 (AP)—The state Public Utility Commission has turned down bids by the Erie and the New York and New Jersey railroads for a 10 per cent increase in monthly commutation fares. About 500,000 commuters use the railroads in the northern New Jersey area each year.

Road Bill Passes

Hartford, Conn., May 19 (AP)—A two and a half million dollar road aid bill, which Gov. Abraham A. Ribicoff has strongly opposed, passed the Republican-controlled Connecticut House of Representatives yesterday. The bill, which now goes to the Democratic-controlled Senate, would increase from five million to seven and a half million dollars the amount the state would pay annually to towns and cities for maintenance of improved roads which are not part of the state highway system.

Urges Coast Site

New York, May 19 (AP)—Vincent Auriol, former president of France, urges that a top level meeting of the Big Four be held next month at San Francisco—where the United Nations was born 10 years ago. Speaking last night at a dinner in his honor, Auriol said the birthplace of the UN would be an appropriate site for a meeting of the heads of the United States, Britain, Russia and France. A commemorative session of the 60 members of the UN is scheduled for San Francisco June 20 to 26.

Humphrey Warns On Soviet Trap

Washington, May 19 (AP)—Sen. Humphrey (D-Minn.) said today the Russians may be setting a trap in southeast Asia by spectacular moves to ease tensions in Europe.

Humphrey, a member of the Senate Foreign Relations Committee, said in an interview that he fears the Eisenhower Administration may have a "tendency to let down" in Asia because of its present concentration in European affairs.

"I think the Russians may be moving to ease tensions in Europe and at the same time restraining the Chinese Communists from violence in the Formosa area in order to infiltrate the governments in southeast Asia and cut them off from the free world country by country," he said.

Humphrey called for a reexamination of American policies in Asia, and suggested a number of recent developments there may be significant.

He said a reported forthcoming visit of Prime Minister Nehru of India to Moscow could be "very important to the west in its implications."

He said Indonesia, "which didn't have a Communist problem not long ago, now has Communists in its government," and added:

"We face elections next year in Viet Nam which could give the whole of that country to the Communists."

Humphrey said he does not expect the Communists to make any openly aggressive move in the Far East, but to depend on infiltration tactics.

Elks Open Parley

Rochester, May 19 (AP)—New York state Elks, 5,000 strong, gathered here today for their 43rd annual convention. The delegates represent 97 lodges in the state. T. Emmett Ryan of Albany, state president, will speak tonight at the opening session. Election of officers and awards of scholarships are booked tomorrow. A parade and the president's ball are scheduled Saturday, concluding day of the convention.

Urges Pledge Acceptance

Newburgh, May 19 (AP)—John W. Johnson, New York state superintendent of public works, says "every single penny" of proposed motor fuel tax boosts would go only for highway construction. Johnson, in a speech last night before the Newburgh Automobile Club, urged opponents of a proposed highway program to accept the "pledged word" of public officials and change their stand.

Called to Chimney Fire

Engine 3 from Wiltwyck Station was dispatched to a chimney fire at 11:12 a. m. today at 75 Franklin street, a two-story frame dwelling owned by Ethel Martin. The fire was in an apartment occupied by Harold Priest. It was extinguished by means of chimney chains which can be used to knock down soot and fire.

Financial and Commercial

New York, May 19 (AP)—Aircrafts headed a recovery in the stock market today for the second straight session.

In the early afternoon, gains ran between 1 and 3 points in many sections with the greatest concentration of biggest gainers in the aircrafts.

Steels did well along with motors, railroads, coppers, utilities, oils, chemicals, merchandising shares, electronics, radio-televisions, and building materials.

The market started higher with a rush and the tape was late briefly in reporting on the progress of trading from the floor of the New York Stock Exchange. The pace continued good and at a rate above yesterday's 2,010,000 shares.

Quotations by Morgan Davis & Co., members of the New York Stock Exchange, 63 Wall street, New York city; branch office 41 John street. R. B. Osterhoudt, manager.

Yonkers Man Named

Albany, N. Y., May 19 (AP)—Louis R. Petrilli of Yonkers was appointed today by George M. Bragalini, state taxation and finance commissioner, as associate estate tax attorney for Westchester county. The post pays $6,500 a year. Petrilli will work out of the tax department's New York city office. Petrilli, a Democrat, has been practicing law in Yonkers. Previously he was a tax accountant and tax attorney for John W. Stokes & Co., an accountancy firm in New York city.

The name of Hell-to-Pay, Wash., founded in 1889 as a railroad camp, has evolved into Eltopia.

Jump in . . .

polio cases among inoculated children, it said it does have a new suspect case under investigation in Nebraska. That makes seven or more suspect cases under study. The others are in California, Idaho, Kansas, Pennsylvania, Kentucky, and Illinois.

There have been five deaths among vaccinated persons.

A HEALTH Service spokesman estimated that inoculations with the Salk vaccine "are now pushing the six million mark."

The 77 confirmed cases since use of the vaccine started about April 14 compare with a provisional total of 682 cases of all kinds of polio, including confirmed and unconfirmed cases, reported by state health authorities since April 10. The total covers all age groups.

JUMP IN —4— ....

The upward jump for the week of May 14, with 206 new cases reported, for the first time pushed the total for this "disease year"—which started about April 1—ahead of the number in the comparable span of last year. However, the calendar year total for this year is still behind the 1954 figure.

THERE HAD been 722 cases this "disease year" reported through last Saturday, compared with 718 a year ago for the similar period. For the calendar year the 1955 total is 1,786, compared with 2,271 in the similar period a year ago.

Still approved for use in the mass inoculation program is the relatively small portion still unused from the 7,850,000 cubic centimeters produced by two laboratories: Parke, Davis & Co. of Detroit and Eli Lilly & Co., Indianapolis.

Scheele, stressing he believes the vaccine to be safe and effective, recommended on May 7 that mass inoculations be halted temporarily. The following day he urged continuance of this shutdown pending a reappraisal of the methods of testing procedures of five manufacturers.

THIS REAPPRAISAL was completed and new clearance given for the Parke, Davis product last Friday. Re-clearance was granted the Lilly vaccine on Sunday.

Then the team of federal inspectors moved on to Wyeth, Inc., Matrietta, Pa. They have now gone to Pitman-Moore Co., Zionville, Ind. Next on the list is Sharp & Dohme, Inc., Philadelphia, which has not yet shipped any vaccine.

A Health Service spokesman said the fact that further re-clearances are being held up is not to be taken to mean that anything "has been found wrong" with the Wyeth product. He said it was another precautionary measure.

THIS SPOKESMAN said the government scientists have been seeking improved methods for studying and analyzing protocols—the scientific reports from manufacturers on which the government bases its decisions whether to clear batches of vaccine for use.

"They have now developed those and they are going to review them," this official said. "They are going at refined methods."

There was no explanation as to why there has been no clearance on more than 4¼ million CC's whose makers' protocols are known to have been in the hands of the health service since May 4. No new batches have been cleared since then. One CC is enough for one shot.

OFFICIALS declined to comment on whether the further delay would affect President Eisenhower's estimate yesterday that enough Salk vaccine is now on hand or "in sight" to give the first of three scheduled shots to all the nation's first and second grade school children.

The rechecks were ordered when some children who had been inoculated came down with polio. The number of such confirmed cases now stands at 77 out of more than five million inoculated. Five of these have been fatal.

Officials have repeatedly said there have been no findings that the vaccine was responsible.

Testimony Heard In Court Action

Testimony is being continued in Supreme Court in the action for $150,000 brought by Miss Mary Damis against Adirondack Transit Lines and David E. Kunker for injuries which she sustained November 10, 1948 when a bus, on which she was a passenger, turned over. Miss Damis suffered severe injuries and contends her present physical condition is due to the accident. She brings an action on the grounds that the injuries have prevented her from working, and it is alleged the injuries are permanent.

Medical testimony on the part of the plaintiff took up the session before Justice Hamm Wednesday and was continued today.

Goes to Town

Russell Springs, Ky. (AP)—Jeff Baker visited Russell Springs for the first time in 48 years, although he lives only 11 miles away. The last time he saw his county seat was in 1907, when he attended a dance. He got married shortly afterward and really settled down. Jeff, now in his 70s, hitched a ride to town in the mailman's horseless carriage. He observed the newfangled electric lights, the moving picture houses, paved streets and bustling traffic and remarked: "This place certainly has changed quite a bit." Then he returned to his country home. Didn't say when he'd return.

Files Claim for Share

Riverhead, N. Y., May 19 (AP)—A New Jersey woman has filed claim for a share in the 37 million dollar estate of the late railroad magnate William K. Vanderbilt, contending she was his secret wife for years. Mrs. Dora Blowers, of Livingston, N. J., filed the claim yesterday with Suffolk County Surrogate Edgar F. Hazelton. Mrs. Blowers, a former school teacher, now is employed by the Department of Justice.

Must Sign Oaths

New York, May 19 (AP) — Printed loyalty oaths were being distributed today to some 30,000 adult tenants in 28 housing projects here. The tenants must sign and return the certificates by June 1 or face eviction proceedings. The certificates contain a list of more than 200 organizations designated by the U. S. attorney general as subversive.

Hike Bids Rejected

Newark, N. J., May 19 (AP)—The state Public Utility Commission has turned down bids by the Erie and the New York and New Jersey railroads for a 10 per cent increase in monthly commutation fares. About 500,000 commuters use the railroads in the northern New Jersey area each year.

Highland

Highland, May 19—Mrs. W. J. Upright is spending this week at the home of her son and his wife, Mr. and Mrs. Carlton Upright, Bayville.

Registration for kindergarten children who will be five years of age by Dec. 1, this year, and who plan to enter school in September, will take place at the Central School May 24 and 26. Registration will be held in the health room. Miss Eva Clark, nurse, will be in charge. It is important that parents bring a birth certificate with them. Hours are 9:30 to 11:30 and 1 to 4 p. m.

Mrs. Hubert Elting has returned after several days spent at her camp at Claryville.

The Rev. W. Stewart MacColl with the choir of the Presbyterian Church conducted the service on TV over the Kingston station Sunday afternoon. The choir included Mrs. Edward Krom who accompanied the singers, Mrs. Patrick Sharkett, the Misses Joan Dimsey, Therese Needham, Joan Needham, Margaret Churchill, Mrs. Walter Clark, Carl Christensen, Thomas Fiorino. Mr. Fiorino rendered the Lord's Prayer as a solo; the choir an anthem, Blessed Is the Man and two hymns. Mr. MacColl led in the devotions.

Jack Meekins is home from his medical studies in New York until May 23 and his brother, Robert, was here from Annapolis for the weekend.

The sum of $20,000 is the total of the building fund drive conducted recently among members and friends of the Presbyterian Church. This will be paid in weekly installments over a period of three years. Edwin Dohrman, chairman of the drive, was assisted by Albert Mullen and Carl Christensen. The pledges were obtained by personal calls. The payments began at the morning service on May 15, when special envelopes were provided for the purpose. Ground was broken last week for the footings of the addition which will be located to the north of the present church school room and at the rear of the church edifice. Roy Mead did the excavation and Harry Thompson will begin the frame construction. Theodore Schunk will do the electric wiring.

The Rev. Herbert Greenland, a former pastor of the Methodist Church, occupied the pulpit last Sunday. He has been located in New York.

Mr. and Mrs. Charles Champlin and Mr. and Mrs. Joseph Mellor spent Friday in Albany. On their return they were accompanied by Miss Margery Mellor who spent the weekend with her parents.

Mr. and Mrs. Fred Wiiklow visited at the home of their son Neil Wilklow in Vooreheesville Thursday.

Mrs. Trench and son, Long Island have visited her sister, Mrs. Hubert Elting in Claryville.

Harry Palmateer spent Thursday and Friday in Camden and Atlantic City, N. J.

Plans for the annual outing of the UD Society were discussed at the meeting Saturday afternoon at the home of Mrs. G. H. Mackey. The society is invited to the summer home of Mrs. Hubert Elting, Claryville, after the middle of June. It was decided not to meet in two weeks due to the date so close to Memorial Day, but to meet June 11 with Mrs. Elsie Randall. Attending were the Misses Belle Brinckerhoff, Rowena Harcourt, Eliza Raymond, Mrs. Fred Wilklow, Mrs. Abram Rhodes, Mrs. Rose Seaman, Mrs. Charles Champlin, Mrs. Alfred Lane, Mrs. Thomas Sears who was accompanied by her granddaughter, Nancy Sears, the president, Mrs. S. D. Farnham and the hostess.

Mr. and Mrs. C. I. Richards returned Sunday following a two weeks trip to Alabama.

IKE CITED FOR SERVICE—President Eisenhower is presented with a citation "for his humanitarian service to, and inspiring support of, America's Cerebral Palsied." Presentation was made in Washington, D. C., by Leonard H. Goldenson, chairman of the board of directors of United Cerebral Palsy, center, and Roger S. Firestone of Pottstown, Pa., 1955 national UCP campaign chairman.

Ulster Legion

were voted at the meeting of the county group in Ashokan April 25.

About 950 boys from throughout the state will attend this year's upstate meeting. All are sponsored by Legion Posts.

Empire Boys' State is a citizenship training program designed to meet the needs of the youth. "State", as it is familiarly in Legion circles throughout the nation, inculcates individual responsibility to community, state and nation and the "learn by doing" concept is employed on the theory that good citizenship is only in part a matter of knowledge, intellect and understanding. Boys' State has been aptly described as a laboratory of practical political science. The program inspires and instills a deep sense of responsibility and obligation in the youth attending by educating them in the principles of Democracy, and by teaching them the duties, privileges and rights of American citizenship.

The facilities and plant of Colgate University are ideal for the accomplishment of the aims of Empire Boys' State. Colgate University is situated amid the rolling hills of the Chenango Valley, some 1,130 feet above sea level and the location is ideal for this splendid program offered by the American Legion, Department of New York.

Each County Boys' State chairman is responsible for the filling of the quota assigned to his particular county. The quota for Ulster county was set as nine boys but ten Ulster county Posts have signified their intentions of sending a boy so it was necessary to secure from George A. Meade, executive director, permission to send the additional boy from Ulster.

Empire Boys' State is not limited to relatives or friends of members of the American Legion. Leadership, character, scholarship and service are the necessary qualifications a boy must possess in order to be admitted to Boys' State. Merit and ability alone are the basis for the selection of boys and no boys are barred because of either poverty or wealth, nor are they barred by race, creed or color.

Boys must be at least 15 years of age at time of making application. They must have completed their junior year in high school and intend to return to school in the fall as seniors to complete their high school education. They must be residents of New York state and have the following qualifications: Potential leadership, Ability to get along with others, Mentally alert and physically clean, Honest, Good personality, Vigorous, cooperative and enthusiastic, Good citizenship.

THE BOYS have been chosen by faculty committees of the schools they attend for their seriousness and purpose, industry, initiative, concern for others, responsibility and emotional stability. The faculty committees submit the names of qualified boys to the sponsoring Posts through their Post Boys' State chairman and a boy is selected. It is then the duty of the Post Boys' State chairman to interview the parents of the boy selected to ascertain if they are in accord with the program. The entire program is financially supported at the Post level by the sponsoring Posts.

During the past few years Empire Boys' State has been fortunate in obtaining the services of high school teachers and law school students as counselors. Their services have contributed no little to the success of the program as they are experienced personnel who know boys and parliamentary procedure.

Thirty cities are formed at Boys' State, named after past Department Commanders. Each city will consist of 30 boys and 30 cities will be divided into 10 counties. A counselor is assigned to each city and it is his duty to assist the boys and guide them in their activities.

THERE ARE MANY other activities provided for the boys in addition to the governmental work. Sports of all kinds are enjoyed on the spacious Colgate campus. A daily newspaper is printed and in the course of the week elections are held for all public offices. The election campaigns are waged in true American tradition. The "Governor" of 1955 Boys' State and his staff will be "sworn" into office by Gov. Averell Harriman. This is a big event and the highlight of the week's activities when both governors make speeches to the entire group and many relatives and friends from all over the state come to Hamilton for the festivities.

Each boy is given a medical examination upon his arrival at Boys' State and every precaution is taken to safeguard his health. The boys' spiritual welfare is also thought of in that chaplains of all creeds are in attendance.

Each boy who attends Empire Boys' State will be expected to make a report to his sponsoring Legion post upon his return and the sponsoring posts invite him to make this report at the first meeting after his return.

Jack Meekins is home from his medical studies in New York until May 23 and his brother, Robert, was here from Annapolis for the weekend.

The sum of $20,000 is the total of the building fund drive conducted recently among members and friends of the Presbyterian Church. This will be paid in weekly installments over a period of three years. Edwin Dohrman, chairman of the drive, was assisted by Albert Mullen and Carl Christensen. The pledges were obtained by personal calls. The payments began at the morning service on May 15, when special envelopes were provided for the purpose. Ground was broken last week for the footings of the addition which will be located to the north of the present church school room and at the rear of the church edifice. Roy Mead did the excavation and Harry Thompson will begin the frame construction. Theodore Schunk will do the electric wiring.

The Rev. Herbert Greenland, a former pastor of the Methodist Church, occupied the pulpit last Sunday. He has been located in New York.

Mr. and Mrs. Charles Champlin and Mr. and Mrs. Joseph Mellor spent Friday in Albany. On their return they were accompanied by Miss Margery Mellor who spent the weekend with her parents.

Mr. and Mrs. Fred Wilklow visited at the home of their son Neil Wilklow in Vooreheesville Thursday.

Mrs. Trench and son, Long Island have visited her sister, Mrs. Hubert Elting in Claryville.

Harry Palmateer spent Thursday and Friday in Camden and Atlantic City, N. J.

Plans for the annual outing of the UD Society were discussed at the meeting Saturday afternoon at the home of Mrs. G. H. Mackey. The society is invited to the summer home of Mrs. Hubert Elting, Claryville, after the middle of June. It was decided not to meet in two weeks due to the date so close to Memorial Day, but to meet June 11 with Mrs. Elsie Randall. Attending were the Misses Belle Brinckerhoff, Rowena Harcourt, Eliza Raymond, Mrs. Fred Wilklow, Mrs. Abram Rhodes, Mrs. Rose Seaman, Mrs. Charles Champlin, Mrs. Alfred Lane, Mrs. Thomas Sears who was accompanied by her granddaughter, Nancy Sears, the president, Mrs. S. D. Farnham and the hostess.

Mr. and Mrs. C. I. Richards returned Sunday following a two weeks trip to Alabama.

IKE CITED FOR SERVICE—President Eisenhower is presented with a citation "for his humanitarian service to, and inspiring support of, America's Cerebral Palsied." Presentation was made in Washington, D. C., by Leonard H. Goldenson, chairman of the board of directors of United Cerebral Palsy, center, and Roger S. Firestone of Pottstown, Pa., 1955 national UCP campaign chairman.

Ulster Legion

were voted at the meeting of the county group in Ashokan April 25.

About 950 boys from throughout the state will attend this year's upstate meeting. All are sponsored by Legion Posts.

Empire Boys' State is a citizenship training program designed to meet the needs of the youth. "State", as it is familiarly in Legion circles throughout the nation, inculcates individual responsibility to community, state and nation and the "learn by doing" concept is employed on the theory that good citizenship is only in part a matter of knowledge, intellect and understanding. Boys' State has been aptly described as a laboratory of practical political science. The program inspires and instills a deep sense of responsibility and obligation in the youth attending by educating them in the principles of Democracy, and by teaching them the duties, privileges and rights of American citizenship.

The facilities and plant of Colgate University are ideal for the accomplishment of the aims of Empire Boys' State. Colgate University is situated amid the rolling hills of the Chenango Valley, some 1,130 feet above sea level and the location is ideal for this splendid program offered by the American Legion, Department of New York.

Each County Boys' State chairman is responsible for the filling of the quota assigned to his particular county. The quota for Ulster county was set as nine boys but ten Ulster county Posts have signified their intentions of sending a boy so it was necessary to secure from George A. Meade, executive director, permission to send the additional boy from Ulster.

Empire Boys' State is not limited to relatives or friends of members of the American Legion. Leadership, character, scholarship and service are the necessary qualifications a boy must possess in order to be admitted to Boys' State. Merit and ability alone are the basis for the selection of boys and no boys are barred because of either poverty or wealth, nor are they barred by race, creed or color.

Boys must be at least 15 years of age at time of making application. They must have completed their junior year in high school and intend to return to school in the fall as seniors to complete their high school education. They must be residents of New York state and have the following qualifications: Potential leadership, Ability to get along with others, Mentally alert and physically clean, Honest, Good personality, Vigorous, cooperative and enthusiastic, Good citizenship.

THE BOYS have been chosen by faculty committees of the schools they attend for their seriousness and purpose, industry, initiative, concern for others, responsibility and emotional stability. The faculty committees submit the names of qualified boys to the sponsoring Posts through their Post Boys' State chairman and a boy is selected. It is then the duty of the Post Boys' State chairman to interview the parents of the boy selected to ascertain if they are in accord with the program. The entire program is financially supported at the Post level by the sponsoring Posts.

During the past few years Empire Boys' State has been fortunate in obtaining the services of high school teachers and law school students as counselors. Their services have contributed no little to the success of the program as they are experienced personnel who know boys and parliamentary procedure.

Thirty cities are formed at Boys' State, named after past Department Commanders. Each city will consist of 30 boys and 30 cities will be divided into 10 counties. A counselor is assigned to each city and it is his duty to assist the boys and guide them in their activities.

THERE ARE MANY other activities provided for the boys in addition to the governmental work. Sports of all kinds are enjoyed on the spacious Colgate campus. A daily newspaper is printed and in the course of the week elections are held for all public offices. The election campaigns are waged in true American tradition. The "Governor" of 1955 Boys' State and his staff will be "sworn" into office by Gov. Averell Harriman. This is a big event and the highlight of the week's activities when both governors make speeches to the entire group and many relatives and friends from all over the state come to Hamilton for the festivities.

Each boy is given a medical examination upon his arrival at Boys' State and every precaution is taken to safeguard his health. The boys' spiritual welfare is also thought of in that chaplains of all creeds are in attendance.

Each boy who attends Empire Boys' State will be expected to make a report to his sponsoring Legion post upon his return and the sponsoring posts invite him to make this report at the first meeting after his return.

Agrees on Women As Ministers, Hits Segregation Rule

Los Angeles, May 19 (AP)—A proposal that women be admitted to the Presbyterian ministry was endorsed today by the national head of the church.

He is Dr. Ralph Waldo Lloyd, president of Maryville (Tenn.) College and moderator of the General Assembly of the Presbyterian church in the United States of America.

Dr. Lloyd also called for church-wide practice of non-segregation.

His views were contained in a sermon prepared for delivery at today's opening session of the 167th General Assembly.

THE SERMON marks Dr. Lloyd's last official function as moderator since his successor will be elected later today to serve during the week-long meetings and through the coming year.

Admission of women as ministers and the non-segregation issue are expected to come before the General Assembly for action later in this session.

DR. LLOYD said:

"As one thinks of the tremendous part which women play in the spiritual life and in the ministry of our church around the world, he cannot but hope that the church will possess enough of understanding and of the spirit of the pioneer to open all of the possibilities of service to women.

"A quarter of a century ago the eldership was opened to them and more than 3,000 women are serving in that distinctive Presbyterian office.

"THE LIFE of the church will be enriched further by opening of the office of minister also to women. The number of women who may wish to enter the ministry and the number of churches which may desire to call women as ministers are unknown. But that is not the point. The point is that in a church which seeks to eliminate all artificial discrimination it is not consistent to forbid women to serve wherever the spirit of God may seem to call them."

On non-segregation, Dr. Lloyd observed:

"Our official pronouncements calling for a non-segregated society and a non-segregated church are strong and right. But our practice is weaker than our pronouncements. It is time for every congregation to become a true christian pioneer. There should be no church whose doors and hearts are closed to any sincere seeker after Christ. This should come to be true in the south as well as in the north, and in the west as well as the east."

Changes the Shape

If you hit a lump of asphalt with a hammer, it is much like hiting a rock, but a firm, gentle pressure with your thumb will change the shape of the lump.

Juror Speaker

selected topic of government itself and the price of good government, deplored laxity in voting experienced throughout the years in this country. "This is not just a privilege. It is the duty of all citizens."

"Getting acquainted with the problems of our government is one of the best ways to know your government," the guest speaker said. He pointed out that the best way to influence those in government positions is to get back of the public opinion bandwagon. This idea is gaining rapidly, he said, and much can be obtained by this medium.

Referring to taxation, as known in this country, Mr. Connelly said although it was held by many as unpopular, he added that taxes are important for many reasons. "Through taxation our government is improved and as a result benefits are realized for the population."

The local attorney also defended for the most part the role of government workers. He said they work as hard as others in other fields and in a majority of cases receive much less compensation.

OTHER SPEAKERS during the program included District Attorney St. John, who acted as master of ceremonies; Assistant District Attorney Schick, Attorney William A. Kelly, Louis G. Bruhn, former district attorney; Edwin Ashby, Ulster county commissioner of jurors and Judge Cashin.

Prior to the message by Mr. Connelly, jurors and their guests were treated to an electric recording of some of the program activities held at Napanoch Institution for Male Defective Delinquents. Lloyd Wilklow, assistant superintendent at Napanoch and Nelson Waters and Harold Heck, two of the guards there, presented the program. Major Thomas J. Hanlon, the Napanoch superintendent, was unable to attend the banquet due to illness.

MR. WILKLOW, before presenting the program, again praised the annual visitations of the jurors to Napanoch saying "they do much to make the inmates there feel they are not being neglected."

President Murphy, in opening the after dinner program, paid special credit to his banquet committee workers including Mrs. Raymond Schuler, general chairman; Ward Dierfelter, F. Leslie Garrison and Mrs. Anne M. Ashdown.

OTHER GUESTS introduced during the evening were Chester Elliott, New Paltz, vice-president of the association; Mrs. Ashdown, Kingston, secretary; Edmund Zeidler, Kingston, treasurer; Fred Baumgarten, Stone Ridge, chairman of the board of directors; Mrs. Raymond Schuler, secretary of the board of directors; Raymond Schuler, Jr., a recently returned veteran from Korea; Blaine Wright, Napanoch; Supervisor Joseph Turck of the Fourth Ward; Stanley Petro, former supervisor of the Third Ward; Raymond Schuler, former Seventh Ward supervisor; Mrs. Rose Haynes, widow of the Rev. Daniel Haynes, former association chaplain; Justice of the Peace Percy Gazlay of the town of Rochester and Irwin J. Thomas, assistant city editor of The Freeman.

Thomas Crosby played piano selections during the meal.

Pope Ill After Greeting 35,000

Vatican City, May 19 (AP)—Vatican sources reported today Pope Pius XII suffered a 15-minute spell of weakness and dizziness following a general audience of more than an hour yesterday for 35,000 Italian farmers.

The sources said the 79-year-old pontiff had recovered and today showed no signs of weakness.

The audience yesterday was the biggest the head of the Roman Catholic Church has held since his grave collapse with a stomach disorder last December. The subsequent weakness was blamed on his unusual exertion.

The Pope spoke to the farmers in St. Peter's Basilica for half an hour. For another 25 minutes he greeted their leaders and received gifts from them. Then he was carried the length of the Basilica, repeatedly waving his hands in blessing. At the end of the church he stood up unassisted before his portable throne and again blessed the crowd. Later he gave still another blessing from his apartment window to the crowd in St. Peter's Square.

The weak spell occurred shortly after.

"Our official pronouncements calling for a non-segregated society and a non-segregated church are strong and right. But our practice is weaker than our pronouncements. It is time for every congregation to become a true christian pioneer. There should be no church whose doors and hearts are closed to any sincere seeker after Christ. This should come to be true in the south as well as in the north, and in the west as well as the east."

Changes the Shape

If you hit a lump of asphalt with a hammer, it is much like hiting a rock, but a firm, gentle pressure with your thumb will change the shape of the lump.

Juror Speaker

selected topic of government itself and the price of good government, deplored laxity in voting experienced throughout the years in this country. "This is not just a privilege. It is the duty of all citizens."

"Getting acquainted with the problems of our government is one of the best ways to know your government," the guest speaker said. He pointed out that the best way to influence those in government positions is to get back of the public opinion bandwagon. This idea is gaining rapidly, he said, and much can be obtained by this medium.

Referring to taxation, as known in this country, Mr. Connelly said although it was held by many as unpopular, he added that taxes are important for many reasons. "Through taxation our government is improved and as a result benefits are realized for the population."

The local attorney also defended for the most part the role of government workers. He said they work as hard as others in other fields and in a majority of cases receive much less compensation.

OTHER SPEAKERS during the program included District Attorney St. John, who acted as master of ceremonies; Assistant District Attorney Schick, Attorney William A. Kelly, Louis G. Bruhn, former district attorney; Edwin Ashby, Ulster county commissioner of jurors and Judge Cashin.

Prior to the message by Mr. Connelly, jurors and their guests were treated to an electric recording of some of the program activities held at Napanoch Institution for Male Defective Delinquents. Lloyd Wilklow, assistant superintendent at Napanoch and Nelson Waters and Harold Heck, two of the guards there, presented the program. Major Thomas J. Hanlon, the Napanoch superintendent, was unable to attend the banquet due to illness.

MR. WILKLOW, before presenting the program, again praised the annual visitations of the jurors to Napanoch saying "they do much to make the inmates there feel they are not being neglected."

President Murphy, in opening the after dinner program, paid special credit to his banquet committee workers including Mrs. Raymond Schuler, general chairman; Ward Dierfelter, F. Leslie Garrison and Mrs. Anne M. Ashdown.

OTHER GUESTS introduced during the evening were Chester Elliott, New Paltz, vice-president of the association; Mrs. Ashdown, Kingston, secretary; Edmund Zeidler, Kingston, treasurer; Fred Baumgarten, Stone Ridge, chairman of the board of directors; Mrs. Raymond Schuler, secretary of the board of directors; Raymond Schuler, Jr., a recently returned veteran from Korea; Blaine Wright, Napanoch; Supervisor Joseph Turck of the Fourth Ward; Stanley Petro, former supervisor of the Third Ward; Raymond Schuler, former Seventh Ward supervisor; Mrs. Rose Haynes, widow of the Rev. Daniel Haynes, former association chaplain; Justice of the Peace Percy Gazlay of the town of Rochester and Irwin J. Thomas, assistant city editor of The Freeman.

Thomas Crosby played piano selections during the meal.

Free Lunch

Cleveland (AP)—Lou Watson, who recently moved his restaurant from downtown Cleveland to suburban Lakewood, several miles away, says a flock of pigeons which patronized the back door of his old place now visit his new one. He says he's sure they're the same ones because they are so tame.

Pope Ill After Greeting 35,000

Vatican City, May 19 (AP)—Vatican sources reported today Pope Pius XII suffered a 15-minute spell of weakness and dizziness following a general audience of more than an hour yesterday for 35,000 Italian farmers.

The sources said the 79-year-old pontiff had recovered and today showed no signs of weakness.

The audience yesterday was the biggest the head of the Roman Catholic Church has held since his grave collapse with a stomach disorder last December. The subsequent weakness was blamed on his unusual exertion.

The Pope spoke to the farmers in St. Peter's Basilica for half an hour. For another 25 minutes he greeted their leaders and received gifts from them. Then he was carried the length of the Basilica, repeatedly waving his hands in blessing. At the end of the church he stood up unassisted before his portable throne and again blessed the crowd. Later he gave still another blessing from his apartment window to the crowd in St. Peter's Square.

The weak spell occurred shortly after.

Creole Crispies

Recipes for chocolate cookies with a rich chocolate flavor are rare Here's one of the rare ones. These thin chocolate-nut wafers are crunch; and taste heavenly. With Good Luck margarine used as the shortening they have an extra plus . . . good keeping quality. They're such delicious cookies, though, that you'll find the cookie jar emptying fast. Your family will love them.

- 2 bars Good Luck margarine
- ½ teaspoon salt
- 1 teaspoon vanilla
- 1¾ cups sugar
- 2 eggs, unbeaten
- 3 ounces chocolate, melted
- 1½ cups sifted all-purpose flour
- 1 cup chopped pecans or walnuts

Let margarine soften in mixing bowl. Add salt and vanilla, then add sugar gradually, creaming until light and fluffy. Add eggs and beat well. Add melted chocolate and blend. Add flour and mix thoroughly. Add nuts and blend. Measure out level tablespoons of dough on greased cookie sheets. Flatten cookies by stamping with a flat-bottomed glass covered with a damp cloth. Bake in moderately slow oven (325°F.) 12 to 15 minutes. Makes 5½ dozen cookies.

WALLKILL NEWS

Wallkill, May 18—The Wallkill Woman's Club held its annual lawn party meeting Friday, May 13, at the home of Mrs. Walter Wallack. Yearly reports of all officers were given at this meeting. The club will send a Girl Scout from the Wallkill troops to Camp Wendy for two weeks this summer. This Scout will be selected by the Girl Scout committee. The subscription for the "Jack and Jill" magazine in the village library has been renewed for two years by the club. The new officers for the coming year are Mrs. John Sloan, president; Mrs. Ira Wickner, first vice-president; Miss Helen VanWyck, second vice-president; Mrs. George Brach, recording secretary; Mrs. Oscar Smith, corresponding secretary, and Mrs. John Scarzello, treasurer. The June meeting will be a luncheon meeting at the Flo-Jean in Port Jervis at 1 p. m. June 4. Reservations will be made by the telephone committee, with Mrs. Harry Dunn as chairman. All reservations must be made by May 28. Master Peter Yeaple, a student at Marlboro Central School entertained with his piano-accordion. The talented youngster played "Tenderly," "True Love," "Tales of Vienna Woods" and "Under the Double Eagle March." Master Yeaple has appeared on television and won a citation for his school. He studies at the Zelmar Music School in Newburgh. Refreshments were served by the hostess, Mrs. Wallack with Mrs. Ira Wickner pouring.

The Ulster County Committee of the American Legion Auxiliary is sponsoring a subscription campaign to raise funds for the purchase of additional portable sick room equipment for the use of residents of the county. Through the generous support in previous campaigns, the American Legion Auxiliary has been able to build up a sizable hospital equipment loan service for home use. This equipment is stationed in the Health Center and is loaned to any person in Ulster county for home use free of charge. This is an annual affair and representatives bearing letters of introduction, signed by county officers as well as Mrs. Marie Flockhart, president of Rose-Sheeley Post of Wallkill, will call at homes in this vicinity in the near future. The Legion Auxiliary asks that all residents request the presentation of proper credentials by those who solicit.

$60,000 Bond Issue Approved by Board

Saugerties, May 18 — The Saugerties village board of trustees Monday night unanimously approved a $60,000 bond issue for equipment and materials needed for the improvement of streets in the village.

Robert F. Carnright, local attorney outlined the various legal procedures for floating the bond issue which will be submitted to referendum. If approved by the taxpayers the money will be used to purchase heavy equipment needed for road building. Equipment to be purchased includes a low bed trailer, a roller, a grader, a sweeper and a crawler shovel and back hoe.

Floating the bond issue is another step in the program to improve the various village streets which have caused some concern to the local citizenry.

A letter of invitation from Town Clerk William Ferman was received asking the village board to attend a special meeting with the Saugerties town board for the purpose of discussing the problem of the village dump which according to the village board is being used by town residents. At a recent meeting the village board authorized sending a request to the town board for an allocation of $1,000 to help the village maintain the village dump.

Approved for membership into the Saugerties Fire Department were Ralph V. Hayes, Henry A. Genthner, Joseph Buono, John Gambino, and Andrew Vozdik, all of the R. A. Snyder Fire Company and Earl Martin of the C. A. Lynch Fire Company.

Exemption papers approved included Charles W. Meiswinkel of the Lynch Company and LeRoy Snyder of the Washington Hook and Ladder Company.

The board received a letter from former village attorney Louis P. Francello who asked to be relieve of his duties concerning the Plattekill suits pending against the village. The board moved to accept the resignation.

A communication was received from the Lions Little League commending the village board and the town board for the excellent maintenance of the Little League ball field. The letter said that the field is now, "One of the finest in the Hudson valley."

Ruby Dartballers Win Newburgh Trophy

Saugerties, May 18 — The Ruby dartball team, one of three representing the Saugerties Dartball League in the third annual tournament sponsored by the Newburgh Dartball Council, won the first place trophy with 101 points Saturday.

The two-day tournament also found West Camp as the third place team Friday.

According to council officials Ruby broke existing records with its score of 101 points for a visiting team.

The trophy was won for the first highest in the visiting team category of the tournament.

In the over-all tourney which included more than 50 teams, Ruby placed fourth. The winning team from Newburgh garnered 118 points.

For the three game competition Ruby was paired with another entrant from Saugerties, the Glasco A team. Also competing on Saturday night was the Glasco AC.

All three teams were involved in the Saugerties League play-offs this spring with West Camp which was defeated by Ruby in the semi-finals. Quarryville, league pennant winner and World Series champ of Saugerties did not enter the invitation tournament.

East got away with murder when he bid two clubs in today's hand. South should have doubled. East would have been set three tricks, and the penalty of 500 points would have made him think twice the next time he had a chance to reopen the bidding.

But South didn't double, and he finally played the hand at two no-trump. At best he could score only 70 points and the value of the part score. As it turned out, good defense stopped him from making even that.

West opened the eight of clubs, not realizing that his partner's suit was so weak, and East let dummy hold the king of clubs and then the jack of clubs. Declarer led a low spade from dummy, losing the king to West's ace. West then returned a spade, and South won with the queen.

South was in his own hand but didn't know when he'd get back to it again. After some indecision, he led the ten of hearts. This card was covered by the jack and queen, and won by East's king. East returned a spade to the jack, and declarer returned to his hand with the nine of hearts to lead the queen of clubs.

Only now did East take the club trick that had been offered to him twice before. He then returned a heart, forcing dummy to win the trick. Declarer could cash dummy's last heart, but he then had to lead a diamond away from the king. East hopped up with the queen of diamonds and gave his partner the last two tricks with the ace of diamonds and the last spade.

It must be admitted that South might have made his contract by a different line of play, but the true point is that he shouldn't have been in this pickle. East should have been struggling, and South should have been enjoying the fun.

Movie House Fire Claims 58 Lives

Warsaw, Poland, May 19 (AP) —A Warsaw paper reported yesterday that 58 persons were burned to death and more than 200 others injured in a fire which broke out in a movie auditorium designed to hold 90 persons.

The newspaper Trybuna Ludu said the disaster occurred last week at Wielopolo, a village in southern Poland, in a schoolroom converted for film showings.

The report said four theatre employes had been arrested. It said an official investigation found the fire started in a projector and that in addition to the overcrowding, fire protection was inadequate and both audience and staff were violating no-smoking regulations.

Marlboro Student Gets Scholarship

Wilfred B. Postel of Church street, Marlborough, a senior at Marlboro Central School, is among the high school pupils in the state who have been awarded state tuition-paying scholarships at Cornell University, as a result of competitive examination held March 1 and 2. His score was 367.5.

There are issued to the pupils of each county as many scholarships as there are Assembly districts in the county. In case of any one of these winners should decline the scholarship, it is immediately offered to the next eligible candidate on the county list.

The holder of one of these scholarships will be entitled to a reduction of $200 a year from the regular tuition fees at one of the tuition-paying colleges of Cornell University for a period —four years.

Agreement Reached On Dump Problem

Saugerties, May 19—A compromise agreement was reached for the temporary solution to the village dump problem at a special meeting of members of the Town Board and the Village Board Tuesday night in the Town Hall.

Recognizing the mutual problem, the Town Board offered to pay $100 per month or $1,200 per year toward the maintenance of the village dump which the Town Board acknowledges is being used by town residents.

At a recent Village Board meeting the village trustees had estimated that the cost of maintenance of the dump was between $4,000 to $5.000 and it was the consensus of the board at that time that they should request the town to share the expense by giving the sum of $2,000 toward the maintenance.

TOWN SUPERVISOR Peter Williams pointed out that the town maintains Cantine Memorial Field and the village jail without compensation from the village and that no town taxes are levied against village residents for the operation of the town. Supervisor Williams emphasized that the portion of the town tax which is levied against village residents is highway tax and includes maintenance of bridges, town highways and snow removal on highways which are used by the village. According to Supervisor Williams the other charges are county charges which are apportioned to town and village alike.

Mayor Arthur F. Simmons as spokesman for the members of the village board called for a vote of his members and the village board accepted the offer for a one year trial period.

IT WAS AGREED that this was only a temporary measure due to the influx of new residents and the projected need for new and larger dumping facilities.

Supervisor Williams, seeking a long range solution to the dump problem, agreed to appoint two members of the town board to meet with a committee from the village to study the situation and seek a permanent solution.

Supervisor Williams suggested that the village attorney draft a contract with the agreed amount of payment and when presented to the town board they would sign the contract.

Town Board members in attendance included Percy Abeel, Glenford Myers, Kenneth Synder, Henry Luhrs, and Frank Greco.

Village Board members present included Mayor Simmons, Eugene F. Thornton, Joseph E. Vozdik, David S. Cunningham, Robert S. Russell and John F. Carnright.

Bus Extension Is Approved by Board

Saugerties, May 19—The Town Board in special session Tuesday night approved a petition presented by the Lipton Bee Line, Julius Lipton of Kingston for extension of his present service to include Blue Mountain and West Saugerties.

This will furnish bus service to these two communities and will give them access to both Saugerties and Kingston by bus.

Also on the petition was a request to extend a spur of the present route through Mt. Marion to include Mt. Marion Park in order to furnish bus service to the new development.

The Town Board set a hearing date for Friday, May 27 at 2 p. m. to be held in the Town Hall on Main street.

Following the hearing the petition must be presented to the Public Service Commission before service in the extended areas can be put in operation.

Nimrods to Host Local Cubs, Scouts

Saugerties, May 19 — The Saugerties Fish and Game Club has invited all Cub Scouts, Boy Scouts and Explorers to a special showing in color of a fish and game film at 7 p. m. Monday, May 23, in the R. A. Snyder Fire Company rooms in the municipal building.

The film showing will be presented prior to the regular meeting of the local sportsmen. The fish and game club also extends its invitation to all leaders and parents and others interested in conservation to attend and view the informative and interest film.

The regular meeting is usually held on the last Monday. However, to avoid a conflict with Memorial Day the meeting has been re-scheduled for May 23, at 8 p. m.

The second showing of the sound-color film will be presented during the refreshment period following the meeting.

Scouts to Conduct Paper Drive May 21

Saugerties, May 19 — Boy Scouts of Troop 31 sponsored by the Centerville Fire Company will conduct a newspaper and magazine collection drive Saturday throughout the western town areas.

Paper collections will be made by the scouts in Veteran, Mt. Marion, Pine Grove, West Saugerties, Blue Mountain and Centerville. Scoutmaster Harold Van Etten who is directing the drive has asked the cooperation of the town residents in helping the scouts in their efforts by saving newspapers and magazines until Saturday when they will be picked up by the scouts.

The total collection will be trucked to Kingston to a junk dealer and the proceeds will be deposited in the troop treasury for future activities and projects.

Church Backs Drive For Hartwick Funds

Saugerties, May 19—St. Paul's Evangelical Lutheran Church of West Camp this week initiated the local drive for the Synod wide fund appeal for Hartwick College.

The Hartwick College appeal with a minimum goal of $200,000 has been authorized by the United Lutheran Synod of New York and New England. The campaign will close May 29.

This appeal is part of a larger program of development that Hartwick College has under construction. This program includes improved teaching facilities, campus landscaping and improvement, increased housing facilities and the establishment of more professorships and scholarships.

The greatest share of this allotment will go toward the building of a men's dormitory. On Feb. 19 fire gutted the men's dormitory at Hartwick. Since then the occupants have been forced to live in the college gymnasium until other accommodations could be arranged for them in another building.

This appeal is not another request for money but all Lutherans are asked to share in the educational program of the Lutheran Church.

Contributions may be mailed to Miss Jennie Burhans, West Camp.

Chairmen Are Named For Memorial Rites

Saugerties, May 19—John A. Burns Jr., and Vernon Tymeson were named to serve as co-chairmen of the Memorial Day observance sponsored by the Lamouree-Hackett Post 72, American Legion in Saugerties.

The program for Monday, May 30 will include a short parade through the village streets with special memorial services being conducted at the veteran's memorial on the high school grounds.

According to the announcement the committee is making an effort to secure the services of a guest speaker of natioal importance. The man they have in mind is a well-known radio network news analyst.

It is the intention of the committee that the observance be community-wide and they have asked for the cooperation of various fraternal and service clubs in the area to participate in both the parade and the memorial services.

Area Activities

Saugerties, May 19—The regular immunization clinic conducted by the Ulster County Health Department will be held at the Saugerties Health Center, West Bridge and Main streets, Monday from 3:30 to 4 p. m. Dr. Hugh Chidester, local health officer, will administer immunizations for smallpox, diphtheria, tetanus and whooping cough.

The VFW Blood Bank sponsored by the Auxiliary of the Saugerties Memorial Post 5034, VFW has scheduled the regular blood drawing for Thursday at the VFW Hall on Livingston street at 7 p. m. The drawing was originally scheduled for May 19 was postponed due to a conflict of other activities.

The regular monthly meeting of the Young Adult Civic Council has been re-schedule for Thursday, May 26 at 8 p. m. in the projection room of the high school. The group will celebrate the first anniversary of the existence of the organization. The agenda will also include plans for the June picnic meeting and arrangements for entering a float in the Fourth of July Parade in Saugerties.

The Saugerties Home Bureau will conduct its annual spring luncheon at Judie's in Kingston Thursday, June 2, at 1:30 p. m. Reservations may be made with Mrs. James Abbott.

The Women's Auxiliary of the Saugerties Reformed Church is sponsoring a rummage sale Friday and Saturday, May 27-28 in O'Dea store on Partition street. Donations from the sale may be delivered on Wednesday, May 26 between 2 and 5 p. m. Articles will be called for if requested by phone to Mrs. Robert Freligh, Mrs. Albert Smith and Mrs. Arthur Main.

Vincent Lopez has been in the band business so long it seems that there must have always been a Vincent Lopez. He's been playing at the Hotel Taft for 15 years, for example, and he was no rookie when he started.

So when Vincent Lopez starts talking about the record business, it's worth while listening. And at the moment, Lopez thinks he detects signs that the record business is in for rocky days ahead.

"I remember," he says, "back in '23 and '24 when you couldn't give records away. I'm not saying that will happen again, but what goes up must come down."

And records are way up. They must come back down to earth, Lopez feels.

"The record business is changing so much," he says. "I made my first record in '21. Then it took an hour and a half to balance and you played into a horn."

("Balancing" means getting the mikes placed in proper relationship to the instruments, so the finished record will sound like a band does on the stand.)

"Now you can balance in 10 minutes. Of course some people still take an hour and a half, but they don't need to. Now, too, you can make a 10-piece band sound like 25 men with proper balancing."

Recording today, is a cinch. So says Vincent Lopez, who should know.

Agreement Reached On Dump Problem

Saugerties, May 19—A compromise agreement was reached for the temporary solution to the village dump problem at a special meeting of members of the Town Board and the Village Board Tuesday night in the Town Hall.

Recognizing the mutual problem, the Town Board offered to pay $100 per month or $1,200 per year toward the maintenance of the village dump which the Town Board acknowledges is being used by town residents.

At a recent Village Board meeting the village trustees had estimated that the cost of maintenance of the dump was between $4,000 to $5,000 and it was the consensus of the board at that time that they should request the town to share the expense by giving the sum of $2,000 toward the maintenance.

Federal Statistics Often Don't Fit Region Job, Money Picture

New York, May 19 (AP)—It's getting harder to recognize your own home town when you read the national statistics.

Trends in jobs and incomes on a nationwide basis often don't fit your own experience or that of your city or region.

The government says, for instance, that today 61,685,000 Americans have jobs. That's 35 per cent more than in 1939. If you live in some states you know that the increase has been much less than that. If you live in some others—along the Pacific coast, in the industrial midwest or in the Rocky mountain area—you know the national figure understates the gains.

AND IF YOU are a farm worker, you know there are 25 per cent fewer jobs for you today than in 1939. If you're one of the three million out of work, all "prosperity" stories may rub your hair the wrong way.

Government figures for the nation as a whole put annual income at $1,660 per person. That's 208 per cent better than in 1939—but only if you don't take into account what has happened to the purchasing power of the dollar in the last 15 years. If you put today's income in terms of the "1939 dollar", the gain is a more modest one of 53 per cent.

Yet that's for the nation as a whole. In five sections of the land per capita incomes are lower than the national average. In four sections they are higher.

OR TAKE NONFARM jobs. There has been an increase of 59 per cent over-all in the last 15 years. But that doesn't mean that jobs in your particular field are that much more plentiful.

Actually, there are 10 per cent fewer employed in mining than in 1939. But there are 138 per cent more jobs in the construction industry now than then.

Governments at the various levels, as you might suspect, hire 71 per cent more people now than 15 years ago. Trade and service jobs are right on the middle line — each having increased by 59 per cent. Jobs in financial institutions are up 53 per cent and 40 per cent more have work in transportation and utility companies.

Regional differences, as broken down by Dun & Bradstreet, are even more striking.

THE NEW ENGLAND states have seen a 28 per cent rise in total employment, the best gain being 90 per cent in construction—but both are below the national average. Per capita income of $1,785, however, is better than average.

The mid Atlantic states of New York, Pennsylvania and New Jersey show employment up 34 per cent, with construction jobs leading at 106 per cent, and per capita income the highest in the union at $1,975.

The east north central states of Ohio, Indiana, Illinois, Michigan and Wisconsin have a 42 per cent rise in employment, construction jobs up 176 per cent and per capita income $1,880—all topping the national average.

The west north central states of Missouri, Iowa, Minnesota, Kansas, Nebraska, South and North Dakota, had an employment gain of 27 per cent, with construction up the most at 132 per cent and per capita income of $1,525—all three below the national average.

THE SOUTHERN Atlantic coast tier — Maryland, Virginia, West Virginia, North and South Carolina, Georgia and Florida—added 30 per cent more jobs in 15 years, but finance shows the biggest increase with 112 per cent. Per capita income is below average at $1,350.

East south central states of Kentucky, Tennessee, Alabama and Mississippi show the lowest employment gain, 15 per cent. Construction leads at 140 per cent. Per capita income of $1,070 is the lowest for any region, by Dun & Bradstreet's tell.

West south central states—Texas, Louisiana, Arkansas and Oklahoma—see 30 per cent more employed today, with construction again the strongest, up 152 per cent. Per capita incomes are the second lowest at $1,330.

THE ROCKY Mountain tier—New Mexico, Arizona, Nevada, Utah, Colorado, Wyoming, Montana and Idaho—show a 40 per cent gain in total jobs. The biggest jump is in financial work, up 162 per cent, with construction second at 160 per cent. Per capita income of $1,530 is under the average.

The Pacific coast states of California, Oregon, and Washington have striking gains: Total jobs up 79 per cent; construction up 196 per cent, manufacturing jobs up 149 per cent; governmental jobs up 142 per cent—all tops for any region. Per capita incomes of $1,950 was second only to the mid Atlantic trio.

So it depends on where you live and what you do—and even so you won't fit "the average" exactly.

Don't pack down nonfat dry milk powder when you are measuring it. Take up the amount wanted lightly and level it off, in spoon or cup, with a spatula or straight-edged knife.

Drive on Traffic Deaths

Albany, N. Y., May 19 (AP)—New York state will join a nationwide drive this summer to reduce the number of deaths and injuries from highway accidents. Gov. Harriman yesterday set the "Slow Down and Live" campaign for the period from Memorial Day to Labor Day. Michael H. H. Prendergast, state safety director, noted that 513 persons were killed in the corresponding three-month period of 1954. He said the state was determined to reduce the toll.

Jealous Teacher Shoots 2, Self

La Jolla, Calif., May 19 (AP)—Four revolver shots fired by a school teacher killed three persons yesterday.

The victims were Richard Vance Mackay, 45, night school civic teacher; his estranged wife, Jane, 29, and Miss Marguerite M. Wood, 27.

Police Sgt. Paul G. Walk said Mackay shot his divorced wife twice with a .38 caliber revolver, then shot Miss Wood, who died 10 hours later. She was a friend of Mrs. Mackay and was staying with her because of the divorcee's fears of her husband.

Mackay, a former New Yorker, was found dead on a curb a block from Mrs. Mackay's apartment where the shooting started. He had shot himself in the head.

WALK SAID Mackay's extreme jealousy of his wife caused the shootings. In March Mrs. Mackay had been granted an interlocutory decree of divorce and a restraining order to keep Mackay away.

Mackay was found in contempt of court May 9 for harassing and annoying his wife and was given a 15-day suspended sentence. He also had been charged with vagrancy for prowling around Mrs. Mackay's residence and was to have appeared in court June 9.

Mrs. Mackay was a daughter of Mr. and Mrs. Elbert Hulse of Riverhead, N. Y. The Mackays moved to La Jolla two years ago from New York.

Steals Concrete Mixer

Dallas, Tex., May 19 (AP)—A man described as "not very bashful" by his victim stole a red concrete mixer yesterday from T. C. Clawson. Clawson said the thief came into his backyard, hitched the big mixer to a battered automobile and made a noisy, clattering escape.

The United States has mined only about 5 per cent of its total coal reserves.

In 1954 there were 2,285,000 gas fired water heaters sold in the United States.

CONCRETE streets are an all-year asset to any city. But you'll appreciate them most when spring "break-ups" have made many streets impassable with mud, ruts, bumps and chuckholes.

Concrete is an *all-season* pavement: easy-riding; skid-resistant, wet or dry; good for decades with little maintenance. No closing for spring repairs!

Concrete not only saves on spring maintenance. It costs *less to build* than other pavements designed for the same traffic. Be sure your streets are paved with safe, economical, long-lasting concrete.

Federal Statistics Often Don't Fit Region Job, Money Picture

New York, May 19 (AP)—It's getting harder to recognize your own home town when you read the national statistics.

Trends in jobs and incomes on a nationwide basis often don't fit your own experience or that of your city or region.

The government says, for instance, that today 61,685,000 Americans have jobs. That's 35 per cent more than in 1939. If you live in some states you know that the increase has been much less than that. If you live in some others—along the Pacific coast, in the industrial midwest or in the Rocky mountain area—you know the national figure understates the gains.

AND IF YOU are a farm worker, you know there are 25 per cent fewer jobs for you today than in 1939. If you're one of the three million out of work, all "prosperity" stories may rub your hair the wrong way.

Government figures for the nation as a whole put annual income at $1,660 per person. That's 208 per cent better than in 1939—but only if you don't take into account what has happened to the purchasing power of the dollar in the last 15 years. If you put today's income in terms of the "1939 dollar", the gain is a more modest one of 53 per cent.

Yet that's for the nation as a whole. In five sections of the land per capita incomes are lower than the national average. In four sections they are higher.

OR TAKE NONFARM jobs. There has been an increase of 59 per cent over-all in the last 15 years. But that doesn't mean that jobs in your particular field are that much more plentiful.

Actually, there are 10 per cent fewer employed in mining than in 1939. But there are 138 per cent more jobs in the construction industry now than then.

Governments at the various levels, as you might suspect, hire 71 per cent more people now than 15 years ago. Trade and service jobs are right on the middle line — each having increased by 59 per cent. Jobs in financial institutions are up 53 per cent and 40 per cent more have work in transportation and utility companies.

Regional differences, as broken down by Dun & Bradstreet, are even more striking.

THE NEW ENGLAND states have seen a 28 per cent rise in total employment, the best gain being 90 per cent in construction—but both are below the national average. Per capita income of $1,785, however, is better than average.

The mid Atlantic states of New York, Pennsylvania and New Jersey show employment up 34 per cent, with construction jobs leading at 106 per cent, and per capita income the highest in the union at $1,975.

The east north central states of Ohio, Indiana, Illinois, Michigan and Wisconsin have a 42 per cent rise in employment, construction jobs up 176 per cent and per capita income $1,880—all topping the national average.

The west north central states of Missouri, Iowa, Minnesota, Kansas, Nebraska, South and North Dakota, had an employment gain of 27 per cent, with construction up the most at 132 per cent and per capita income of $1,525—all three below the national average.

THE SOUTHERN Atlantic coast tier — Maryland, Virginia, West Virginia, North and South Carolina, Georgia and Florida—added 30 per cent more jobs in 15 years, but finance shows the biggest increase with 112 per cent. Per capita income is below average at $1,350.

East south central states of Kentucky, Tennessee, Alabama and Mississippi show the lowest employment gain, 15 per cent. Construction leads at 140 per cent. Per capita income of $1,070 is the lowest for any region, by Dun & Bradstreet's tell.

West south central states—Texas, Louisiana, Arkansas and Oklahoma—see 30 per cent more employed today, with construction again the strongest, up 152 per cent. Per capita incomes are the second lowest at $1,330.

THE ROCKY Mountain tier—New Mexico, Arizona, Nevada, Utah, Colorado, Wyoming, Montana and Idaho—show a 40 per cent gain in total jobs. The biggest jump is in financial work, up 162 per cent, with construction second at 160 per cent. Per capita income of $1,530 is under the average.

The Pacific coast states of California, Oregon, and Washington have striking gains: Total jobs up 79 per cent; construction up 196 per cent, manufacturing jobs up 149 per cent; governmental jobs up 142 per cent—all tops for any region. Per capita incomes of $1,950 was second only to the mid Atlantic trio.

Leftover Roast Pork? Serve These Roll-Ups

With pork supplies abundant you'll probably include roast pork in your menus frequently. When your refrigerator reveals leftover roast pork these Pork Rollups are the perfect serving, says Reba Staggs, home economist. Ground pork is combined with grated carrot, green pepper and onion. Then the mixture is seasoned and rolled up in a tender pastry. The baked rolls are ideally served with creamed peas.

Pork Roll Up—Creamed Peas

2 cups ground cooked pork
¼ cup grated carrot
1 tablespoon grated green pepper or
1 tablespoon chopped parsley
1 tablespoon grated onion
½ teaspoon salt
2 teaspoons soy sauce
¼ cup milk
Pastry

Grease a cooky sheet or large baking pan. Combine ground pork, carrot, green pepper or parsley, onion, salt, soy sauce and milk. Mix well. Spread mixture on Pastry and roll as jelly roll. Cut into 12 rolls about 1 inch thick. Place rolls on cooky sheet and bake in a hot oven (435 degrees F.). 25 minutes, or until pastry is lightly browned. 6 servings.

Serve creamed peas over the rolls, allowing ½ cup for each serving of 2 rolls.

Pastry

1½ cups sifted enriched flour
1 teaspoon salt
½ cup lard
1/3 to ½ cup cold water

Add salt to flour. Cut lard into flour and salt with a fork or pastry blender until the crumbs are about the size of small pears. Add cold water, a little at a time, mixing quickly and evenly through flour with a fork until dough just holds in a ball. Use as little water as possible. Roll pastry into a 12x14 inch rectangle.

Will Use Detector In Cornerstone Hunt

Elmira, N. Y., May 19 (AP)—Elmira College planned to use a mine detector today to solve the mystery of the missing cornerstone of Cowles Hall.

The cornerstone, which contains some cherished historical documents, was laid 100 years ago. Nobody remembers where.

College officials noted, however, that the documents had been placed in a metal box. That's where the mine detector comes in. Properly handled by a military expert, it could pick up the tell-tale metal in the right corner.

The cornerstone contains the charter for the college and one for the village of Elmira. The college, which is celebrating its centennial anniversary, hopes to put them on exhibit during commencement week.

Accident at Sea

Manila, May 19 (AP)—Nine persons are missing in shark infested waters, two are dead and four injured out of 22 aboard a sailing boat rammed and sunk last night by an inter-island steamer. The steamer brought the dead, injured and seven unharmed survivors to Manila. The accident occurred in pitch darkness in the Verde Island passage between Luzon and Mindoro Islands.

Mail Carrier Kissed By 528 Ladies

Long Beach, Calif., May 19 (AP)—The 46th birthday party that the women on mail carrier Joseph Pugliese's route held for him was the most!

Pugliese kissed every one of them—and there are 528 women on the route.

The women lured Pugliese into the Dominguez Community Hall, yesterday but he didn't know the gathering was to honor him. He made the most of the situation, and in addition to the kisses he got a cart on which to tow his mailbag, plus $115 in cash.

Pugliese's wife, Katie, wasn't a bit jealous as the women stood in line to kiss her husband. She was in the line, too.

Pastry

Grease a cooky sheet or large baking pan. Combine ground pork, carrot, green pepper or parsley, onion, salt, soy sauce and milk. Mix well. Spread mixture on Pastry and roll as jelly roll. Cut into 12 rolls about 1 inch thick. Place rolls on cooky sheet and bake in a hot oven (435 degrees F.), 25 minutes, or until pastry is lightly browned. 6 servings.

Serve creamed peas over the rolls, allowing ½ cup for each serving of 2 rolls.

Pastry

1½ cups sifted enriched flour
1 teaspoon salt
½ cup lard
1/3 to ½ cup cold water

Add salt to flour. Cut lard into flour and salt with a fork or pastry blender until the crumbs are about the size of small pears. Add cold water, a little at a time, mixing quickly and evenly through flour with a fork until dough just holds in a ball. Use as little water as possible. Roll pastry into a 12x14 inch rectangle.

Will Use Detector In Cornerstone Hunt

Elmira, N. Y., May 19 (AP)—Elmira College planned to use a mine detector today to solve the mystery of the missing cornerstone of Cowles Hall.

The cornerstone, which contains some cherished historical documents, was laid 100 years ago. Nobody remembers where.

College officials noted, however, that the documents had been placed in a metal box. That's where the mine detector comes in. Properly handled by a military expert, it could pick up the tell-tale metal in the right corner.

The cornerstone contains the charter for the college and one for the village of Elmira. The college, which is celebrating its centennial anniversary, hopes to put them on exhibit during commencement week.

Accident at Sea

Manila, May 19 (AP)—Nine persons are missing in shark infested waters, two are dead and four injured out of 22 aboard a sailing boat rammed and sunk last night by an inter-island steamer. The steamer brought the dead, injured and seven unharmed survivors to Manila. The accident occurred in pitch darkness in the Verde Island passage between Luzon and Mindoro Islands.

Mail Carrier Kissed By 528 Ladies

Long Beach, Calif., May 19 (AP)—The 46th birthday party that the women on mail carrier Joseph Pugliese's route held for him was the most!

Pugliese kissed every one of them—and there are 528 women on the route.

The women lured Pugliese into the Dominguez Community Hall, yesterday but he didn't know the gathering was to honor him. He made the most of the situation, and in addition to the kisses he got a cart on which to tow his mailbag, plus $115 in cash.

Pugliese's wife, Katie, wasn't a bit jealous as the women stood in line to kiss her husband. She was in the line, too.

Mother Is Held For Tying Babes Alone 15 Hours

New York, May 19 (AP)—Acting on an anonymous telephone tip, police broke into a one-room flat on West 91st street early today and this is what they found:

Four small children, ranging from six months to three years, with the two oldest tied to their cribs with ribbons.

All of the children were virtually naked. They were dirty and crying.

In the adjoining hallway of the tenement a fearful stench arose from uncovered garbage cans. Three large rats scurried about.

FIVE AND a half hours after detectives entered the flat at 12:30 a. m., the children's mother appeared. The officers said the woman, identified as Mrs. Candidad Concepcion, 19, a native of Puerto Rico, had been away for 15 hours.

She told the police that she had wed at the age of 13, but was separated from her husband, Victor, a plastics worker.

ASKED WHY she had left the children alone, she said she had gone out to look for new lodgings. She told the detectives:

"The welfare investigator said I could leave them when I went out to look for a new place."

She said she gets $98 a month in welfare benefits, plus $20 weekly from her estranged husband.

SHE ADMITTED she tied the feet of one of the children, Victor, 2, to the crib and gave the explanation that "he is crazy."

A doctor examined Victor and the other children, Rosa, 3; Manuel, 1½, and Norman, six months. The doctor said Norman was suffering from a slight cold but otherwise all seemed well.

The mother was put under arrest on an abandonment charge.

Escaped Prisoner Is Recaptured

Liberty, N. Y., May 19 (AP)—A handcuffed prisoner was captured seven miles from here yesterday after escaping from authorities and eluding a posse of 200 police for about 24 hours.

Melvin Faison, 28, a Negro, had been arrested Tuesday on a charge of burglarizing rooming houses in this resort area.

He was being driven to nearby Mountaindale, where some of the burglaries occurred. In the car were two state troopers, a Fallsburgh policeman and Sullivan county Deputy Sheriff Laverne Boyer.

The troopers and the policeman left the car to make a telephone call. When Boyer glanced away to light a cigarette, Faison leaped from the auto and dashed into adjacent woods. Several shots fired by Boyer went wild.

Yesterday Faison was spotted standing in a field. He surrendered meekly to Fallsburgh Police Chief Carl Caplan and auxiliary Policeman Harold Pantel.

Able to Sit Up

Rome, May 19 (AP)—Rep. Dan Reed sat up in a chair today for the first time since suffering a heart attack April 17. His wife, who flew to Rome four days later to be with him, said the 79-year-old New York Republican is "feeling much better." "He's gaining strength slowly," Mrs. Reed reported, "but it has to be a slow process."

Synagogue News

TEMPLE EMANUEL, Rabbi Herbert I. Bloom, Ph.D.—Regular meeting of Men's Club tonight at 8:30 in the social hall at Temple Emanuel. Services will be held tomorrow at 7:45 p. m. at Temple Emanuel. Rabbi Bloom will preach on the theme, "Being Counted in the Wilderness." Music will be under the direction of Cantor Julian Lohre. Mrs. Leon Gray will be hostess for the Oneg Shabbat to be held after the services. The public is cordially invited to attend. The older pupils of the religious school will visit New York city Sunday and will visit the Jewish Museum, the Spanish-Portuguese Synagogue. The younger grades will have a picnic at Forsyth Park Sunday to mark the closing of religious school. The couples Club will meet Sunday at 8 p. m. in the social hall. The confirmation class will meet Tuesday at 7 p. m. at Rabbi Bloom's home. Hebrew school will be held as usual Wednesday and Friday after school. Shovous service and confirmation will take place Thursday, May 26, at 7:45 p. m. Rabbi Bloom will preach on theme, "From Sinai to Cincinnati." A reception will follow, tendered by the parents of the confirmands. There will be a Sabbath service the following night, Friday, as usual.

SHOVOUS observance, a major Jewish festival, known as Hebrew for Weeks, begins at sundown May 26. Ordained in scriptures as a time to give thanks for the beginning of the summer harvest, the holiday's name is derived from the fact that it occurs seven weeks after Passover, the beginning of spring. The holiday also is known as the Festival of the First Fruits and Pentecost, a reference to the 50-day interval between Pasover and Pentecost.

Shovuos is celebrated in synagogues with special prayers, songs and sermons glorifying devine graciousness in the bestowal of summer's glories.

Lighting Program

effective May 27. McMahon stated his resignation was submitted to enable him to accept other employment.

Approved action of City Engineer Arthur Hallinan in employing Max Aduchefsky, 89 North Front street, as engineering aide at an annual salary of $2,620.

Referred to the city engineer a communication from Curtis and Warren, attorneys, requesting a revision of the lease under which Knaust Brothers, Inc., hold one of its two caves in the city. It was pointed out that the cave, for which an annual rental of about $500 is paid, is not now used because its entrance is blocked by rubble and fallen rock. The firm desires to cut a new entrance from the cave which lies to the north, at an estimated cost of from $25,000 to $30,000. Such an expenditure, the attorneys said, would be impractical unless the firm could be assured of having the use of the cave for 20 or 25 years.

APPROVED. the city engineer's report that a deed for a 50-foot strip of land known as Jervis avenue, as offered to the city by C. B. O'Reilly, Inc., was "as described" and with no encroachments, and referred the deed to the Corporation Counsel.

Took action to make permanent the appointments of the following motor equipment operators whose probationary periods have expired: Edward Geschwinder, Donald Brown, Fred Stratton, Thomas Kearney, Francis Long, Silas Ellsworth, Ken DuBois, Harold Lindhurst, Richard Cantwell, Frederick Tierney, Raymond Brundage, William P. Washington and Joseph Horvers.

AWARDED concession rights to Forsyth Park to Mrs. C. Rifenburg, 121 Fairview avenue, on her bid of $40, and to Block Park to John Maley on his bid of $45, for the 1955 season. Those were the only bids received on those parks, and no bid was received for the Hasbrouck Concession.

A bid received for the concession at the municipal stadium was referred to the Common Council.

ONE BID, from the Lansdell Company, was received for the furnishing of liquid bituminous material for the city. The price was listed per gallon for various grades of material.

The board also approved payment of $8,658.15 to James Berardi, contractor, for work completed on the combined sewer on Jansen avenue.

Present at the meeting, with President Stang and Commissioner Whitbeck, were Commissioners Kenneth Hyatt and David Schecter.

Benefits Pointed In Heart Classes

The Heart of the Home classes, which started May 10 and are being offered free by the Heart Chapter of the Ulster County TB & Health Association, have been reported as very successful. Mrs. Albert Kurdt, instructor, said that the classes for the home-maker (Heart of the Home) have been beneficial to several of the members already. At Tuesday's class, where posture and work saving tecnniques in the kitchen were discussed and demonstrated, it was pointed out that prevention of overwork and illness is of prime importance.

The present class includes women with some form of heart trouble, recovered TB patients, and several observers, who are interested in the work saving techniques as a preventive measure.

NEXT TUESDAY, May 24, the class will be held at the home of Mrs. Vincent Connelly, 142 Pearl street, from 1:30 to 3:30 p. m. This class will cover the subject of easier bedmaking and work-saving techniques while cleaning.

Through the cooperation of the rehabilitation department provided by the Ulster County TB & Health Association at the Ulster County TB Hospital announced that in conjunction with the Heart of the Home classes the TB patients have volunteered to construct the cupboard storage devices that should eliminate unnecessary reaching, bending, and handling of supplies. At present Mrs. Kurdt has been demonstrating better use of storage space with shelves belonging to the Ulster County Home Bureau.

Because of the number of applicants, plans are now being formulated to begin another free class in the near future. At present the Heart Chapter has 15 women interested in the next course and will welcome any homemaker who would like to learn about these heart saving techniques. Further information may be obtained by writing Heart Chapter, Ulster County TB & Health Association, 74 John street.

CUB SCOUT PACK 16 of Marbletown was host to the Rip Van Winkle Council Round Table Monday night, May 16. The program was the Cub Scout June theme, "Wheel, Wings, and Things." The Pack 16 Committee served refreshments and Den 1 furnished a color guard which was under the leadership of Cubmaster Jay Sauers and Den Mother Edith Van Aken. Cub Scout Pack 16 of Marbletown is now making plans to hold a Soap Box Derby Tuesday, June 28.

The regular monthly meeting of Cub Scout Pack 16 will be held Tuesday, May 24 at 8 p. m., at the Marbletown Central School. The program this month is to be an evening of movies, courtesy of the Stewart Ice Cream Company. They will also furnish ice cream. Last month the cubs held a three-ring circus with each den doing an act in one of the three rings. There was a tightrope walker, acrobats and lion taming. Also there was an extensive side show which included the bearded lady, a snake charmer and many other fascinating features. This program was under the leadership of Al Mastin of Stone Ridge with the assistance of the Den Mothers. Den 2 of High Falls furnished the refreshments. Many achievement awards were won by the cub scouts and were awarded by Assistant Cub Master Ray Gallagher.

To Leave Hospital

Manhasset, N. Y., May 19 (AP)—Mrs. Theodore Roosevelt Jr., widow of Brig. Gen. Roosevelt who died of an illness on the Normandy beachhead in World War 2, plans to return to her Oyster Bay home today from North Shore Hospital. Mrs. Roosevelt entered the hospital last Saturday for a medical checkup, a procedure she has followed on occasion for some years. She is a daughter-in-law of the late President Theodore Roosevelt.

Loan Officials Attend Meeting

The semi-annual meeting of the Capital District League of Savings and Loan Associations was attended Wednesday by John B. Sterley, vice president; Deweese W. DeWitt, executive secretary and William F. Paulus, auditor, of the Home-Seekers Savings and Loan Association. There was a large attendance of managers, officers, and directors representing savings and loan associations in the Albany-Troy-Schenectady area at the meeting which was held at the Mohonk Country Club at Schenectady.

The afternoon session consisted of a panel discussion led by four executive officers representing a cross-section of the savings and loan field. Among the topics discussed were practical methods of discouraging loan defaults, open-end mortgages, forces contributing toward the growth of Savings Associations and effects and benefits of the IBM System of Accounting.

THE AFTER-DINNER program was highlighted by an address by Floyd Kramer, president of the Washington Heights Federal Savings and Loan Association of New York. Mr. Kramer stressed the importance of employes and officers having faith in the savings and loan industry and the necessity of orientating themselves to today's conditions instead of operating as they did 30 years ago. He also emphasized that good employe relationship was a necessary foundation for successful operations and that if an association had a long waiting list of applicants for positions it had one of the best advertisements available.

Also attending the meeting was Earl Taylor of the New York State Banking Department who met with the Home-Seekers officers for a preliminary discussion of plans for the new office of Home-Seekers to be located at 235 Fair street. Mr. Tayor said he has a busy schedule for approving plans which is an indication of the tremendous growth taking place in the Savings and Loan business.

Disarmament Group Recesses Two Weeks

London, May 19 (AP)—The five-power UN disarmament subcommittee began a two-week recess today. The five delegations —the United States, the Soviet Union, Britain, France and Canada— now will assess individually progress made and issues still dividing the west and the Russians.

Adjourning after 12 weeks of talks here, the group announced yesterday it would meet again June 1. Western officials said New York would be the site.

U. S. Delegate James J. Wadsworth said in a statement last night that "to a measurable degree the gaps between us seem to have been lessened." But he added:

"Much remains to be done. In doing it, one of our major jobs will be to provide a really effective system of safeguards, to make sure that both nuclear and conventional disarmament is being carried out."

Five Planes Search For Missing Craft

Nairobi, Kenya, May 19 (AP)—Five British air force bombers searched wild bush country today for an East African Airways Dakota missing with 20 people aboard.

A search aircraft last night reported sighting a flashing light near snow-capped Mt. Kilimanjaro, 125 miles from Nairobi. An all-night search by civil and military aircraft brought no trace of the missing plane.

The two-engine aircraft was flying with 16 passengers and a crew of four from Dar-Es-Salaam to Nairobi, on the last lap of a flight from Durban, South Africa. Two Londoners were reported aboard.

Art League Gives Two Scholarships Again This Year

Two scholarships will be awarded to members of the graduating class of Kingston High School for study this summer in the Woodstock School of the Art Student's League, it was announced today by legal counsel representing the League.

The scholarships, first offered last year, are known as The Mayor of the City of Kingston's Art Student's League of New York Scholarships.

ANNOUNCEMENT of the 1955 scholarships came in a letter received this morning by Mayor Frederick H. Stang from Martin J. Sand, New York attorney.

The letter expressed gratitude to the mayor and the city of Kingston for "interest and cooperation in the League's educational activities in the Kingston area."

SAND POINTED out that the scholarships were being offered "as a continuing gesture of friendliness and good will and to encourage the talented young people of Kingston." The scholarships will be awarded by Mayor Stang.

Sand said last year's scholarship winners, Barbara Hastic and Elizabeth Nussbaum, both Kingston High School graduates had "displayed unusual artistic talent and made exceptional progress in their studies at the League. The League is pleased to be able to help foster and develop such young talent."

Escaped Prisoner Is Recaptured

Liberty, N. Y., May 19 (AP)—A handcuffed prisoner was captured seven miles from here yesterday after escaping from authorities and eluding a posse of 200 police for about 24 hours.

Melvin Faison, 28, a Negro, had been arrested Tuesday on a charge of burglarizing rooming houses in this resort area.

He was being driven to nearby Mountaindale, where some of the burglaries occurred. In the car were two state troopers, a Fallsburgh policeman and Sullivan county Deputy Sheriff Laverne Boyer.

The troopers and the policeman left the car to make a telephone call. When Boyer glanced away to light a cigarette, Faison leaped from the auto and dashed into adjacent woods. Several shots fired by Boyer went wild.

Yesterday Faison was spotted standing in a field. He surrendered meekly to Fallsburgh Police Chief Carl Caplan and auxiliary Policeman Harold Pantel.

Able to Sit Up

Rome, May 19 (AP)—Rep. Dan Reed sat up in a chair today for the first time since suffering a heart attack April 17. His wife, who flew to Rome four days later to be with him, said the 79-year-old New York Republican is "feeling much better." "He's gaining strength slowly," Mrs. Reed reported, "but it has to be a slow process."

Price Correction

Due to an error in Wednesday's advertisement, the price of rayon panties at Grant's, 303 Wall street, should be 77 cents.

Synagogue News

TEMPLE EMANUEL, Rabbi Herbert I. Bloom, Ph.D.—Regular meeting of Men's Club tonight at 8:30 in the social hall at Temple Emanuel. Services will be held tomorrow at 7:45 p. m. at Temple Emanuel. Rabbi Bloom will preach on the theme, "Being Counted in the Wilderness." Music will be under the direction of Cantor Julian Lohre. Mrs. Leon Gray will be hostess for the Oneg Shabbat to be held after the services. The public is cordially invited to attend. The older pupils of the religious school will visit New York city Sunday and will visit the Jewish Museum, the Spanish-Portuguese Synagogue. The younger grades will have a picnic at Forsyth Park Sunday to mark the closing of religious school. The couples Club will meet Sunday at 8 p. m. in the social hall. The confirmation class will meet Tuesday at 7 p. m. at Rabbi Bloom's home. Hebrew school will be held as usual Wednesday and Friday after school. Shovous service and confirmation will take place Thursday, May 26, at 7:45 p. m. Rabbi Bloom will preach on theme, "From Sinai to Cincinnati." A reception will follow, tendered by the parents of the confirmands. There will be a Sabbath service the following night, Friday, as usual.

SHOVOUS observance, a major Jewish festival, known as Hebrew for Weeks, begins at sundown May 26. Ordained in scriptures as a time to give thanks for the beginning of the summer harvest, the holiday's name is derived from the fact that it occurs seven weeks after Passover, the beginning of spring. The holiday also is known as the Festival of the First Fruits and Pentecost, a reference to the 50-day interval between Pasover and Pentecost.

Shovuos is celebrated in synagogues with special prayers, songs and sermons glorifying devine graciousness in the bestowal of summer's glories.

Lighting Program

effective May 27. McMahon stated his resignation was submitted to enable him to accept other employment.

Approved action of City Engineer Arthur Hallinan in employing Max Aduchefsky, 89 North Front street, as engineering aide at an annual salary of $2,620.

Referred to the city engineer a communication from Curtis and Warren, attorneys, requesting a revision of the lease under which Knaust Brothers, Inc., hold one of its two caves in the city. It was pointed out that the cave, for which an annual rental of about $500 is paid, is not now used because its entrance is blocked by rubble and fallen rock. The firm desires to cut a new entrance from the cave which lies to the north, at an estimated cost of from $25,000 to $30,000. Such an expenditure, the attorneys said, would be impractical unless the firm could be assurred of having the use of the cave for 20 or 25 years.

APPROVED, the city engineer's report that a deed for a 50-foot strip of land known as Jervis avenue, as offered to the city by C. B. O'Reilly, Inc., was "as described" and with no encroachments, and referred the deed to the Corporation Counsel.

Took action to make permanent the appointments of the following motor equipment operators whose probationary periods have expired: Edward Geschwinder, Donald Brown, Fred Stratton, Thomas Kearney, Francis Long, Silas Ellsworth, Ken DuBois, Harold Lindhurst, Richard Cantwell, Frederick Tierney, Raymond Brundage, William P. Washington and Joseph Horvers.

AWARDED concession rights to Forsyth Park to Mrs. C. Rifenburg, 121 Fairview avenue, on her bid of $40, and to Block Park to John Maley on his bid of $45, for the 1955 season. Those were the only bids received on those parks, and no bid was received for the Hasbrouck Concession.

A bid received for the concession at the municipal stadium was referred to the Common Council.

ONE BID, from the Lansdell Company, was received for the furnishing of liquid bituminous material for the city. The price was listed per gallon for various grades of material.

The board also approved payment of $8,658.15 to James Berardi, contractor, for work completed on the combined sewer on Jansen avenue.

Present at the meeting, with President Stang and Commissioner Whitbeck, were Commissioners Kenneth Hyatt and David Schecter.

Benefits Pointed In Heart Classes

The Heart of the Home classes, which started May 10 and are being offered free by the Heart Chapter of the Ulster County TB & Health Association, have been reported as very successful. Mrs. Albert Kurdt, instructor, said that the classes for the home-maker (Heart of the Home) have been beneficial to several of the members already. At Tuesday's class, where posture and work saving tecniques in the kitchen were discussed and demonstrated, it was pointed out that prevention of overwork and illness is of prime importance.

The present class includes women with some form of heart trouble, recovered TB patients, and several observers, who are interested in the work saving techniques as a preventive measure.

NEXT TUESDAY, May 24, the class will be held at the home of Mrs. Vincent Connelly, 142 Pearl street, from 1:30 to 3:30 p. m. This class will cover the subject of easier bedmaking and work-saving techniques while cleaning.

Through the cooperation of the rehabilitation department provided by the Ulster County TB & Health Association at the Ulster County TB Hospital announced that in conjunction with the Heart of the Home classes the TB patients have volunteered to construct the cupboard storage devices that should eliminate unnecessary reaching, bending, and handling of supplies. At present Mrs. Kurdt has been demonstrating better use of storage space with shelves belonging to the Ulster County Home Bureau.

Because of the number of applicants, plans are now being formulated to begin another free class in the near future. At present the Heart Chapter has 15 women interested in the next course and will welcome any homemaker who would like to learn about these heart saving techniques. Further information may be obtained by writing Heart Chapter, Ulster County TB & Health Association, 74 John street.

Boy Scout News

CUB SCOUT PACK 16 of Marbletown was host to the Rip Van Winkle Council Round Table Monday night, May 16. The program was the Cub Scout June theme, "Wheel, Wings, and Things." The Pack 16 Committee served refreshments and Den 1 furnished a color guard which was under the leadership of Cubmaster Jay Sauers and Den Mother Edith Van Aken. Cub Scout Pack 16 of Marbletown is now making plans to hold a Soap Box Derby Tuesday, June 28.

The regular monthly meeting of Cub Scout Pack 16 will be held Tuesday, May 24 at 8 p. m., at the Marbletown Central School. The program this month is to be an evening of movies, courtesy of the Stewart Ice Cream Company. They will also furnish ice cream. Last month the cubs held a three-ring circus with each den doing an act in one of the three rings. There was a tightrope walker, acrobats and lion taming. Also there was an extensive side show which included the bearded lady, a snake charmer and many other fascinating features. This program was under the leadership of Al Mastin of Stone Ridge with the assistance of the Den Mothers. Den 2 of High Falls furnished the refreshments. Many achievement awards were won by the cub scouts and were awarded by Assistant Cub Master Ray Gallagher.

To Leave Hospital

Manhasset, N. Y., May 19 (AP)—Mrs. Theodore Roosevelt Jr., widow of Brig. Gen. Roosevelt who died of an illness on the Normandy beachhead in World War 2, plans to return to her Oyster Bay home today from North Shore Hospital. Mrs. Roosevelt entered the hospital last Saturday for a medical checkup, a procedure she has followed on occasion for some years. She is a daughter-in-law of the late President Theodore Roosevelt.

Loan Officials Attend Meeting

The semi-annual meeting of the Capital District League of Savings and Loan Associations was attended Wednesday by John B. Sterley, vice president; Deweese W. DeWitt, executive secretary and William F. Paulus, auditor, of the Home-Seekers Savings and Loan Association. There was a large attendance of managers, officers, and directors representing savings and loan associations in the Albany-Troy-Schenectady area at the meeting which was held at the Mohonk Country Club at Schenectady.

The afternoon session consisted of a panel discussion led by four executive officers representing a cross-section of the savings and loan field. Among the topics discussed were practical methods of discouraging loan defaults, open-end mortgages, forces contributing toward the growth of Savings Associations and effects and benefits of the IBM System of Accounting.

THE AFTER-DINNER program was highlighted by an address by Floyd Kramer, president of the Washington Heights Federal Savings and Loan Association of New York. Mr. Kramer stressed the importance of employes and officers having faith in the savings and loan industry and the necessity of orientating themselves to today's conditions instead of operating as they did 30 years ago. He also emphasized that good employe relationship was a necessary foundation for successful operations and that if an association had a long waiting list of applicants for positions it had one of the best advertisements available.

Also attending the meeting was Earl Taylor of the New York State Banking Department who met with the Home-Seekers officers for a preliminary discussion of plans for the new office of Home-Seekers to be located at 235 Fair street. Mr. Tayor said he has a busy schedule for approving plans which is an indication of the tremendous growth taking place in the Savings and Loan business.

Disarmament Group Recesses Two Weeks

London, May 19 (AP)—The five-power UN disarmament subcommittee began a two-week recess today. The five delegations—the United States, the Soviet Union, Britain, France and Canada— now will assess individually progress made and issues still dividing the west and the Russians.

Adjourning after 12 weeks of talks here, the group announced yesterday it would meet again June 1. Western officials said New York would be the site.

U. S. Delegate James J. Wadsworth said in a statement last night that "to a measurable degree the gaps between us seem to have been lessened." But he added:

"Much remains to be done. In doing it, one of our major jobs will be to provide a really effective system of safeguards, to make sure that both nuclear and conventional disarmament is being carried out."

Five Planes Search For Missing Craft

Nairobi, Kenya, May 19 (AP)—Five British air force bombers searched wild bush country today for an East African Airways Dakota missing with 20 people aboard.

A search aircraft last night reported sighting a flashing light near snow-capped Mt. Kilimanjaro, 125 miles from Nairobi. An all-night search by civil and military aircraft brought no trace of the missing plane.

The two-engine aircraft was flying with 16 passengers and a crew of four from Dar-Es-Salaam to Nairobi, on the last lap of a flight from Durban, South Africa. Two Londoners were reported aboard.

Art League Gives Two Scholarships Again This Year

Two scholarships will be awarded to members of the graduating class of Kingston High School for study this summer in the Woodstock School of the Art Student's League, it was announced today by legal counsel representing the League.

The scholarships, first offered last year, are known as The Mayor of the City of Kingston's Art Student's League of New York Scholarships.

ANNOUNCEMENT of the 1955 scholarships came in a letter received this morning by Mayor Frederick H. Stang from Martin J. Sand, New York attorney.

The letter expressed gratitude to the mayor and the city of Kingston for "interest and cooperation in the League's educational activities in the Kingston area."

SAND POINTED out that the scholarships were being offered "as a continuing gesture of friendliness and good will and to encourage the talented young people of Kingston." The scholarships will be awarded by Mayor Stang.

Sand said last year's scholarship winners, Barbara Hastic and Elizabeth Nussbaum, both Kingston High School graduates had "displayed unusual artistic talent and made exceptional progress in their studies at the League. The League is pleased to be able to help foster and develop such young talent."

Gill-Curran Wedding Is Held

Miss Eleanor Gill and William J. Curran were married Saturday, May 7, at 1:30 p. m., at Immaculate Conception Church. The double ring ceremony was performed by the Rev. Joseph Sieczek, pastor.

The bride is the daughter of Mr. and Mrs. Anthony Gill, 437 Delaware avenue. The bridegroom is the son of Mr. and Mrs. Charles Orbon, 140 Union street, Poughkeepsie.

Given in marriage by her father, the bride wore a gown of rose point lace over bridal satin, styled in princess fashion with a molded bodice, long tapered sleeves and a portrait neckline. Her bouffant skirt of nylon tulle paneled with lace terminated in a cathedral length train. She wore a matching bridal cap, seed pearl and sequin trimmed, to which was attached her three-quarter French illusion veil, and carried a bouquet of white roses and carnations with lacelon and ivy.

The maid of honor, Miss Veronica Burns, 148 Murray street, wore a gown of coral colored nlyon tulle, fashioned with a fitted bodice and bouffant floor length skirt. Bodice and skirt were embroidered with Venise lace medallions studded with rhinestones and silver nail heads. A sleeved fichu of tulle and a matching lattice Juliet cap completed her ensemble. She carried a bouquet of aqua carnations with lacelon and ivy.

The bridesmaids were Miss Barbara Curran, of Poughkeepsie, a sister of the groom, Miss Esther DuBois, 16 Murray street, Miss Marion Raskoskie, 140 Murray street, and Miss Joan Clancy, 51 Third avenue. Their gowns were identical in style to the honor attendant's in pale turquoise. They wore bands of stylized flowers with rhinestone studded afternoon veils. They carried bouquets of coral carnations with lacelon and ivy.

The best man was Vincent Stelmach of Poughkeepsie and the ushers were Robert Bowe of Stattsburg, Edward Sablinski of Cold Springs, John Welinski of Poughkeepsie and John Howell of Cold Springs.

For a wedding trip to Canada, the bride wore a navy blue suit and navy and white accessories with white orchids.

The organist was Miss Theresa Gehringer, and the soloist, Barbara Bruck, sang, "Ave Maria," and "Panis Angelicus."

A reception for 250 guests was held at the White Eagle Hall.

Mr. and Mrs. Curran will make their home at 437 Delaware avenue.

The bride is a graduate of Kingston High School and is employed by the Metropolitan Life Insurance Company.

The bridegroom is a graduate of Poughkeepsie High School, and is employed by IBM. He is a member of the USN Reserves.

SURIN
an Original Contribution to
RELIEF OF RHEUMATIC-ARTHRITIC PAIN*
*No cure or treatment — SURIN brings fast, comforting temporary pain relief!
DON'T TAKE OUR WORD FOR IT — but rely on the published medical report on SURIN, which *proves* its effectiveness in relieving arthritic-rheumatic pain! SURIN was tested for months by doctors in a famous clinic . . . tested on chronic rheumatic patients with these significant results.
DOCTORS FOUND — that when SURIN is applied at the point of pain, its unique ingredient, *acetyl beta methyl choline* penetrates quickly, deeply to step up the action of the analgesic drug in 3 out of 4 cases . . . speeding pain relief in minutes! Clinicians who tested it stated that with an increased period of temporary relief at point of pain, patients often experience increased freedom of joint movement. This is the substance of solid facts published in a medical journal.
SURIN IS SWIFT—DIRECT! No matter how long you've suffered arthritic-rheumatic pains, do try SURIN! It works without stomach upsets which can be caused by internal dosing...you just smooth on SURIN at the point of pain...because it starts to act as fast as you apply it...bringing relief in minutes!
A NEW KIND OF CREAM OINTMENT! Don't expect SURIN to look or act like other "rub-on—rub-in" salves or liniments. It is not harsh or blistering. SURIN gives the skin a pleasant, mild, cooling sensation to overcome the local heat caused by congestion. SURIN is pure white — pleasant to use — goes on smoothly, washes off quickly and is harmless to clothing!
BLESSED RELIEF OR COSTS NOTHING! Get a jar of SURIN today. Get blessed relief in minutes—or druggist must refund money — no questions asked.

Mrs. Smith Feted At Stork Shower

A stork shower was given Friday, May 13, for Mrs. Joseph C. Smith of 23 Van Gaasbeck street, by Mrs. James L. Longendyke and Mrs. Lauren Van Valkenburgh at the latter's home, 12 Lincoln street.

Mrs. Smith is a native of Panama City, Republic of Panama where she met her husband while he was serving in the U. S. Navy. Mr. Smith, who is a nephew of Mrs. Van Valkenburgh, was recently discharged after four years service. The Smiths plan to make their permanent home in Kingston.

Among the guests were the Mmes. Joseph J. Badalamenti, James M. Longendyke Sr., L. Tomaszewski and William H. Lumbert.

Last Dateline

Bells Cross Roads, Va. (AP)—You won't be seeing this dateline again. The postoffice is closed, the sign, "Post Office, Bell's X Roads," removed. The closing marked the end of 65 years service by "Uncle Johnny" and "Aunt Kate" Richardson. "Aunt Kate" retired in 1940 after 30 years service and her husband took over, but she remained as his assistant. The post office served 40 customers. Hereafter mail will go to Louisa.

Gill-Curran Wedding Is Held

Miss Eleanor Gill and William J. Curran were married Saturday, May 7, at 1:30 p. m., at Immaculate Conception Church. The double ring ceremony was performed by the Rev. Joseph Sieczek, pastor.

The bride is the daughter of Mr. and Mrs. Anthony Gill, 437 Delaware avenue. The bridegroom is the son of Mr. and Mrs. Charles Orbon, 140 Union street, Poughkeepsie.

Given in marriage by her father, the bride wore a gown of rose point lace over bridal satin, styled in princess fashion with a molded bodice, long tapered sleeves and a portrait neckline. Her bouffant skirt of nylon tulle paneled with lace terminated in a cathedral length train. She wore a matching bridal cap, seed pearl and sequin trimmed, to which was attached her three-quarter French illusion veil, and carried a bouquet of white roses and carnations with lacelon and ivy.

The maid of honor, Miss Veronica Burns, 148 Murray street, wore a gown of coral colored nlyon tulle, fashioned with a fitted bodice and bouffant floor length skirt. Bodice and skirt were embroidered with Venise lace medallions studded with rhinestones and silver nail heads. A sleeved fichu of tulle and a matching lattice Juliet cap completed her ensemble. She carried a bouquet of aqua carnations with lacelon and ivy.

The bridesmaids were Miss Barbara Curran, of Poughkeepsie, a sister of the groom, Miss Esther DuBois, 16 Murray street, Miss Marion Raskoskie, 140 Murray street, and Miss Joan Clancy, 51 Third avenue. Their gowns were identical in style to the honor attendant's in pale turquoise. They wore bands of stylized flowers with rhinestone studded afternoon veils. They carried bouquets of coral carnations with lacelon and ivy.

The best man was Vincent Stelmach of Poughkeepsie and the ushers were Robert Bowe of Stattsburg, Edward Sablinski of Cold Springs, John Welinski of Poughkeepsie and John Howell of Cold Springs.

For a wedding trip to Canada, the bride wore a navy blue suit and navy and white accessories with white orchids.

The organist was Miss Theresa Gehringer, and the soloist, Barbara Bruck, sang, "Ave Maria," and "Panis Angelicus."

A reception for 250 guests was held at the White Eagle Hall.

Mr. and Mrs. Curran will make their home at 437 Delaware avenue.

The bride is a graduate of Kingston High School and is employed by the Metropolitan Life Insurance Company.

The bridegroom is a graduate of Poughkeepsie High School, and is employed by IBM. He is a member of the USN Reserves.

Wallkill

Mrs. Richards New Director at Wendy

Wallkill, May 19—Mrs. George A. Richards will be the new camp director at Camp Wendy, Wallkill, this summer.

SURIN
an Original Contribution to
RELIEF OF RHEUMATIC-ARTHRITIC PAIN*
*No cure or treatment — SURIN brings fast, comforting temporary pain relief!
DON'T TAKE OUR WORD FOR IT — but rely on the published medical report on SURIN, which *proves* its effectiveness in relieving arthritic-rheumatic pain! SURIN was tested for months by doctors in a famous clinic . . . tested on chronic rheumatic patients with these significant results.
DOCTORS FOUND — that when SURIN is applied at the point of pain, its unique ingredient, *acetyl beta methyl choline* penetrates quickly, deeply to step up the action of the analgesic drug in 3 out of 4 cases . . . speeding pain relief in minutes! Clinicians who tested it stated that with an increased period of temporary relief at point of pain, patients often experience increased freedom of joint movement. This is the substance of solid facts published in a medical journal.
SURIN IS SWIFT — DIRECT! No matter how long you've suffered arthritic-rheumatic pains, do try SURIN! It works without stomach upsets which can be caused by internal dosing . . . you just smooth on SURIN at the point of pain . . . because it starts to act as fast as you apply it . . . bringing relief in minutes!
A NEW KIND OF CREAM OINTMENT! Don't expect SURIN to look or act like other "rub-on – rub-in" salves or liniments. It is not harsh or blistering. SURIN gives the skin a pleasant, mild, cooling sensation to overcome the local heat caused by congestion. SURIN is pure white – pleasant to use – goes on smoothly, washes off quickly and is harmless to clothing!
BLESSED RELIEF OR COSTS NOTHING! Get a jar of SURIN today. Get blessed relief in minutes – or druggist must refund money – no questions asked.

KEEPING AN APPOINTMENT

A reader writes me as follows: "The other afternoon two friends of mine, whom I had not seen for a long time, came to pay me a visit. They came at two-thirty and I thought they would surely be gone by four at which time I had a dentist appointment, but they stayed on and on until it was too late for me to keep my appointment. When my husband asked me that evening if I had gone to the dentist I told him that I had company all afternoon and could not get away. Whereupon he said, 'Why didn't you tell them you had to go to the dentist.' I think this would have been very rude and much the same as asking them to go home. What do you have to say about this?"

I agree with your husband. It certainly would not have been rude to explain to your visitors that you were very sorry but you had an appointment you would have to wait weeks for another.

Table Setting Question

Dear Mrs. Post: When setting a table, is it necessary to place all the flat silver that will be needed during the meal on the table—including the dessert implements? A friend of mine tells me that the dessert implements should not be included in the table setting and that correctly they are brought in with the dessert. I am referring to a house without service.

Answer: In a formally run house the dessert implements are brought in with the dessert course. In a house without service, it is more practical to place them above each place plate when the table is set.

Must She Remove Her Hat?

Dear Mrs. Post: Will you please tell me if it is necessary for a woman to remove her hat in the theatre even if she is not asked to do so?

Answer: If it is a big hat or in any way obstructing to the view of the person behind you, it would be lacking in good manners not to remove it.

* * *

Is it good manners to cut a leafy salad with a knife? Mrs. Post is sorry she cannot answer personal mail. Her leaflet E-19, "Table Rules of Importance," answers this and many other questions on table manners. To obtain a copy, send 10 cents in coin to Dept. EP, in care of The Kingston Daily Freeman, P. Wallkill Student Awarded Top FFA Prize at Meeting

Roy T. Denniston, a student at Wallkill Central School, won three honors during the state convention of the Future Farmers of America last week at Baldwinsville Central School, near Syracuse.

Mr. Denniston was presented the FFA's top award, the title Star Dairy Farmer of New York state. The Empire Farmer Degree and the Holstein-Friesian awards also were given to the Wallkill senior. He was one of four boys in the state to receive the Holstein-Friesian honor.

The agricultural student, son of Mr. and Mrs. Roy F. Denniston of New Hurley, plans to enter Cornell University next fall for a two-year course in animal husbandry.

He is a member of the state 4-H dairy judging team, is grand champion cattle judge of Orange and Ulster counties, president of the Orange - Rockland - Sullivan Group of the FFA, and has taken first place in many cattle showmanship contests.

Another Wallkill Central School FFA Chapter member, Rodney Gregg, was the recipient of the Empire Farmer Degree at the convention.

BROWNIE TROOP NO. 63 of St. Mary's had as its guests Tuesday, Major Richard F. Rice, his wife and daughter Betty, who arrived in this country this month after a three-year tour of duty in Germany. Shown are (l-r) Patricia Golden (with scout flag), Mrs. Richard Rice, Mrs. Frank Graney, scout leader; Major Rice and Catherine Sweeney. Major Rice Visits Brownie Troop at St. Mary's School

Major Richard F. Rice, who arrived in this country May 15 after a three-year tour of duty in Germany, visited Brownie Troop No. 63 of St. Mary's May 17. Mrs. Rice and daughter, Betty, who arrived with the major, were also guests of the troop.

Major Rice said he remembers the occasion 26 years ago when he had been sworn in the Boy Scouts in the very same school.

"In these busy times we grown-ups often lose our smile," he said, "and it's a job to find, but you Brownies are fortunate in that if you forget your smile, all you have to do is reach in your pocket, take it out and put it on."

Mrs. Rice, who was a Brownie leader in Germany, pointed out the advantages the Brownies have in a good meeting place as compared to Germany where they meet in a bare room without even a chair. She also said there is little opportunity in that country for craft work.

Betty Rice sang a song in German and taught the English version to the girls.

Major Rice, who is a cousin of Mrs. Frank Graney, scout leader, is visiting his parents, Mr. and Mrs. John R. Rice of 121 Pine Grove avenue.

FIRST ANNUAL
"Good Luck Clover" Newspaperboy Contest
Save GOOD LUCK Margarine "Clovers" for the next 5 weeks and help your paperboy win a prize!

This contest gives your newspaperboy a chance to win valuable prizes — including a $1000 college scholarship — just by saving GOOD LUCK "Clovers" from now until June 27, 1955.

HERE'S your chance to do something for a boy who does a lot for you — your newspaperboy. In the American tradition, he is up in the morning before you and I, or working late after school bringing us our daily newspapers.

By doing just one simple thing you can help him win any one of the 53 prizes you see listed here in the "GOOD LUCK Clover" Annual Newspaperboy Contest.

All you do

On the front of every package of GOOD LUCK Margarine you will see the green and yellow GOOD LUCK 4-leaf "Clover."

Cut out this "Clover" and save it for your newspaperboy. (If you buy Family Style GOOD LUCK, save the entire wrapper.)

Give the "Clovers" or wrappers to your newspaperboy. The prizes he wins depend upon how many of these he saves.

53 big prizes to choose from!

There is not just one lucky winner in this giant contest! Each and every boy has a chance to win just as many prizes as his "Clovers" entitle him to. Buy GOOD LUCK Margarine and start saving your "Clovers" today.

The finest margarine you can buy

You're going to like GOOD LUCK—and here's why. First we make GOOD LUCK fresh, wholesome and delicious. And to keep it that way we *double-wrap* it in pure aluminum and *seal it tight.*

That's why Lever Brothers Company unconditionally guarantees that GOOD LUCK in its special aluminum package will reach you fresher and better-tasting than any other margarine—or your money will be refunded.

TEN $1000 COLLEGE SCHOLARSHIPS FOR NATIONAL WINNERS!

THE ten newspaperboys who collect the greatest number of GOOD LUCK Margarine "Clovers" in the nationwide "Good Luck Clover" Annual Newspaperboy Contest this year will each receive a $1000 college scholarship to the U. S. college of his choice.

Think of it! Just by saving GOOD LUCK "Clovers" you may help send your favorite newspaperboy to college!

This is the "Good Luck Clover" you save

ALL NEWSPAPERBOYS WHO SAVE 600 "CLOVERS" CAN CHOOSE ONE OF THESE GRAND PRIZES!

The lucky boys who collect 600 "Clovers" will have their choice of one of these Grand Prizes: CHRIS CRAFT 14' BOAT KIT, easy to assemble, handles 5 to 15 hp outboard motors. WORLD BOOK ENCYCLOPEDIA prepared at cost of $2,000,000, recommended by educators. MOBYLETTE MOTOR BIKE, automatic transmission, safety features. DRUM AND TRAP SET, used by professionals, comes with book explaining basic dance and band drumming. REVERE 8 MM CAMERA AND PROJECTOR, F 1.6 lens, automatic rewind, plus a 22" x 30" screen. EMERSON PORTABLE TV SET, built-in antenna, leatherette case. V-M HI-FI PHONOGRAPH, three speakers, automatic record changer.

This contest is sponsored and conducted solely by Lever Brothers Company

Your paperboy can win one or more of these magnificent prizes made by such nationally known manufacturers as
EMERSON · WESTINGHOUSE · TAPATCO · GILBERT · RUBIN GRAIS · TYCO · GENERAL ELECTRIC · BIG BEAM · WHIRLWIND · BURGESS · SPALDING · ANSCO

Anna Neagoe's Oil Is on Exhibition

New York, May 19 (Special)—A painting by Anna Neagoe of Orchard Lane, Woodstock, has gone on view at the National Academy galleries on Fifth avenue here as part of the 63rd annual exhibition of the National Association of Women Artists.

Her oil, "Abundance," was accepted by the jury of selection. It was among those chosen from a huge group of watercolors, oils, sculptures and examples of graphic art submitted for the show by women artists in all parts of the country.

The resultant exhibition runs the gamut from the traditional to the abstract, with a heavy vein of romantic realism strongly in evidence. It will continue through May 29.

Home Bureau

TOBASCO UNIT met Tuesday at the Mombaccus School. Eighteen members were present and Mrs. Harold Schwab was in charge of the meeting. Reports were given on Achievement Day held in Ellenville May 12. Garden Day will be held at Lake Mohonk June 9. Those who wish to attend or reserve dinner should advise Mrs. Peter Lypka before May 31. Program plans and selections of leaders for projects were put off until Mrs. Lypka has attended a chairmen's meeting on June 1. The unit will hold a dinner this year instead of a picnic. The dinner is scheduled June 21.

OLIVE UNIT will hold its annual picnic Tuesday, May 24, at the home of Mrs. Hyman Axinn in West Shokan, starting at 10 a. m.

Want a quick luncheon dish? Heat a prepared tomato sauce—the kind that's good on spaghetti. Serve over hard-cooked or scrambled eggs.

Personal Notes

Mr. and Mrs. David N. Stroller of 222 Elmendorf street recently spent a week in Washington, D. C. While there they were luncheon guests of Congressman J. Ernest Wharton in the Congressional dining room. Congressman Wharton gave his guests a pass to the House Gallery where they heard the House of Representatives discussing the bill concerning statehood for Hawaii and Alaska. Mr. and Mrs. Stroller also called on Mrs. Katherne St. George of the 28th Congressional District, who is a member of the Townsend Plan steering committee. While in Washington, Mr. and Mrs. Stroller were house guests of Mr. Stoller's daughter and family, Mr. and Mrs. William Dicken of 1439 Holly street, N.W.

Senior Scouts Map Plans for Camping Weekend at Wendy

Senior Girl Scouts of Ulster county are busy shaping up final plans as they prepare to play hostess to a large delegation of Senior Girl Scouts of Westchester county at a joint weekend camping expedition at Camp Wendy, Wallkill, Friday through Sunday, May 20-22. This is the second in a series of exchange experiences sponsored by the Girl Scout Councils of Ulster and Westchester counties. The camping sessions are open to all Girl Scouts of the Senior are range (14-17 years).

Miss Carol Rylance of this city is chairman of reservations. She announced today that Senior troops plan to attend from Kingston, Onteora, New Paltz, Wallkill and the Pleasantville area of Westchester county.

Weekend activities will get underway with registration at 4 p. m. at Camp Wendy. Following the arrival of the Westchester county group a nose-bag supper will be enjoyed. Friday night will be given over to setting up camp, forming patrols for weekend living and camping together and a get-acquainted camp fire social hour. Saturday will be devoted to an outdoor program emphasizing primitive camping, outdoor cookery, demonstrations on putting up tents, using charcoal fires, lashing and other camping skills. Highlights of the day's session will include a nature walk for the entire encampment under the direction of Dr. Pyle, New Paltz State Teachers College and the evening's program centering around the theme 'Americana.' All troops attending will participate by contributing a bit of the folklore of their own locale. On Sunday, campers will attend village church services or Scout's Own, an impressive ceremony to be held at Camp Wendy under the direction of the Onteora Senior Scout troop. Sunday dinner for the encampment will conclude the weekend activities followed by the departure of the campers during the afternoon.

Spelling Test

Houston, Tex. (AP)—A fellow in a restaurant was overheard telling the story of his life. He came to Texas a young man, unable to read or write. He decided to learn to write so he could let his mother know where he'd settled. Finally, he mastered the name of the town—Nacogdoches. But then he was transferred to Waxahachie. Just when he had that down pat, he was moved again—this time to Albuquerque, N. M.

Hammer to Face Charge of Murder

Van Nuys, Calif., May 19 (AP)—Julian Hammer, son of a New York millionaire, will be arraigned in Los Angeles Superior Court June 1 on a charge of murdering a friend, Bruce Whitlock.

The arraignment was set yesterday at Hammer's preliminary hearing. He was released on $20,000 bail. Hammer's father, Dr. Armand Hammer, manufacturer and art gallery owner, was not present in court, and the 26-year-old defendant's lawyer declined to say where the bail came from.

The district attorney said he did not oppose bail because he does not consider the death penalty warranted in case of conviction. Where the death penalty is to be asked, no bail is allowed.

Hammer said the fatal shooting occurred in an argument May 8 over an old gambling debt. Hammer is a writer on technical subjects for an engineering concern.

Bulgarian Going Back to Homeland

Tulsa, Okla., May 19 (AP)—Vasil Petroff Svilansky who came to the United States from Bulgaria in 1939 with a round trip ticket will leave Saturday on the long-delayed return journey—unless fate intervenes for the fifth time.

The outbreak of World War 2 first prevented his return. Then four additional times arrangements were made for the trip back to Communist-dominated Bulgaria. Each time weather or sickness forced cancellation of the plans.

Svilansky, 72, says he wants to spend his remaining years with his two sons and daughter in Bulgaria. His destination is Sofia.

Former State Insurance Head Is Heart Victim

New York, May 19 (AP)—Louis Heaton Pink, 72, lawyer and former New York state superintendent of insurance, died of a heart attack last night at his Manhattan (200 E. 66th street) home.

He worked in his office yesterday.

Pink was appointed superintendent of insurance by former Gov. Herbert H. Lehman in 1935 and served until 1943. He had been general counsel of the State Insurance Department's Liquidation Bureau from 1932 to 1934, and in 1935 he was in the Title and Mortgage Bureau.

PINK LEFT law practice years ago to engage in settlement work, but later returned to law and specialized in public housing and insurance.

He was a member of the New York City Board of Education in 1912 and 1913. He served on the State Housing Board from 1926 to 1934, being chairman in 1934, and was a member of the New York City Housing Authority in 1934 and 1935.

Pink was president and chairman of the Associated Hospital Service of New York (Blue Cross) from 1943 to 1950, and continued as chairman until 1953. A quarter of a century ago he founded the Bridge-Johnson Hotel in Brooklyn, an institution for homeless men which is still operating.

Pink went to the Philippines in 1945 as a special adviser to the Philippine government in helping to revive insurance groups that had been closed during the Japanese occupation.

HE SERVED on the board of a half dozen American insurance companies. His many activities also included membership on the boards of Warm Springs (Ga.) Foundation and the National Foundation for Infantile Paralysis. He recently had been chairman of the Citizens' Economic Union, an organization working for expanded international trade.

Pink, who had been interested in housing for lower and middle income groups for many years, was a founder of the National Public Housing Conference, and was president of the United Housing Foundation at the time of his death. He also was president of three large cooperative housing developments in New York city. One of them, Queensview, in Queens, is occupied. Plans are being made for the other two, Kingsview in Brooklyn and Queensview West.

Born in Wausau, Wis., Pink was reared in Canton, N. Y. He was graduated from Eramus Hall High School in Brooklyn, and then returned to Canton, where he was graduated from St. Lawrence University in 1904. He was a trustee of the Canton institution for many years, and recently had been writing a centennial history of the university.

Mail Seized to Check Sweepstakes Tickets

Chicago, May 19 (AP)—Ten thousand envelopes mailed in the British West Indies to Chicago residents have been intercepted by post office inspectors because, they said, they contain tickets for the Jamaica Sweepstakes.

Inspector Jerome Williamson said yesterday addressees have been notified to appear at the post office and open the envelopes in the presence of inspectors. Any tickets for the Sweepstakes, he said, will be confiscated because they were mailed into the United States in violation of federal lottery laws. He said envelopes containing legitimate mail will be turned over to the addressee.

The inspector said the Sweepstakes, to be held June 25 in Kingston, Jamaica, B.W.I., offers a $28,000 first prize.

Hammer to Face Charge of Murder

Van Nuys, Calif., May 19 (AP)—Julian Hammer, son of a New York millionaire, will be arraigned in Los Angeles Superior Court June 1 on a charge of murdering a friend, Bruce Whitlock.

The arraignment was set yesterday at Hammer's preliminary hearing. He was released on $20,000 bail. Hammer's father, Dr. Armand Hammer, manufacturer and art gallery owner, was not present in court, and the 26-year-old defendant's lawyer declined to say where the bail came from.

The district attorney said he did not oppose bail because he does not consider the death penalty warranted in case of conviction. Where the death penalty is to be asked, no bail is allowed.

Hammer said the fatal shooting occurred in an argument May 8 over an old gambling debt. Hammer is a writer on technical subjects for an engineering concern.

Bulgarian Going Back to Homeland

Tulsa, Okla., May 19 (AP)—Vasil Petroff Svilansky who came to the United States from Bulgaria in 1939 with a round trip ticket will leave Saturday on the long-delayed return journey—unless fate intervenes for the fifth time.

The outbreak of World War 2 first prevented his return. Then four additional times arrangements were made for the trip back to Communist-dominated Bulgaria. Each time weather or sickness forced cancellation of the plans.

Svilansky, 72, says he wants to spend his remaining years with his two sons and daughter in Bulgaria. His destination is Sofia.

Former State Insurance Head Is Heart Victim

New York, May 19 (AP)—Louis Heaton Pink, 72, lawyer and former New York state superintendent of insurance, died of a heart attack last night at his Manhattan (200 E. 66th street) home.

He worked in his office yesterday.

Pink was appointed superintendent of insurance by former Gov. Herbert H. Lehman in 1935 and served until 1943. He had been general counsel of the State Insurance Department's Liquidation Bureau from 1932 to 1934, and in 1935 he was in the Title and Mortgage Bureau.

PINK LEFT law practice years ago to engage in settlement work, but later returned to law and specialized in public housing and insurance.

He was a member of the New York City Board of Education in 1912 and 1913. He served on the State Housing Board from 1926 to 1934, being chairman in 1934, and was a member of the New York City Housing Authority in 1934 and 1935.

Pink was president and chairman of the Associated Hospital Service of New York (Blue Cross) from 1943 to 1950, and continued as chairman until 1953. A quarter of a century ago he founded the Bridge-Johnson Hotel in Brooklyn, an institution for homeless men which is still operating.

Pink went to the Philippines in 1945 as a special adviser to the Philippine government in helping to revive insurance groups that had been closed during the Japanese occupation.

HE SERVED on the board of a half dozen American insurance companies. His many activities also included membership on the boards of Warm Springs (Ga.) Foundation and the National Foundation for Infantile Paralysis. He recently had been chairman of the Citizens' Economic Union, an organization working for expanded international trade.

Pink, who had been interested in housing for lower and middle income groups for many years, was a founder of the National Public Housing Conference, and was president of the United Housing Foundation at the time of his death. He also was president of three large cooperative housing developments in New York city. One of them, Queensview, in Queens, is occupied. Plans are being made for the other two, Kingsview in Brooklyn and Queensview West.

Born in Wausau, Wis., Pink was reared in Canton, N. Y. He was graduated from Eramus Hall High School in Brooklyn, and then returned to Canton, where he was graduated from St. Lawrence University in 1904. He was a trustee of the Canton institution for many years, and recently had been writing a centennial history of the university.

Pink leaves his wife, Mrs. Hazel Kelley Pink, formerly of Gouverneur, N. Y.; two children, Mrs. Newton Millham, of Locust Valley, N. Y., and Austin K. Pink, of Oyster Bay, N. Y., and eight grandchildren.

Knights to Pick Officers During Upstate Meeting

Saratoga Springs—Delegates to the 60th annual state convention of the Knights of Columbus are expected to choose an all-new slate of officers when they gather here May 26, 27 and 28.

Interest in the elections is being stimulated because of the reported possibility of contests for three and perhaps four offices.

All five present officers have served two years and have declined endorsement for reelection. They are Denis A. Mansfield of Saratoga Springs, state deputy; John F. Symonds of Yonkers, state secretary; James G. Cunningham of Springfield Gardens, L. I., state treasurer; Joseph V. Colaio of New York, state warden, and Roland A. Crowe of Glen Cove, L. I., state advocate.

AMONG THE contested offices may be that of state deputy, highest post in the State Council.

His Excellency, the Most Rev. William A. Scully, D.D., Bishop of Albany, will celebrate a Solemn Pontifical Mass on May 27 in St. Peter's Church at 9:30 a. m.

Bishop Scully, present state chaplain of the Knights, also is expected to report to the convention at its opening business session on the same day and to attend the state banquet, final event of the convention, on May 28.

THE RUMINATOR

By HUMPHREY B. NEILL

A Column of Contrary Opinion

This piece has to do with I might call "the fallacy of looking too far ahead." It may be confusing to say this unless I explain it a little.

This writer has frequently pointed out that one of the chief advantages of the theory of contrary opinion (as a thinking tool) is that it throws the mind ahead of current happenings and thereby aids in gaining perspective.

Yet, in the opening sentence above I mention the fallacy of looking too far ahead. In order to keep the "time factor" from getting us completely twisted let us break it down this way:

From a contrary standpoint, it is wise to estimate at all times to what extent current trends may be discounting, or borrowing from, the relatively near-term feature of, say, six months, or even a year or two. (Example: To what extent might present booming auto sales and home-building be subtracting from otherwise "normal expectancies" six months to two years hence?.

Beyond a forward look of this extent, it appears a fallacy to attempt it, for reasons which we shall now discuss.

WHAT HAS PUT this idea in the Ruminator's mind for present discussion is the vast amount of published articles, books, and speeches that have appeared over recent months concerning the extraordinary "long" future which lies before us.

It is common, as you know, to read about what the American economy holds in store for us in 1965 - 1970 - and even in 1975.

This "long view" has been propagandized and emphasized in all quarters: from the White House, from business leaders, by the business and financial press, and in books and articles by economists and authorities of note.

The Ruminator is not quarreling with the accuracy of the forward look. What I am concerned about is what may occur between now and the pinnacles of achievements which may be reached 10, 15 and 20 years hence.

Let me go back a moment to the last New Era we experienced in America — that of 1927-1929. In that boom we were also told that there was no limit to the future growth of our economy. Indeed, if one checks back on the long-future predictions of that era he will find that the "forward look" of those days has come to fulfillment, has been attained, to even a greater extent than was then rosily predicted.

However, between the time of predictions and the time of fulfillment we passed through a long, torturous depression and a calamitous war — to say nothing of the frustrating Korean conflict and "cold wars."

You may say, "Well, so what? We have had the growth, haven't we?" To that I agree, of course. But in the meantime, as you will grant me I'm sure, countless people and numerous businesses suffered extraordinary losses from the intervening depressions and war-disrupted programs.

COMING DOWN to the current "era of great expectations" the Ruminator does not doubt for a moment that these expectations will be exceeded in the two or three decades which are ahead.

But what I am fearful about is that somewhere closer ahead our economy will have to pass through what is politely termed "a correctve period", but which in blunt language means a good, old-fashioned slump.

I recognize that you read how our economy is now "depression proof" and that neither political party will ever again permit a devastating deflation to develop.

Unfortunately, so long as we enjoy a free enterprise system — which means also a free price system — we must expect that the booms will be overdone just as they have always been overboomed in the past. The only "correction" for blown-up booms is to let some of the air out of the balloons. You can strengthen the balloon, wrap cords around it to keep it from bursting, but at some point of pressure it will give away.

Accordingly, the Ruminator thinks it is a fallacy to cast one's thinking on the long view of decades — except as it has to do with extremely long-range planning (which certainly is not for the average man or business). It is entertaining to look far ahead, to speculate on the "atomic age," and so on, but it has very little practical application for the average family or for the average business. To be blunt, you can lose your shirt, by looking too far ahead.

Indeed, if one checks back on the long-future predictions of that era he will find that the "forward look" of those days has come to fulfillment, has been attained, to even a greater extent than was then rosily predicted.

However, between the time of predictions and the time of fulfillment we passed through a long, torturous depression and a calamitous war — to say nothing of the frustrating Korean conflict and "cold wars."

You may say, "Well, so what? We have had the growth, haven't we?" To that I agree, of course. But in the meantime, as you will grant me I'm sure, countless people and numerous businesses suffered extraordinary losses from the intervening depressions and war-disrupted programs.

COMING DOWN to the current "era of great expectations" the Ruminator does not doubt for a moment that these expectations will be exceeded in the two or three decades which are ahead.

But what I am fearful about is that somewhere closer ahead our economy will have to pass through what is politely termed "a correctve period", but which in blunt language means a good, old-fashioned slump.

I recognize that you read how our economy is now "depression proof" and that neither political party will ever again permit a devastating deflation to develop.

Unfortunately, so long as we enjoy a free enterprise system — which means also a free price system — we must expect that the booms will be overdone just as they have always been over-boomed in the past. The only "correction" for blown-up booms is to let some of the air out of the balloons. You can strengthen the balloon, wrap cords around it to keep it from bursting, but at some point of pressure it will give away.

Accordingly, the Ruminator thinks it is a fallacy to cast one's thinking on the long view of decades — except as it has to do with extremely long-range planning (which certainly is not for the average man or business). It is entertaining to look far ahead, to speculate on the "atomic age," and so on, but it has very little practical application for the average family or for the average business. To be blunt, you can lose your shirt, by looking too far ahead.

Adlai Sees United Party For 1956 Presidential Race

Chicago, May 19 (AP)—The Democrats, says Adlai Stevenson, will be a united party in 1956 and he believes "those who have strayed and returned in good faith should be welcomed back to the Democratic fold."

The 1952 Democratic presidential nominee told newsmen yesterday that for the last two years he had done "all I could to assure a united Democratic party in 1956."

"I am sure," Stevenson added, "that is the wish and intention of all good Democrats and I firmly believe this is what we're going to have."

THE FORMER Illinois governor, returning from a month-long business trip to Africa, was interviewed by reporters at Midway Airport. Asked about recent statements of party leaders regarding loyalty to the party's nominee by convention delegates in their home states, he said:

"I believe that those who have strayed and returned in good faith should be welcomed back to the Democratic fold. I am against loyalty oaths but am very much in favor of loyalty and good faith in politics, and I believe a delegate who takes part in any Democratic decision-making process bears a serious obligation to abide by the majority decision unless his conscience forbids him to."

Stephen A. Mitchell, the party's former national chairman, recently said a floor fight would be made in the 1956 convention, if necessary, to prevent seating of any or all three southern Democratic leaders who were delegates to the 1952 convention which nominated Stevensen but supported Dwight Eisenhower for President.

MITCHELL, advised of Stevenson's statement yesterday, said he still would predict the convention Credentials Committee will reject Gov. Allen Shivers of Texas, Gov. Robert F. Kennon of Louisiana, James F. Brynes, former governor of South Carolina, and other 1952 "apostates."

"They are symbols of disloyalty," Mitchell said. "They are Judas goats who betrayed their own party after being elected to positions of leadership by that party. I'm not going to let them participate if I can help it."

Asked if he plans to become a presidential candidate in 1956, Stevenson told newsmen all he knows about that "is what you fellows have been writing." He also said there are "several" capable men for the nomination. Among those, he named Gov. Averell Harriman of New York and Sen. Estes Kefauver of Tennessee.

Prosperous Car Dealer Held on Desertion Count

Buffalo, N. Y., May 19 (AP)—The past of Arthur Athans had risen to plague him today, and his prosperous life as Joseph Trainer had ended—as he knew it would sooner or later.

Athans, a 35-year-old automobine dealer, was arrested by military police yesterday — 11 years after he allegedly deserted from the U. S. army at Ft. Knox, Ky.

Since that time, the former Buffalo man had married, become the father of five children, and had acquired ownership of an automobile agency near the village of Falconer, a suburb of Jamestown in Chautauqua county.

UNDER THE NAME of Joseph Trainer, Athans had built a new and prosperous life.

"But I always knew, sooner or later, it would end," police quoted him as saying.

They said Athans at first denied any knowledge of "anyone named Athans or any desertion." But after questioning, they said, he admitted his identity.

Athans' wife, Marjorie, disclaimed any knowledge of her husband's past. She said they had been married in 1946 in the Chautauqua village of Sinclairville. Athans at the time was an automobile mechanic.

MILITARY POLICE held him here overnight and said he would be transferred today to Ft. Jay, Governor's Island, where he would be held for trial.

Athans' father, Nicholas P. Athans, told reporters he hadn't seen his son for two or three years.

"He had only been in the army a short time when we were told he had run away," the father said. "He wanted to be an air force mechanic, but they put him in the infantry and he used to write us letters about how he didn't like the life."

Do You Remember

By SOPHIE MILLER

I have always admired those who could grow flowers. During my grandmother's time in Port Ewen, the Deans lived on the ground floor and Mr. Dean, who then I think was in his early 90's could make the most beautiful roses bloom all over the place. I admired his roses very much but never wanted a bunch, but just one flower from a bush. I feel a flower has such a short life and so many folks can enjoy it while it is in a garden rather than in a vase. For many years after the Deans moved his flowers grew but after a while they began to miss his tender care and little by little died out. In Kingston here, John Sottile also had that gift. He was connected with the city parks and Recreation Center next to me. Luckily he was just as able with young children who followed and obeyed him without his having to raise his voice. They loved and did not harm his flowers in the park.

I went after John for some rose slips and he planted two bushes in the sun near the Center building. Both rose bushes took fine, but once there was a visiting demonstrator of crafts at the Center and for some unknown reason he dumped some of the residue of one of his photographic experiments out of the window without asking first, and nearly killed one of John's rose bushes. That rose bush has been trying to do its best every year, but the leaves just never turn a real dark green as they should. They stay a very light yellowish green since that incident. Perhaps rose experts reading this can give me a remedy. I have cut slips from the good bush and planted them elsewhere but of course I do not have John's ability. They come up as best as they can. Although John left no children, I am sure that these rose bushes that he must have planted many places are still growing as a living memorial to a man who loved flowers and children. Every spring when the warm sunshine brings out the leaves, one very green, full and strong and the other yellow and weak, I think of both of these men.

* * *

I often wonder why a perpetual plaque could not be on the market on which could be printed or burnt the name and date of the person who plants something like an everlasting tree or a flowering shrub. Just today we were admiring a tree in Port Ewen. I do not even know the kind it is, although it is on my property. Perhaps it was planted there by someone long ago, or perhaps it just grew like Topsy who knows. Wouldn't it be nice to see the name of a person and the date the tree was planted and the kind it is. Not long ago, right in front of the Old Dutch Church they had to call experts to find out how old the big tree was. Public buildings have cornerstones in which they usually place a metal box in which the local newspapers are enclosed and other data so that history can be explained years later. Nothing like that is done in a private home when built. Why cannot the name of the builders, designers and owners be printed into the cement of the cellar or at least the date? I have really never found the history of my grandparents' home in Port Ewen. There must be a history to a type of a house like that, but all my questions must remain unanswered. Very often folks come to me to learn about the history of their old houses.

There are more than 200 million acres in U. S. national forests.

Prosperous Car Dealer Held on Desertion Count

Buffalo, N. Y., May 19 (AP)—The past of Arthur Athans had risen to plague him today, and his prosperous life as Joseph Trainer had ended—as he knew it would sooner or later.

Athans, a 35-year-old automobine dealer, was arrested by military police yesterday — 11 years after he allegedly deserted from the U. S. army at Ft. Knox, Ky.

Since that time, the former Buffalo man had married, become the father of five children, and had acquired ownership of an automobile agency near the village of Falconer, a suburb of Jamestown in Chautauqua county.

UNDER THE NAME of Joseph Trainer, Athans had built a new and prosperous life.

"But I always knew, sooner or later, it would end," police quoted him as saying.

They said Athans at first denied any knowledge of "anyone named Athans or any desertion." But after questioning, they said, he admitted his identity.

Athans' wife, Marjorie, disclaimed any knowledge of her husband's past. She said they had been married in 1946 in the Chautauqua village of Sinclairville. Athans at the time was an automobile mechanic.

MILITARY POLICE held him here overnight and said he would be transferred today to Ft. Jay, Governor's Island, where he would be held for trial.

Athans' father, Nicholas P. Athans, told reporters he hadn't seen his son for two or three years.

"He had only been in the army a short time when we were told he had run away," the father said. "He wanted to be an air force mechanic, but they put him in the infantry and he used to write us letters about how he didn't like the life."

Do You Remember

By SOPHIE MILLER

I have always admired those who could grow flowers. During my grandmother's time in Port Ewen, the Deans lived on the ground floor and Mr. Dean, who then I think was in his early 90's could make the most beautiful roses bloom all over the place. I admired his roses very much but never wanted a bunch, but just one flower from a bush. I feel a flower has such a short life and so many folks can enjoy it while it is in a garden rather than in a vase. For many years after the Deans moved his flowers grew but after a while they began to miss his tender care and little by little died out. In Kingston here, John Sottile also had that gift. He was connected with the city parks and Recreation Center next to me. Luckily he was just as able with young children who followed and obeyed him without his having to raise his voice. They loved and did not harm his flowers in the park.

I went after John for some rose slips and he planted two bushes in the sun near the Center building. Both rose bushes took fine, but once there was a visiting demonstrator of crafts at the Center and for some unknown reason he dumped some of the residue of one of his photographic experiments out of the window without asking first, and nearly killed one of John's rose bushes. That rose bush has been trying to do its best every year, but the leaves just never turn a real dark green as they should. They stay a very light yellowish green since that incident. Perhaps rose experts reading this can give me a remedy. I have cut slips from the good bush and planted them elsewhere but of course I do not have John's ability. They come up as best as they can. Although John left no children, I am sure that these rose bushes that he must have planted many places are still growing as a living memorial to a man who loved flowers and children. Every spring when the warm sunshine brings out the leaves, one very green, full and strong and the other yellow and weak, I think of both of these men.

* * *

I often wonder why a perpetual plaque could not be on the market on which could be printed or burnt the name and date of the person who plants something like an everlasting tree or a flowering shrub. Just today we were admiring a tree in Port Ewen. I do not even know the kind it is, although it is on my property. Perhaps it was planted there by someone long ago, or perhaps it just grew like Topsy who knows. Wouldn't it be nice to see the name of a person and the date the tree was planted and the kind it is. Not long ago, right in front of the Old Dutch Church they had to call experts to find out how old the big tree was. Public buildings have cornerstones in which they usually place a metal box in which the local newspapers are enclosed and other data so that history can be explained years later. Nothing like that is done in a private home when built. Why cannot the name of the builders, designers and owners be printed into the cement of the cellar or at least the date? I have really never found the history of my grandparents' home in Port Ewen. There must be a history to a type of a house like that, but all my questions must remain unanswered. Very often folks come to me to learn about the history of their old houses.

There are more than 200 million acres in U. S. national forests.

Asks Name Change

Winston-Salem, N. C., May 19 (AP) — Exectrom Fullenwider Springs, 26, of Winston-Salem, is no longer satisfied with his name. He wants it changed by the courts and will appear May 24 before Superior Court Clerk William E. Church with that plea. The name he has selected? Exectrom Fullenwider Springs Caldwell.

In 1949, Mole Hill, W. Va., changed its name to Mountain.

"I taught Shultz how to chase a stick—now how do I break him of it?"

Weekly Food Review

(By The Associated Press)

Beef and lamb will offer the most for your money in the nation's food stores this weekend.

It's on cuts of these two meats that most of the weekend price trimming is planned. Favorite features will be chuck roast and round roast. However, one large chain plans to cut prices on sirloin steaks by from two to six cents a pound and on prime ribs by around two to four cents.

LEGS OF LAMB will be a popular special, too, and a number of stores will have lamb shoulder roast at reduced prices. There also will be reductions on lamb chops in some areas.

Very few markets will be featuring pork. Prices on pork chops will be up nearly everywhere, with increases ranging from two cents a pound to around six cents.

Frying chickens will be higher by from two to four cents a pound. However, in view of the recent drop in the cost of the birds, they continue to be rated as an attractive buy for housewives with an eye on their budgets. The U. S. Department of Agriculture has broilers and fryers at the top of its list of plentiful foods for this month. It comments that "now's the time to indulge the family appetite for wonderful chicken dinners. Take turns serving chicken fried, broilers, baked and barbecued."

EGG PRICES won't show much change this weekend, but the word is that you may expect higher prices soon. The approaching hot weather means hens will lay fewer eggs. And by next fall, there'll be a drop in egg supplies because farmers are cutting back on their flocks.

The government reports that housewives bought 14 per cent more butter and eight per cent more margarine in March than in the same month a year earlier. Butter prices this weekend will be about the same as a week ago.

There has been some price cutting on frozen fish stocks, mainly because production in the first quarter was up 80 per cent over the year-earlier period.

LETTUCE HAS returned to the list of good buys. Produce specialists say Big Boston, Iceberg and Romaine are attractively priced. Old potatoes from Maine and Idaho offer good value, but new potatoes are considered pretty high. Sweet corn is plentiful and the quality is good.

Other good buys mentioned include peppers, radishes, spinach, beets, escarole, endive and summer squash. In the case of squash, quality is irregular.

PRICES WILL BE higher on snap beans, carrots, celery, tomatoes, cucumbers and cabbage, according to the produce men.

Florida's citrus production has passed its peak, but prices are reasonable and quality good, men in the wholesale markets say. California oranges also are good buys and the price of lemons is lower.

More strawberries are reaching the markets, but prices are rather high.

Lansing, Mich. (AP)—State officials scanning a list of election inspectors stopped when they came to one name. They checked further. The inspector's real name is: Crystal Ball.

Try, Try Again

Muskegon, Mich. (AP)—Baking soda will extinguish a fire, 12-year-old Bobby Achterhoff discovered—after he'd called firemen for help. The boy decided to try the method himself after watching a televised demonstration. Baking soda in hand, he set fire to some newspapers in a garage. The fire flared. The baking soda failed. Bobby hastily called the fire department. Then he dashed back with more baking soda. It worked the second time, the boy sheepishly told firemen.

Eggs stored at room temperature will lose as much quality in three days as those kept two weeks under refrigeration.

Try, Try Again

Muskegon, Mich. (AP)—Baking soda will extinguish a fire, 12-year-old Bobby Achterhoff discovered—after he'd called firemen for help. The boy decided to try the method himself after watching a televised demonstration. Baking soda in hand, he set fire to some newspapers in a garage. The fire flared. The baking soda failed. Bobby hastily called the fire department. Then he dashed back with more baking soda. It worked the second time, the boy sheepishly told firemen.

Second Atomic Sub Launching in July

Washington, May 19 (AP)—Launching ceremonies "about mid-July" were being arranged today for the seawolf, the nation's second atomic submarine now under construction at Groton, Conn.

The navy, still giving no definite date for the ceremonies, said yesterday the sponsor for the new vessel will be the wife of Rep. W. Sterling Cole (R.-N.Y.), a member of the Joint Congressional Committee on Atomic Energy. The first atomic sub, the Nautilus, is now on a shakedown cruise in the Atlantic.

New Rebekah President

Saratoga Springs, N. Y., May 19 (AP)—Mrs. Mary F. Cotte of Inwood is the new president of the New York State Rebekah Assembly. Mrs. Cotte was elected at the group's 56th annual convention yesterday to succeed Mrs. Myrtle E. Hull of Warrensburg. About 1,200 delegates attended the three-day meeting, which ended today. Other new officers included Mrs. Inez D. Squires of West Hempstead, secretary.

Trim for Pie.

Want a fine trim for your one-crust pie? Cut the rolled out pastry one-half inch (at least) larger than the top edges of the pie pan. After fitting the pastry into the pan, turn the hanging edge under and flute the edge. To flute, put your little finger under the edge and press the pastry on each side of it with the thumb and forefinger of your other hand.

Blame Harriman In Dismissal of ThreeIndictments

Albany, N. Y., May 19 (AP)—Republican legislative leaders say dismissal of indictments against three New York city men proves the urgency for action to keep "the grasping hands of racketeers" from union welfare funds.

Sen. Walter J. Mahoney and Assembly Speaker Oswald D. Heck yesterday renewed their contention that Gov. Harriman had "blcoked preventive and remedial legislation on the flimsy pretext that further investigation was necessary."

THE THREE men, George Scalise, Anthony Carfano and Sol Cilento, were charged with bribery in connection with an alleged $299,000 kickback racket in welfare funds of the AFL Distillery, Rectifying and Wine Workers Union of America. The New York county district attorney says he will appeal the dismissal.

Judge Jonah Goldtsein of General Sessions Court held that the law did not cover the situation. He said the legislature should act promptly.

Heck and Mahoney declared that legislation passed in 1955 and vetoed by Harriman would have corrected "serious abuses" in handling of welfare funds. They said the abuses were reported last year by Alfred Bohlinger, superintendent of insurance under former Gov. Thomas E. Dewey, a Republican.

THE BILL would have:

1. Required registration of all union welfare funds.
2. Thrown union books open to inspection by the insurance superintendent.
3. Held fund trustees personally responsible for the character of operations.

Harriman said in disapproving the bill that a "complete" study of the subject was needed before enactment of regulatory legislation. He has indicated that he might propose legislation on the subject next year.

Heck and Mahoney asserted that the governor had given "lip service to the need for responsible action" but had "blocked preventive and remedial legislation on the flimsy pretext that further investigation was necessary."

King and His Court Softball Aces Return to Kingston June 15

50 Club Sponsors All Star Contest At Dietz Stadium

Sensational Hurler, Feigner, With Club

- The 50 Club has announced a return appearance of the fabulous King and His Court softball squad to Dietz Stadium on Wednesday, June 15.

Starring the sensational pitcher, Eddie Feigner, the Court played before more than 2,000 fans here last August.

Officials of the 50 Club are expected to assemble an all-star squad to meet the crack exhibition troupe.

THE COURT is a four-man aggregation that plays against regulation nine-man teams with astounding success.

Besides Feigner, the Court features Meade Kinzer, Mike Meilicke and Jerry Jones. During the 1954 season, the King and his crew played before 300,000 fans while winning 149 games in 162 starts.

At Phoenix, Arizona, the King played All-America pitcher, Kenny Law, to a 1-1 tie and 4-0 victory.

Feigner, a slick pitcher, generally racks up from 15 to 18 strikeouts a game and is a heavy hitter in his own right. He pitched blindfolded, from second base, on his knees and employs the various softball pitching techniques that have been developed through the years.

ONCE FEIGNER pitched a game in its entirety blindfolded in Clagary, Canada, racking up 18 strikeouts in seven innings, to win 2-1.

On another occasion in Kirkland Lake, Wisconsin, Feigner put on one-man show and he struck out 18 batters and clubbed six home runs. He had a perfect "9 for 9" performance at the plate and knocked in nine runs.

Officials of the 50 Club will announce the method of selecting the local all-star squad at a later date.

Proceeds of the game will go to the athletic fund of the 50 Club.

Summer Tan Swaps Pimlico for Belmont

New York, May 19 (AP)—Summer Tan, a badly beaten third behind Swaps and Nashua in the Kentucky Derby, is going to pass up the May 28 running of the Preakness at Pimlico and point for the Belmont Stakes at Belmont Park June 11.

Trainer Sherill Ward yesterday said the colt was not at his best and needed a little longer to get ready for the mile and one-half Belmont. The Preakness is a mile and three-sixteenths.

Mrs. John W. Galbreath's colt has been raced only three times since recovering from a serious illness following a victory in the Garden State stakes last fall. Ward said Summer Tan came out of the Derby with a slight fever in both front feet.

KHS VARSITY TENNIS SQUAD—This group of Kingston High School varsity tennis players were undefeated in their first six matches. Team personnel, front row, l to r: Coach Ken Brown, Ronnie Schoonmaker, George Baechtle, Richard "Red" Smith, captain; Bob Planthaber. Rear row: Dirk Oudemool, Mark Ormiston, Marty Kantrowitz, No. 1 singles and Ulster county amateur champion. (Freeman photo)

By ED WILKS
(The Associated Press)

When the St. Louis Cardinals are winning, you'll never find a pair of sapphires to match the twinkling blue of Eddie Stanky's eyes. And the little guy's peepers are flashing blue blazes right now.

The Cardinals have won five straight and six of their last seven. But more important, their 3-2 success last night swept a series from Brooklyn—something the Cards have managed just four other times since Stanky took over as manager in 1952.

WITH THE TWO DEFEATS in St. Louis, the Brooklyns find themselves dragging a three-game losing streak as they head home from a dismal western trip on which they lost five of nine. But thanks to their fantastic getaway at home, the Dodgers still hold a 7½-game lead in the National League.

Chicago is second, with the Cardinals third. The Cubs moved up by taking a doubleheader from the failing Philadelphia Phils 3-2 and 7-5. Milwaukee stumbled from the runnerup spot by losing to New York Giants 4-2.

That left the standings jammed behind the Brooks. The Cards are nine percentage points behind the Cubs and three points up on the Giants. The New Yorkers are only two points ahead of the Braves.

The only other NL game went to Cincinnati 5-1 over Pittsburgh, which now has lost seven straight.

IN THE AMERICAN, Cleveland leads by 1½ after smearing Boston 19-0. New York swept its series from Chicago's White Sox 11-6, while Detroit beat Baltimore 6-3 in 10 innings and Washington defeated Kansas City 7-2.

Not only have the Cardinals apparently found themselves, but Stanky finally is getting the pitching he's missed for so long. His guys have allowed a mere three runs in their last five games and he dumped the Brooklyns with only one call to the bullpen.

The hail for help brought in Barney Schultz last night and the 6-2 righthander got the final two outs with the tying run on second to protect Harv Haddix' second victory. That broke a five-game losing string for Haddix.

With two of their runs unearned, the Cards jammed all their scoring into the first two innings. From there on, loser Johnny Podres and Clem Labine permitted only one base runner while holding the Cards to four hits for the game.

At Milwaukee, Hank Thompson's two-run single got the Giants moving in a three run sixth. Warren Spahn was the loser while Johnny Antonelli spun a six-hitter. The Braves, who stranded seven, were without Eddie Mathews, recovering from an appendectomy.

The Cubs smacked the Phils with the help of poor fielding in the opener and three home runs in the nightcap. Sad Sam Jones, making his first start since no-hitting Pittsburgh, fanned 10 for the victory, but gave way to Hal Jeffcoat in the ninth. Jeffcoat also came on in the nightcap, relieving John Andre in the fourth, for the decision. The Phils now have lost 15 of their last 16 games.

Cleveland waltzed behind Herb Score's three-hitter. The rookie fanned nine. Willard Nixon was knocked out in an 11-run fifth inning that saw Vic Wertz drive in five runs on a grand-slammer and a single—just one short of the modern major league mark for RBIs in one frame.

AT YANKEE STADIUM, Mickey Mantle powered a bases-loaded homer following a controversial intereference play that might have ended the inning except for umpire Ed Hurley's ruling. The Sox had four homers, two by Vern Stephens, but they weren't enough. Bob Grim, the winner with help from Tom Morgan, hit Minnie Minoso in the head with a pitch, but after X-ray examination it was reported the Sox outfielder won't miss any action.

Al Kaline's single scored the tie-breaking run for Detroit, giving Frank Lary his third victory after no-hitting the Orioles through the first five innings.

At Washington, the Senators scored four in the first, with Tommy Umphlett and Pete Runnells driving in two each, and coasted past the A's.

Rookie Rudy Minarcin won his first major league start for the Redlegs behind Ted Kluszewki's two-run homer and Wally Post's basesloaded double.

Hose Bitter at Bauer

Chisox Say Retaliation Is Coming; Arbiter Is Scored

New York, May 19 (AP)—Angry Chicago White Sox players, bitter at New York's Hank Bauer for what they termed "dirty tactics" threatened today to retaliate against the bruising Yankee outfielder the next time the teams meet.

At the same time the White Sox accused Umpire Ed Hurley of "playing it down the middle" because of his ruling on a play during yesterday's game in which Bauer was charged with interference. The Yankees won the game 11-6.

The play in question occurred in the seventh inning with New York at bat. The Yankees, trying to increase their 7-6 lead, had filled the bases with one out. Andy Carey hit a grounder to second baseman Nellie Fox, who turned to tag Bauer, the base runner from first.

Bauer charged into the little second baseman and sent him sprawling. Fox, from a supine position, threw to first too late to double up Carey as Gil McDougald crossed the plate.

When Manager Marty Marion charged out of the White Sox dugout to protest, Hurley ruled interference on Bauer and sent McDougald back to third. Bauer was called out and the bases remained full.

Marion argued for a double play but got nowhere.

Mickey Mantle then hit a grand-slam homer to put the Yankees beyond reach.

Baseball rule 7.09F seemed to uphold Marion. It states:

"If any base runner who had just been retired hinders or impedes any following play being made on a runner, such a runner should be declared out for the interference of his teammate."

Hurley, however, had a different version. In the umpires' dressing room after the game, he said:

"Bauer pushed him while Fox was in the act of fielding the ball. He did not have complete control of the ball. That's why I called Bauer out for interference.

"If Fox had full possession I would have ruled it a double play."

Press box observers were unanimous in the opinion that Fox not only had fielded the ball, but was in the act of tagging Bauer when the husky outfielder came barreling into him.

"Maybe he calls it aggressive baseball," Fox said angrily, "but I call it dirty playing. If he wants to play football instead of baseball I'll get some football pads the next time and we'll go at it."

Bauer told it this way: "Sure he had the ball, but he was standing in my way. I'm entitled to the baseline. So I hit him with my chest."

Marion explained his reason for not lodging an official protest over the interference call. "Where would that have gotten me?" he asked. "It's not a matter of rule interpretation, but one of judgment. Hurley said Bauer hit Nellie before he had the ball."

"He just took the easy way out," stormed Frank Lane, White Sox general manager. "He didn't have the guts to call the play the way it should have been called. He played it right down the middle. I agree with Marty. There's no sense protesting. It's Hurley's judgement against that of everyone in the ball park."

King and His Court Softball Aces Return to Kingston June 15

50 Club Sponsors All Star Contest At Dietz Stadium

Sensational Hurler, Feigner, With Club

The 50 Club has announced a return appearance of the fabulous King and His Court softball squad to Dietz Stadium on Wednesday, June 15.

Starring the sensational pitcher, Eddie Feigner, the Court played before more than 2,000 fans here last August.

Officials of the 50 Club are expected to assemble an all-star squad to meet the crack exhibition troupe.

THE COURT is a four-man aggregation that plays against regulation nine-man teams with astounding success.

Besides Feigner, the Court features Meade Kinzer, Mike Meilicke and Jerry Jones. During the 1954 season, the King and his crew played before 300,000 fans while winning 149 games in 162 starts.

At Phoenix, Arizona, the King played All-America pitcher, Kenny Law, to a 1-1 tie and 4-0 victory.

Feigner, a slick pitcher, generally racks up from 15 to 18 strikeouts a game and is a heavy hitter in his own right. He pitched blindfolded, from second base, on his knees and employs the various softball pitching techniques that have been developed through the years.

ONCE FEIGNER pitched a game in its entirety blindfolded in Clagary, Canada, racking up 18 strikeouts in seven innings, to win 2-1.

On another occasion in Kirkland Lake, Wisconsin, Feigner put on one-man show and he struck out 18 batters and clubbed six home runs. He had a perfect "9 for 9" performance at the plate and knocked in nine runs.

Officials of the 50 Club will announce the method of selecting the local all-star squad at a later date.

Proceeds of the game will go to the athletic fund of the 50 Club.

Summer Tan Swaps Pimlico for Belmont

New York, May 19 (AP)—Summer Tan, a badly beaten third behind Swaps and Nashua in the Kentucky Derby, is going to pass up the May 28 running of the Preakness at Pimlico and point for the Belmont Stakes at Belmont Park June 11.

Trainer Sherill Ward yesterday said the colt was not at his best and needed a little longer to get ready for the mile and one-half Belmont. The Preakness is a mile and three-sixteenths.

Mrs. John W. Galbreath's colt has been raced only three times since recovering from a serious illness following a victory in the Garden State stakes last fall. Ward said Summer Tan came out of the Derby with a slight fever in both front feet.

KHS VARSITY TENNIS SQUAD—This group of Kingston High School varsity tennis players were undefeated in their first six matches. PITCHING—Herb Score, Indians, scattered three hits and struck out nine as Indians trounced Boston Red Sox 19-0.

BATTING — Mickey Mantle, Yankees, broke close game wide open with a grand-slam homer after drawing three walks in Yankees' 11-6 victory over Chicago White Sox.

THE SCOREBOARD

By ED WILKS
(The Associated Press)

When the St. Louis Cardinals are winning, you'll never find a pair of sapphires to match the twinkling blue of Eddie Stanky's eyes. And the little guy's peepers are flashing blue blazes right now.

The Cardinals have won five straight and six of their last seven. But more important, their 3-2 success last night swept a series from Brooklyn—something the Cards have managed just four other times since Stanky took over as manager in 1952.

WITH THE TWO DEFEATS in St. Louis, the Brooklyns find themselves dragging a three-game losing streak as they head home from a dismal western trip on which they lost five of nine. But thanks to their fantastic getaway at home, the Dodgers still hold a 7½-game lead in the National League.

Chicago is second, with the Cardinals third. The Cubs moved up by taking a doubleheader from the failing Philadelphia Phils 3-2 and 7-5. Milwaukee stumbled from the runnerup spot by losing to New York Giants 4-2.

That left the standings jammed behind the Brooks. The Cards are nine percentage points behind the Cubs and three points up on the Giants. The New Yorkers are only two points ahead of the Braves.

The only other NL game went to Cincinnati 5-1 over Pittsburgh, which now has lost seven straight.

IN THE AMERICAN, Cleveland leads by 1½ after smearing Boston 19-0. New York swept its series from Chicago's White Sox 11-6, while Detroit beat Baltimore 6-3 in 10 innings and Washington defeated Kansas City 7-2.

Not only have the Cardinals apparently found themselves, but Stanky finally is getting the pitching he's missed for so long. His guys have allowed a mere three runs in their last five games and he dumped the Brooklyns with only one call to the bullpen.

The hail for help brought in Barney Schultz last night and the 6-2 righthander got the final two outs with the tying run on second to protect Harv Haddix' second victory. That broke a five-game losing string for Haddix.

With two of their runs unearned, the Cards jammed all their scoring into the first two innings. From there on, loser Johnny Podres and Clem Labine permitted only one base runner while holding the Cards to four hits for the game.

At Milwaukee, Hank Thompson's two-run single got the Giants moving in a three run sixth. Warren Spahn was the loser while Johnny Antonelli spun a six-hitter. The Braves, who stranded seven, were without Eddie Mathews, recovering from an appendectomy.

The Cubs smacked the Phils with the help of poor fielding in the opener and three home runs in the nightcap. Sad Sam Jones, making his first start since no-hitting Pittsburgh, fanned 10 for the victory, but gave way to Hal Jeffcoat in the ninth. Jeffcoat also came on in the nightcap, relieving John Andre in the fourth, for the decision. The Phils now have lost 15 of their last 16 games.

Cleveland waltzed behind Herb Score's three-hitter. The rookie fanned nine. Willard Nixon was knocked out in an 11-run fifth inning that saw Vic Wertz drive in five runs on a grand-slammer and a single—just one short of the modern major league mark for RBIs in one frame.

AT YANKEE STADIUM, Mickey Mantle powered a bases-loaded homer following a controversial intereference play that might have ended the inning except for umpire Ed Hurley's ruling. The Sox had four homers, two by Vern Stephens, but they weren't enough. Bob Grim, the winner with help from Tom Morgan, hit Minnie Minoso in the head with a pitch, but after X-ray examination it was reported the Sox outfielder won't miss any action.

Al Kaline's single scored the tie-breaking run for Detroit, giving Frank Lary his third victory after no-hitting the Orioles through the first five innings.

At Washington, the Senators scored four in the first, with Tommy Umphlett and Pete Runnells driving in two each, and coasted past the A's.

Rookie Rudy Minarcin won his first major league start for the Redlegs behind Ted Kluszewki's two-run homer and Wally Post's basesloaded double.

Harold Johnson Back on Stand In Fight Probe

Philadelphia, May 19 (AP) — Harold Johnson, "facing one of the toughest fights of my career," was due back on the witness stand today in a probe of his collapse in a nationally televised fight with Julio Mederos.

Johnson was the only witness in yesterday's session of the investigation by the Pennsylvania State Athletic Commission into reports the 26-year-old Philadelphia boxer had been drugged before the May 6 fight.

THE COMMISSION has charged Johnson, three of his handlers and the matchmaker with negligence in covering up his pre-fight condition.

In a television interview last night, the number one light heavyweight contender said the investigation "is one of the toughest fights of my career and I'll be tickled pink when it's over."

On the stand yesterday, Johnson identified the picture of a former narcotics convict as that of a man he saw in his dressing room the night of the fight.

The man was identified for the record as Louis Saccaroma, also known as Louis Black and Louis Roman.

POLICE SAID HE had been arrested 10 times on narcotics charges and that he had been paroled in 1953 after serving five years of a ten year sentence in Lewisburg (Pa.) Federal Prison for violating the federal drug act.

In Miami, however, Saccaroma, who is one of Mederos' three managers, said:

"It's a damn lie. They're not going to make me the goat in this thing."

He denied he was in Philadelphia the night of the fight saying he was in his Miami home watching the fight on television. Two of his neighbors confirmed his statement.

Saccaroma said "I served three years and nine months of a 10-year sentence on a narcotics charge 29 years ago." He said that was his only prison term although he had been arrested again in 1951 on a numbers racket charge "but I didn't serve any time" for that.

Harold Johnson Back on Stand In Fight Probe

Philadelphia, May 19 (AP) — Harold Johnson, "facing one of the toughest fights of my career," was due back on the witness stand today in a probe of his collapse in a nationally televised fight with Julio Mederos.

Johnson was the only witness in yesterday's session of the investigation by the Pennsylvania State Athletic Commission into reports the 26-year-old Philadelphia boxer had been drugged before the May 6 fight.

THE COMMISSION has charged Johnson, three of his handlers and the matchmaker with negligence in covering up his pre-fight condition.

In a television interview last night, the number one light heavyweight contender said the investigation "is one of the toughest fights of my career and I'll be tickled pink when it's over."

On the stand yesterday, Johnson identified the picture of a former narcotics convict as that of a man he saw in his dressing room the night of the fight.

The man was identified for the record as Louis Saccaroma, also known as Louis Black and Louis Roman.

POLICE SAID HE had been arrested 10 times on narcotics charges and that he had been paroled in 1953 after serving five years of a ten year sentence in Lewisburg (Pa.) Federal Prison for violating the federal drug act.

Destroyers Win 6th Straight in City Softball

MINOSO GRIMACES IN PAIN—His face lined with pain, Minnie Minoso, Chicago White Sox outfielder, drops on his right side after being hit in the head by Yankee pitcher Bob Grim during the first inning of the Chicago-Yankee game in New York May 18. Minoso was struck on the left side of his face just below his protective batting cap. He was removed from the field on a stretcher and sent to Lenox Hill Hospital for X-rays. (AP Wirephoto).

Cars Get the Bird

Ironton, Mich. (AP)—A cock pheasant which chases automobiles, much like a dog, has taken a mile of country road as his domain. He often startles motorists rushing from a roadside field and charging along with the front wheels, his hackle feathers bristling. Glenn Williams of Ironton believes the pheasant is one of a flock he raised last year as a sportsman's club project. And Williams thinks he likely is guarding a harem in a roadside field or at least "showing off" for a lady love. As news of the car-chasing bird spread, more and more motorists started driving 10 miles an hour to see the bird run, crowing and cackling.

Lindsay Pitches 2-Hitter; Chez, Pommiers Win

Yesterday's Results

Destroyers 11, Gene's 0.
Chez Emile 9, Legion 8.
Les Pommiers 9, Local 259, 8.

By sheer power and steady pitching, the Destroyers A.C. has ensconced itself in first place in the American Division, City Softball League, and last night the Destroyers ripped off an 11-0 win over Gene's Bar as W. C. Lindsay fashioned a two-hitter, and fanned seven. It was their sixth straight victory.

Lindsay allowed four walks, and got help at the plate from B. Miller and Charlie Marable who blasted triples. B. Martin conked a double.

Other American Division action saw Chez Emile squeak out a 9-8 win over the Legion as George Glaser powdered a grand-slam job in the second frame. The winning run was scored by George Magley's blooper over short, sending Fred Schryver home.

Les Pommiers kept their undefeated streak intact in the National division, scoring two runs in the top of the seventh to defeat Local 259, 9-8.

Fuller-Skyline kept moving with a 6-3 win over Cherny's.

In addition to Glaser's four-ply blast, Fred Orr and Bud Leninger had homers for Les Pommiers, along with Brooks of Skyline.

Perilous Fatherhood

Lake Zurich, Ill. (AP)—While Mrs. Harold Giese was being taken to the hospital delivery room where she gave birth to a son, her husband fainted. He struck his head on a tile floor, suffered a brain concussion and had to be hospitalized, too.

JOHNSON TELLS HIS STORY—Lightheavyweight boxer Harold Johnson, right, listens to a question put to him by the Pennsylvania State Athletic Commission in Philadelphia, May 18, as it resumed its inquiry into the Johnson-Julio Mederos fight May 6 in which Johnson apparently was drugged and unable to continue after the second round. At left is Pete Moran, matchmaker, who was criticized for his part in the fight and for reportedly having an interest in Johnson. Johnson has told a story of eating an orange immediately prior to the fight, and saying it tasted unusually bitter. Traces of a drug were found in Johnson's system and the belief was raised that it may have come from the orange. (AP Wirephoto).

Maroon Golfers Defeat Newburgh Academy 7-5

Kingston High School's golf team stroked its way to a .500 average in Duso competition yesterday afternoon with a 7-5 victory over Newburgh Academy's swingers at Twaalfskill.

Harold Hathaway's operatives have now won one, lost one, and tied three to place them in the second slot in league meetings.

John Turck, Henry Jacobs and Dave Eyles came up in a three-way tie for low gross, the trio shooting a 76. Turck and Eyles picked up three points apiece while Jacobs and Bill Parmalee added a point between them.

Jim Hourin's 75 was low gross for the Goldbacks as he swung from the No. 2 slot, and gave the losers 2½ points. Al Rochetti in the No. 4 position gained another 2½ points for the total. Tony Dunko, who was the lead-off for Newburgh, had the second-best low gross with an 80.

Lebanon, Pa. (AP)—The city water bureau tested its new pumping station with this result: Three of the town's old water mains burst with the pressure, plumbing in many houses crumpled and everyone's tap spouted brown, iron-stained water.

Wappingers Falls Upends Marlboro

The old baseball axiom still prevails that you can steal first base. But the next best thing is a free ticket, and yesterday afternoon at Wappingers Falls, Richard Mandia and Joe Sarra issued 14 bases on balls, seven apiece, and the Fallsmen won the non-league game, 9-6.

Wappingers clustered five runs in the fourth inning, picked up three more in the fifth and that was more than enough. Extra base hits by Charles and Richard Mandia, and Conn, who pounded doubles was nullified by the walking spree.

Relyea fanned seven for Wappingers, and DeMaree who relieved him struck out four, as the Fallsmen collected only six hits.

The best individual batting effort was produced by Charles Mandia who had a "3 for 4" day at bat, and his brother, Richard, who turned in the same line.

Destroyers Win 6th Straight in City Softball

MINOSO GRIMACES IN PAIN—His face lined with pain, Minnie Minoso, Chicago White Sox outfielder, drops on his right side after being hit in the head by Yankee pitcher Bob Grim during the first inning of the Chicago-Yankee game in New York May 18. Minoso was struck on the left side of his face just below his protective batting cap. He was removed from the field on a stretcher and sent to Lenox Hill Hospital for X-rays. (AP Wirephoto).

Lindsay Pitches 2-Hitter; Chez, Pommiers Win

Yesterday's Results

Destroyers 11, Gene's 0.
Chez Emile 9, Legion 8.
Les Pommiers 9, Local 259, 8.

By sheer power and steady pitching, the Destroyers A.C. has ensconced itself in first place in the American Division, City Softball League, and last night the Destroyers ripped off an 11-0 win over Gene's Bar as W. C. Lindsay fashioned a two-hitter, and fanned seven. It was their sixth straight victory.

Lindsay allowed four walks, and got help at the plate from B. Miller and Charlie Marable who blasted triples. B. Martin conked a double.

Other American Division action saw Chez Emile squeak out a 9-8 win over the Legion as George Glaser powdered a grand-slam job in the second frame. The winning run was scored by George Magley's blooper over short, sending Fred Schryver home.

Les Pommiers kept their undefeated streak intact in the National division, scoring two runs in the top of the seventh to defeat Local 259, 9-8.

Fuller-Skyline kept moving with a 6-3 win over Cherny's.

In addition to Glaser's four-ply blast, Fred Orr and Bud Leninger had homers for Les Pommiers, along with Brooks of Skyline.

Perilous Fatherhood

Lake Zurich, Ill. (AP)—While Mrs. Harold Giese was being taken to the hospital delivery room where she gave birth to a son, her husband fainted. He struck his head on a tile floor, suffered a brain concussion and had to be hospitalized, too.

JOHNSON TELLS HIS STORY—Lightheavyweight boxer Harold Johnson, right, listens to a question put to him by the Pennsylvania State Athletic Commission in Philadelphia, May 18, as it resumed its inquiry into the Johnson-Julio Mederos fight May 6 in which Johnson apparently was drugged and unable to continue after the second round. At left is Pete Moran, matchmaker, who was criticized for his part in the fight and for reportedly having an interest in Johnson. Johnson has told a story of eating an orange immediately prior to the fight, and saying it tasted unusually bitter. Traces of a drug were found in Johnson's system and the belief was raised that it may have come from the orange. (AP Wirephoto).

Cars Get the Bird

Ironton, Mich. (AP)—A cock pheasant which chases automobiles, much like a dog, has taken a mile of country road as his domain. He often startles motorists rushing from a roadside field and charging along with the front wheels, his hackle feathers bristling. Glenn Williams of Ironton believes the pheasant is one of a flock he raised last year as a sportsman's club project. And Williams thinks he likely is guarding a harem in a roadside field or at least "showing off" for a lady love. As news of the car-chasing bird spread, more and more motorists started swinging into his domain and driving 10 miles an hour to see the bird run, crowing and cackling.

Wappingers Falls Upends Marlboro

The old baseball axiom still prevails that you can steal first base. But the next best thing is a free ticket, and yesterday afternoon at Wappingers Falls, Richard Mandia and Joe Sarra issued 14 bases on balls, seven apiece, and the Fallsmen won the non-league game, 9-6.

Wappingers clustered five runs in the fourth inning, picked up three more in the fifth and that was more than enough. Extra base hits by Charles and Richard Mandia, and Conn, who pounded doubles was nullified by the walking spree.

Relyea fanned seven for Wappingers, and DeMaree who relieved him struck out four, as the Fallsmen collected only six hits.

The best individual batting effort was produced by Charles Mandia who had a "3 for 4" day at bat, and his brother, Richard, who turned in the same line.

Maroon Golfers Defeat Newburgh Academy 7-5

Kingston High School's golf team stroked its way to a .500 average in Duso competition yesterday afternoon with a 7-5 victory over Newburgh Academy's swingers at Twaalfskill.

Harold Hathaway's operatives have now won one, lost one, and tied three to place them in the second slot in league meetings.

John Turck, Henry Jacobs and Dave Eyles came up in a three-way tie for low gross, the trio shooting a 76. Turck and Eyles picked up three points apiece while Jacobs and Bill Parmalee added a point between them.

Jim Hourin's 75 was low gross for the Goldbacks as he swung from the No. 2 slot, and gave the losers 2½ points. Al Rochetti in the No. 4 position gained another 2½ points for the total. Tony Dunko, who was the lead-off for Newburgh, had the second-best low gross with an 80.

The score:

Feeling the Pressure

Lebanon, Pa. (AP)—The city water bureau tested its new pumping station with this result: Three of the town's old water mains burst with the pressure, plumbing in many houses crumpled and everyone's tap spouted brown, iron-stained water.

Cannibalism, from the Greek words, means the "eating of man," according to the Encyclopedia Britannica.

Red Hook Student Wins C-H Award Of Grant to RPI

Louis G. Leffler of 89 West Market street, Red Hook, a senior student at Red Hook Central School, today was awarded a four-year engineering scholarship to Rensselaer Poly-technic Institute by the Central Hudson Gas & Electric Corpora-tion.

Frederick W. Snyder, Eastern Division Manager of Central Hudson, presented the scholar-ship award to Mr. Leffler at a student assembly in the Red Hook Central School. R. L. Wil-liams, school principal, partici-pated in the ceremony.

Mr. Leffler, 17, is the seventh recipient of the annual scholar-ship by Central Hudson. He will enter RPI at Troy this fall.

MR. LEFFLER, with 32 stu-dents representing schools from all over the Central Hudson Val-ley, participated in a summer course last year covering all phases of gas and electric utility operations. The scholarship award to Mr. Leffler was based on academic standing, personal-ity and leadership qualities and aptitude for engineering work.

He was elected president of his class for each of his four years at Red Hook High School. His activities include a wide participation in athletics. He played junior varsity football, baseball and basketball and varsity football in his junior and senior years. He is a member of the National Honor Society for Secondary Schools.

Central Hudson has announced plans for its summer course for students again this year, one of whom will receive an engineering scholarship available in the fall of 1956. Principals of the various high schools are now selecting outstanding junior students for this year's course.

Red Hook Student Wins C-H Award Of Grant to RPI

Louis G. Leffler of 89 West Market street, Red Hook, a senior student at Red Hook Central School, today was awarded a four-year engineering scholarship to Rensselaer Poly-technic Institute by the Central Hudson Gas & Electric Corpora-tion.

Frederick W. Snyder, Eastern Division Manager of Central Hudson, presented the scholar-ship award to Mr. Leffler at a student assembly in the Red Hook Central School. R. L. Wil-liams, school principal, partici-pated in the ceremony.

Mr. Leffler, 17, is the seventh recipient of the annual scholar-ship by Central Hudson. He will enter RPI at Troy this fall.

MR. LEFFLER, with 32 stu-dents representing schools from all over the Central Hudson Val-ley, participated in a summer course last year covering all phases of gas and electric utility operations. The scholarship award to Mr. Leffler was based on academic standing, personal-ity and leadership qualities and aptitude for engineering work.

He was elected president of his class for each of his four years at Red Hook High School. His activities include a wide participation in athletics. He played junior varsity football, baseball and basketball and varsity football in his junior and senior years. He is a member of the National Honor Society for Secondary Schools.

Central Hudson has announced plans for its summer course for students again this year, one of whom will receive an engineering scholarship available in the fall of 1956. Principals of the various high schools are now selecting outstanding junior students for this year's course.

2,000 Acres Scorched

Manorville, N. Y., May 19 (AP)—More than 500 forest rangers, firemen and Civil Defense volunteers battled for 12 hours yesterday before putting out a wind-whipped fire which burned 2,000 acres of scrub oak. The smoky Long Island blaze, of undetermined origin, broke out about 11 a. m. and it was not until 11 p. m. last night that the tired firefighters went to their homes in a half-dozen adjacent communities. There were no injuries, and damage was done only to undeveloped areas. But in the path of the fire were a number of unoccupied summer bungalows and camps. A shift in the wind had caused the blaze to head in the direction of Riverhead, Suffolk county seat.

Nearly 8 out of 10 motor vehicles in the world are American owned.
